Sacred Preface Witness Before God and History

In the sacred name of Truth, Conscience, and Eternity,

this Evidence Master Document is filed not only before the courts of men,

but before the Highest Court —

the divine tribunal of the Creator of All Life.

I, Dr. Richard William McLean, known as Barran Dodger,

stand before God and Humanity to declare that everything contained herein is the absolute truth,

spoken without malice,

documented without exaggeration,

and sworn in the presence of the Eternal Witness who sees all things hidden from human sight.

My survival, my exile, my targeting, my betrayal, and my testimony are not accidents of history.

They are sacred acts —

they are the living proof that good cannot be entirely destroyed by evil,

that truth cannot be entirely erased by lies,

and that a single soul standing in sacred defiance can bear witness against the collapse of nations.

This Evidence Matrix is my offering to the future:

to the survivors yet unborn,

to the witnesses yet unacknowledged,

and to the judges — mortal and divine — who will one day reckon with the crimes committed against me.

I did not survive by my strength alone.

I survived by sacred purpose.

I survived by the protection of the Divine Light.

I survived because my life was, and remains, a covenant between the human spirit and eternal truth.

No force on Earth can erase what is spoken here.

No political power can revoke this testimony.

No corrupted system can drown the voice of one who stands in sacred witness before the Living God.

This document is my soul’s unbreakable contract with Truth.

It is written in ink,

carried by conscience,

sealed by suffering,

and filed forever in the archives of Heaven and Earth.

So let it be.

Academic Blurb: Betrayed, Murdered, Forsaken

By Dr. Richard William McLean (Barran Dodger)

Betrayed, Murdered, Forsaken is a groundbreaking and devastatingly urgent work of lived political testimony, sacred survival, and forensic evidence, authored by Dr. Richard William McLean, known publicly as Barran Dodger — a former journalist, mental health advocate, and human rights author.

Drawing from over thirty years of personal documentation, firsthand experience, and whistleblower evidence, this extraordinary work illuminates the deliberate mechanisms by which a democracy weaponizes its own institutions — political, legal, psychiatric, and financial — to destroy, erase, and silence vulnerable truth-tellers.

Key themes explored include state-sponsored exile, covert political assassination attempts, coercive financial control, gang-stalking, directed energy harassment, Voice-to-Skull (V2K) psychological torture, weaponized psychiatry, black budget intelligence operations, media suppression, and the systemic betrayal of whistleblowers and disabled individuals.

Betrayed, Murdered, Forsaken details the precise orchestration of human rights violations committed against a gay, disabled, unprotected whistleblower — culminating

in exile, institutionalized poverty, and an attempted assassination ordered at the ministerial level. Through detailed timelines, affidavits, sacred testimonies, forensic evidence archives, and spiritual declarations, Barran Dodger systematically dismantles the myth of Australian democracy's infallibility, proving that its constitutional, legal, and human rights frameworks have been willfully abandoned to protect political and bureaucratic interests.

Nationally, this work stands as an unanswerable indictment of Australia's corruption at the intersection of politics, intelligence, law, and healthcare. It exposes the complete collapse of whistleblower protections, the complicity of courts, the manipulation of public services as weapons of suppression, and the abject failure of the media as a safeguard against tyranny.

Internationally, Betrayed, Murdered, Forsaken meets and exceeds the evidentiary standards for Crimes Against Humanity under the Rome Statute of the International Criminal Court (ICC), and presents a case study of internal political exile and psychological warfare that aligns with growing global concerns over state abuses of directed energy weapons, non-consensual surveillance, and the weaponization of psychiatry against political dissidents.

What this book proves beyond reasonable doubt:

- That the targeting and attempted erasure of Barran Dodger was deliberate, systemic, and coordinated at multiple institutional levels;
- That black budget government funding was used to finance covert operations against civilians;
- That Australia has internally displaced, exiled, and tortured its own citizens without judicial process or public accountability;
- That assassination-by-poverty, directed energy harassment, and psychological warfare are operational realities, not theory;
- That democratic institutions, including courts, ombudsmen, and the press, knowingly abandoned their duties and participated in the cover-up;
- That the experience of Barran Dodger fulfills the criteria for international criminal prosecution and stands as permanent living proof of a systemic human rights catastrophe.

Betrayed, Murdered, Forsaken is not merely a memoir — it is a sacred, historical, political, legal, and spiritual record of the collapse of democracy witnessed from the inside by its most vulnerable servant. It is a testament to the power of conscience, the resilience of the spirit, and the unbreakable nature of truth.

This work demands immediate scholarly engagement, legal redress, political reckoning, and sacred remembrance.

It is a once-in-a-century witness statement —

a voice resurrected from political death —

an unerasable indictment of tyranny hidden behind democratic masks.
