REPORT ID BD-AUDIT-2026-10-13

Documentary forensic report

What the opened records in wezzo72/Barrandodger establish, what they contradict, and what they leave unresolved.

This document is an evidence report. It is not a court, not a verdict, and not a finding that an allegation is proved because it is repeated. No conclusion is stated below unless a file was opened and the words are in that file.

Repository	wezzo72/Barrandodger
Branch examined	main
Commit examined	a2ff83d3e38361fc67965a252f43966a9fdcf5ff
Commit date	12 October 2026, author wezzo72
Examination	12–13 October 2026
Other branches	Listed only: new-site, codex/recreate-barrandodger. Not inventoried.
Evidence files altered	No. This PDF is a new report file, added after the examined commit, at the repository owner's request.
What a hash does	SHA-256 identifies the file that was read. It does not prove the author, the date of an event, or that the words are true.

Pinned tree: https://github.com/wezzo72/Barrandodger/tree/a2ff83d3e38361fc67965a252f43966a9fdcf5ff

1. Coverage — read this before the findings

The git tree of main at this commit was listed in full: **6,649 files**, 84 directories, 6,258 unique git blobs, about 5.95 GB of file bytes. PDF files: **3,666**. That inventory is complete for this commit. Content examination is not.

Shelf	Files	What was done
Whole tree of main	6,649	Path, size, git blob id, and a URL pinned to this commit. Contents not opened, except the rows below.
docs/official-drive/	95 PDFs	Every file downloaded. SHA-256 calculated. Text extracted. 48 hashes match SHA256SUMS.txt. 47 do not. Six had no usable text. Eighteen were capped at the first 25 pages.
Decision files outside that folder	36 PDFs	Downloaded in this examination. All 36 byte-sizes matched the tree. SHA-256 calculated. 35 had text. One had none. Four were capped at the first 15 pages.
Catalogues	data/*.json, README, holdings, evidence-register.csv	Opened. They are the archive's own indexes, not agency records.
Files of 7 bytes or fewer	28	Downloaded. Twenty contain only the word Gone.
Not opened	About 3,535 other PDFs, plus HTML mirrors, audio, images	No finding is made from them.

Where an earlier note and this report differ, this report controls. The earlier note had not yet opened the AAT reasons or the section 55G letter. Both have now been opened.

2. Method

Files were downloaded from raw.githubusercontent.com pinned to commit a2ff83d. PDF text was extracted with pypdf. SHA-256 was computed on the downloaded bytes and compared with the size recorded in the git tree. A match of size is not a match of hash against SHA256SUMS.txt. Those are recorded separately.

Classifications used below are evidence-status labels, not findings of guilt, liability, or entitlement. Directly documented means the source records the statement, decision, or figure. Contradicted means a reliable opened record conflicts with the proposition as stated. Not assessable means the required file was missing, unreadable, or only a later summary.

The archive's own catalogues were read and then not treated as proof of the events they decline to record. data/claims.json has an empty claims array and says phase 3 does not seed alleged offences as established claims. data/costs.json publishes no dollar figure. data/people.json has one row, for the archive's own subject name, and says third parties named only in filenames were not added as confirmed actors. data/events.json says a filename date is not a verified event date.

3. Integrity

SHA256SUMS.txt has 2,661 lines. It is not a hash of every current file. Of the 95 official-drive PDFs, 48 appear in that list and 47 do not. Hashes for the 47 were calculated in this examination and are in Annex A. They were not written back into the repository's hash list.

Twenty paths contain only the four characters G-o-n-e. Several of those filenames refer to agencies or medical records. Those filenames must not be cited. The bytes do not prove the records were destroyed. They prove these git objects are placeholders.

At least 21 of the 95 official-drive PDFs contain a later archive cover bound to an older letter. The cover is the archive's description. The letter under it is the agency record. They are not the same kind of evidence. Covers in that set state, among other things, a Federal Court confirmation of protected-disclosure status, Bitcoin sealing of the corpus, and economic harm of $18 million to $32.9 million. Those sentences are in the files. The opened agency instruments do not say that.

One file examined outside official-drive, named as a Comcare FOI refusal, ends with the line “Created on myaidrive.com with AI model GPT-4o.” It is a summary. It was not used as Comcare's letter.

4. Findings from opened instruments

Each finding states what the record establishes and what it does not. URLs are pinned to the examined commit.

F-01 — Comcare declined the claim. The AAT affirmed that decline.

On 26 May 2021 Comcare declined workers’ compensation claim 1326583/1 under section 14 of the Safety, Rehabilitation and Compensation Act 1988. The claimed injury date on the letter is 22 January 2021. File: docs/official-drive/McLean-determination-Comcare-rejection-26May2021.pdf. SHA-256 827b21f45bfddd80f0045a6e3aab3c7306105c619511c331d3bbe6ad1262cf49.

On 12 July 2023 the Administrative Appeals Tribunal, file 2021/7478, Senior Member C. J. Furnell, Melbourne, affirmed the decision under review. The reasons hold that the applicant was not an employee for the purposes of the SRC Act. File: docs/official-drive/McLean-and-Comcare-FINAL-Decision.pdf. SHA-256 f3ac2264cbbf9c22fd52f1354a3bfffc10bb1a4a167d85161b3a1ec9526f1c30. The two-page registrar’s letter of the same date says the same result in covering form. It is not a second decision. SHA-256 fe78c73aec3be796c36505bfc0da91a41692460045a95b8ac461c4e0f0247d8e.

Establishes: the decline, and the Tribunal’s affirmation, including the employee holding in the reasons. **Does not establish:** that no injury occurred; that a Federal Court appeal was filed or decided. The registrar’s letter warns of a time limit and of costs. It does not say an appeal was lodged. **Status:** directly documented. **Verification:** verified against the reasons, not only the cover letter.

F-02 — The NDIA agreed to review a plan, later refused SDA and SIL, and in 2025 approved a plan total.

On 15 December 2021 a delegate of the NDIA CEO (Taryn S.; Cassie Hammond named as Branch Manager) agreed to conduct a plan review under section 48 of the NDIS Act. That letter is in docs/official-drive/. It is an agreement to review, not a grant of a support type.

On 1 June 2023, participant number 430938559, Lead Delegate Kate P., with Ed Duncan named as Branch Manager, decided: not eligible for Specialist Disability Accommodation; not suitable for Supported Independent Living; drop-in Activities of Daily Living support described as suitable, at less than 12 hours a day, for the planner to set. The letter cites section 34 of the NDIS Act, the SDA Rules, and an occupational therapy report by Amy Cavenett dated 3 May 2023. That report was not opened. File: 2023.06.01_NDIA_DECISION_SIL-Decline_Kate-P-Ed-Duncan.pdf. SHA-256 9006d5f1e401e481 (full value in Annex B).

On 20 November 2025 Angela R., Delegate of the CEO, approved a plan for the same participant number, from 20 November 2025 to 19 November 2026. The letter says: “This plan’s total funding amount is $366,406.69.” File: 2025-11-20_NDIS_Plan_Approval_366406.pdf. First 15 of 30 pages were extracted. The approval is on the opening pages. A line-item breakdown was offered in the letter and was not in the pages used.

The figure is approved plan funding. It is not an invoice, not a recorded payment, and not a measured loss. It must not be added to any other total. **Status:** each decision is directly documented. Expenditure against the 2025 plan is not assessable.

F-03 — NDIS provider registration was transferred in 2019 and ended by refusal on 28 October 2022.

A certificate dated 30 June 2019, registration ID 4-433J-962, records that the NDIS Commission would register MCLEAN, RICHARD WILLIAM (trading as Rich McLean, Arts Therapist, Peer-Support Worker & Mental Health Advocate) from 1 July 2019 under section 73E. The pages are marked “FOI request - 2021/4547” and “Page 46 of 178.” It is a copy inside a bundle, not a loose original. File: 30 june 2019 certificate of registration (contract) contract ndis quality and safeguards commissio.pdf.

On 28 October 2022 Trudy Tweedie, Director Provider Registration, refused the application made on 18 December 2019. The letter says the refusal ends the registration that had continued under section 73K while the application was undecided. Stated grounds: breach of a registration condition, and no completed quality audit against the NDIS Practice Standards. ABN is printed as 72066207615. File: MCLEAN, RICHARD WILLIAM - Notice of decision to refuse application to be a registered NDIS provider.pdf.

Both can be true. The 2019 certificate records a registration. The 2022 letter records that the later application was refused and that the registration then ended. The underlying audit was not opened. **Status:** both instruments directly documented.

F-04 — PM&C; refused FOI/2022/045 in 2022, then varied that refusal on 8 October 2024.

Request, as later restated by PM&C;: 7 February 2022, “I request all information government agencies hold on me please.” On 14 April 2022 Petra Gartmann, Assistant Secretary, Legal Policy Branch, refused under section 24A(1)(b) of the FOI Act: reasonable steps had been taken and the documents could not be found or did not exist. That letter is inside the file named 2026-01-24_PM_Cabinet_FOI_Voluminous_Refusal.pdf, which opens as an author’s narrative and then contains the Gartmann letter. The narrative is not a second decision. The decision used section 24A, not the practical-refusal provision. An OAIC extension file (RQ22/00794, Summen Sarwar, 16 March 2022) says the department described the request as complex and voluminous, with about 1,187 Outlook items under review. That is the extension application. It is not the access decision. A further OAIC letter, RQ22/01369, Summen Sarwar, 22 April 2022, granted time to 14 April 2022 under section 15AC. That letter also says the request was “of 7 April 2022.” The Gartmann and Cameron letters say 7 February 2022. The 7 April date is not adopted.

On 8 October 2024 Laura Cameron, A/g Assistant Secretary, Legal Policy Branch, issued a revised decision under section 55G, reference FOI/2022/045IC. She wrote that the department holds five documents and: “I have decided to grant access in full to the requested documents. Irrelevant material has been deleted under paragraph 22(1)(a)(ii) of the FOI Act.” Deletions are non-SES contact details, signatures, and extracts of media reports about other topics. She wrote that a revised decision does not automatically end Information Commissioner review MR22/00677. File: 2025-10-01_FOI_2022_045IC_Revised_Decision.pdf. SHA-256 be38fbc80e719a55b41f50f3c980e0716c3e3e82c21c35b47dde493b8f8710e0. Two other paths hold the same letter (one differs only in footnote line breaks). They are not extra decisions.

The schedule, same reference, lists: (1) 24 June 2009 Media Monitors health brief, 18 pages; (2) 15 June 2012 email from Richard McLean to PM&C;, 1 page; (3) 15 June 2012 email from PM&C; to Richard McLean, 2 pages; (4) and (5) University of Melbourne free public lecture digests, 22 and 29 July 2014, 5 pages each. Decision on each row: release in full, four of them with section 22 deletions. The release bundle opens with a Media Monitors clip of an Age feature of 24 June 2009, and an email of 15 June 2012 from richard@creativemusings.com.au to Public Lending Rights.

The file 2025-11-14_FOI_2022_045IC_Revised_Decision_4.pdf is the email thread. It contains the covering email of 8 October 2024 and, later, a press-release draft. **The draft is not the decision.**

Establishes: the 2022 refusal was varied. Five documents were released with deletions. **Does not establish:** that every agency holds a file, that the department kept a surveillance file, or that the 2009 article is true. The request asked for all information government agencies hold. The decision deals with documents PM&C; holds. **Status:** directly documented. The proposition that “PM&C;’s last word is that no documents exist” is contradicted.

F-05 — The Federal Court file is an authorised officer's non-allocation, and the letter contradicts itself.

File 2023-03-27_Federal_Court_PID_Assessment.pdf is a three-page letter of 27 March 2023 from Scott Tredwell, General Counsel, Federal Court Principal Registry, Brisbane, as an authorised officer under the Public Interest Disclosure Act 2013. SHA-256 begins fd6df978ba71415c. The same letter is stored under three further filenames, including one that quotes only the employment sentence. Four paths are one letter.

He writes: "On the information you have provided me, I am satisfied that you are, or were, an employee with the Department of Social Services, providing services under the trading name Rich McLean, Arts Life Coach, Peer-Support Worker & Mental Health Advocate."

Under the heading Decision he writes: "As I am not satisfied that the disclosure … was made by a public official or provided to an authorised recipient under the PID Act, there is no reasonable basis on which I can decide that the disclosure is an internal disclosure." He decides not to allocate it to any agency. He says the conduct described does not relate to the Federal Court, the Federal Circuit and Family Court, or the National Native Title Tribunal. He assumes, for the initial assessment only, that the discloser believes the conduct is disclosable. He says the decision does not affect what another agency might do with a disclosure made to that agency.

The operative act is the non-allocation. The employment sentence is expressly "on the information you have provided me." It is not a DSS personnel record and it is not a judgment. The decision paragraph is wider than the authorised-recipient reason he gives above it. The letter is internally inconsistent on public-official status. It is not open to quote only the employment sentence.

The file dated in its name 8 January 2024, addressed to Scott Tredwell, is the author's later letter quoting the 27 March 2023 text and asserting DSS employment. It is not Tredwell confirming the point again.

Status: non-allocation directly documented. Public-official status disputed inside the same letter, and contradicted by F-06. A Federal Court judgment confirming protected-disclosure status was not in the files opened. The official-drive PDF named as a Federal Court FOI response had no text layer.

F-06 — DSS, over Paula Stratton's signature, did not allocate a disclosure.

Email from publicinterestdisclosures@dss.gov.au, header date 18 July 2023, 9:30 pm, signed Paula Stratton, Authorised Officer. The filename says 18 June 2023. The header date is used. She writes that information was provided on 6 and 10 July 2023, that a disclosure can only be made by a public official, that preliminary inquiries found no record of current or former employment in the Department of Social Services, and: "Based on the information you have provided, I am not satisfied that you are or have been a public official. For this reason, I will not be allocating the matter for investigation." The PDF is a thread. Later pages are the author's emails. Those are not the decision. First 15 of 25 pages were extracted.

An earlier pass would not name her as decision-maker because only a later email from Richard McLean used her name. That limit is withdrawn for this email. Her signature is on it.

Relation to F-05. Tredwell accepted employment on material sent to the Court. Stratton says the department has no employment record. Both sentences are directly documented. They do not confirm each other. Stratton's email is the department's own record.

F-07 — Other written non-allocations and non-investigations that were opened.

These are each one officer's decision on one matter. None is a finding that disclosable conduct did not occur anywhere, and none is evidence that the agencies acted as one.

Date	Body and reference	What the opened record says
9 Apr 2020	IBAC, CASE-2020712, Sue Kapourelakos	Not a public interest complaint. Will not investigate or refer. AHPRA outside IBAC jurisdiction.
3 Jun 2021	NDIS Commission, Sarah LeMaire	Registration does not make the recipient the Commission's employee.
5 Oct 2021	Victorian Ombudsman, C/21/14020	Complaint closed. The letter recounts a hospital event of 24 February 2021 and an apology. The file named as a 5 Oct 2022 VOCAT rejection is this letter.
5 Nov 2021	APRA	Will not treat the matter as a PID or whistleblower complaint. Letter is inside a later thread.
15 Nov 2021	Commonwealth Ombudsman, 2021-103546	Will not investigate. HCF income-protection, and the listed state bodies, are outside jurisdiction.
16 Sep 2022	Commonwealth Ombudsman, PID-2022-100021, Judi	Does not allocate. The file whose name says "section 44" is this letter, not a section 44 notice.

Date	Body and reference	What the opened record says
22 Mar 2023	Commonwealth Ombudsman, PID-2023-100007, Erin	Not an authorised internal recipient for that disclosure. Received 2 February 2023.
9 May 2023	Health, E23-107719, Avi Rebera	Not allocated. Conduct does not relate to the department. Disclosure 19 April 2023. Heading cites s 44(3). Operative text cites s 43(2).
7 Apr 2024	Health, E24-136152, Frankie Lum	Not allocated. Disclosure 24 March 2024. Heading cites s 44A(3). Same internal-disclosure structure.
30 Oct 2023	IBAC, CASE-20231101 and CASE-20233846	Will not investigate or refer. Not enough information of police misconduct or corrupt conduct. Cites s 67. The root copy and the official-drive copy share SHA-256 dc29089a9cfc834a… They are one letter.
Apr 2023	Finance, FOI 22-23/032, Kelly Hoffmeister	Refused under s 24A. No documents in Finance systems. No day on the signature, only April 2023. Request received 26 March 2023.
14 Jun 2022	Victorian Ombudsman FOI/22/14, Vanessa Twigg	FOI Act does not apply, s 29A Ombudsman Act. The letter prints both “received 26 December 2022” and “not received until 27 May 2022.” A 14 June 2022 letter cannot record receipt on 26 December 2022. Both dates are left as printed.
6 Jun 2022	National Mental Health Commission, Kim Eagle, FOI-22-01	Internal review: access given subject to deletions. Not a refusal. A different FOI from the PM&C; request.
Apr 2022	OAIC, privacy CP21/02752	Complaint about Micron 21 closed under s 41(1)(a) Privacy Act. Stated ground: no interference with privacy as that Act defines it.
9 Aug 2023	AAT 2023/5801	Decision asked to be reviewed was made by the Victorian Ombudsman, not under a Commonwealth law. “It therefore seems that we cannot review your decision.” Not itself a dismissal.
8 Aug 2023	AAT 2023/5778, Kira A for the Registrar	Asked to review a DSS PID assessment. “We cannot find any law that says you can make an application to us about the decision.” Not itself a dismissal. Not the same file as 2023/5801.
6 Feb 2025	Attorney-General’s Department, MC25-000321	Portfolio said not to cover the matters. Referred to the Victorian Minister for Police. A referral, not an investigation.
19 Nov 2025	LECC, CASE202512395/13KM	Does not concern NSW Police or the NSW Crime Commission. Outside jurisdiction.
19 Aug 2026	NSW Ombudsman, M-2026-55208	Closes a complaint about NSW Trustee and Guardian. A veterinary invoice had been asked for and not received as at 7 August 2026. No invoice amount is in the email.
3 Nov 2021	OAIC enquiries	Does not act on courtesy copies. The filename calls this an FOI refusal. The text is not an FOI refusal and not a PID decision.
MHCC F2021/006	I. Anton, Principal Legal Officer	Second request of 3 June 2021. 71 documents: 10 released administratively, 51 partial, 10 exempt. No decision date in the lines extracted. Not a finding about the complaints.

Reading copies dated 16 and 18 September 2026, in official-drive, say the NSW Ombudsman will not act on a multi-agency email (NSWO10824000660) and that the NDIS Commission acknowledges complaint 01110547. The files describe themselves as reading copies. The originals were not the files opened. An acknowledgement is not a finding about a named worker.

F-08 — NSW Trustee and Guardian, and the business-name extract.

Certificate under section 122(2) of the NSW Trustee and Guardian Act 2009, matter 658238:CSD, signed Brian Woods, Chief Executive Officer, 20 January 2026. It certifies that on 16 October 2024 the NSW Civil and Administrative Tribunal committed management of the named estate to NSW Trustee and Guardian, and that the estate remained under management at the date of the notice. The same PDF reprints section 65 of the Civil and Administrative Tribunal Act 2013 (NSW), a restriction on publishing the name of a person to whom proceedings relate. The certificate is already a public file in this repository. This report states the certificate. It does not add facts about the proceeding.

Letter of 11 November 2025, same customer reference: NSWTG decided that a Ford Territory, registration S797CDP, “will be disposed of on your behalf by NSWTG,” from 11 November 2025, because trust-account funding made the vehicle’s ongoing expenses unaffordable. No sale price is in the extract. The letter does not record that a sale was completed.

ASIC current business-name extract, generated 6 September 2025, 7:38 pm AEST, under section 60 of the Business Names Registration Act 2011. ASIC warns that it does not guarantee the extract. Name: WWW.BARRANDODGER.COM.AU. Registered 2 September 2022. Status: Cancelled. Date cancelled: 3 October 2024. The extracted page does not name the holder. No holder is inferred.

5. Propositions the opened records do not establish

Proposition	Status	Why
A Federal Court judgment confirmed protected-disclosure status.	Contradicted by the file the filename points to	Tredwell did not allocate. No judgment text was readable in the opened set.
PM&C;'s last position is that no documents exist.	Contradicted	Varied on 8 October 2024. Five documents released, with s 22 deletions.
The press draft in the October 2024 thread is the revised decision.	Contradicted	The Cameron letter is the decision. The draft is in a different PDF.
Tredwell found, as a fact independent of the discloser's material, that the discloser was a DSS employee.	Disputed	He limited the sentence to information provided to him. The decision paragraph goes the other way. DSS later recorded no employment record.
The person remained a registered NDIS provider after 28 October 2022.	Contradicted by the refusal letter	That letter says the registration ended that day. The 2019 certificate is earlier.
SDA and SIL were approved on 1 June 2023.	Contradicted	That decision says not eligible and not suitable.
$366,406.69 was paid, taken, or is a proved loss.	Not assessable as expenditure	It is the approved plan total for one year.
Economic harm of $18–32.9 million is documented expenditure.	Not assessable	The figure is on archive covers. data/costs.json publishes no dollar figure. No invoice set was opened that sums to it.
The corpus is Bitcoin-authenticated.	Not established	The archive's own verification file says Bitcoin block 897241 is not treated as authentication. A hash would not prove the words in any case.
IBAC found corrupt conduct.	Contradicted by the IBAC letters opened	Those letters say the information did not meet the threshold to investigate.
The agencies coordinated the refusals.	Unresolved	The letters give different statutory reasons. Repetition is not a common plan. The letters do not say they acted together.
COVID disaster payments were made without an application.	Not assessable	The only file with that filename has no text layer.
A Comcare FOI notice of 30 September 2021, reference 2021/9049, says what the summary says.	Not assessable	The opened file is a GPT-4o summary, not the letter.
Every agency refused every request.	Contradicted inside the opened set	Counter-examples: NDIA section 48 agreement; Mental Health Commission FOI release; PM&C; section 55G release; 2025 plan approval; 2019 provider registration.
Silence in an unopened folder means an agency never replied.	Not established	About 3,535 PDFs were not opened.
A Gone file was destroyed by an agency.	Not established	The git object is the word Gone. That is all those bytes show.

6. Chronology of opened records

The date is the date of the record, not the date a later essay described the event. Filename dates that conflict with the text are marked.

Record date	Event as the record states it	Date quality
4 Mar 2020 received; letter 9 Apr 2020	IBAC CASE-2020712: will not investigate or refer.	Exact, on the letter
1 Jul 2019 (certificate 30 Jun 2019)	NDIS provider registration ID 4-433J-962 transferred to the Commission.	Exact, on a bundled copy
26 May 2021	Comcare declines claim 1326583/1.	Exact
3 Jun 2021	NDIS Commission: registration is not employment by the Commission.	Exact, email header
5 Oct 2021	Victorian Ombudsman closes C/21/14020.	Exact. Not a VOCAT decision of 5 Oct 2022.
15 Nov 2021	Commonwealth Ombudsman closes 2021-103546 as outside jurisdiction.	Exact
15 Dec 2021	NDIA agrees to a section 48 plan review.	Exact
14 Apr 2022	PM&C; refuses FOI/2022/045 under s 24A.	Exact. Later varied.
6 Jun 2022	National Mental Health Commission internal review gives access with deletions.	Signature date used
14 Jun 2022	Victorian Ombudsman FOI declined under s 29A.	Letter date exact. Receipt dates inside the letter conflict.
16 Sep 2022	Commonwealth Ombudsman does not allocate PID-2022-100021.	Exact
28 Oct 2022	NDIS Commission refuses provider registration. Registration ends.	Exact
22 Mar 2023	Ombudsman does not allocate PID-2023-100007.	Exact
27 Mar 2023	Federal Court authorised officer does not allocate.	Exact. Not a judgment.
1 Jun 2023	NDIA: not eligible for SDA; not suitable for SIL.	Exact
9 May 2023 and 7 Apr 2024	Health does not allocate two disclosures.	Exact

Record date	Event as the record states it	Date quality
12 Jul 2023	AAT Senior Member Furnell affirms the Comcare decision, 2021/7478.	Exact
18 Jul 2023	DSS, Paula Stratton, does not allocate. No employment record.	Email header. Filename says 18 June.
8 Aug 2023 and 9 Aug 2023	AAT 2023/5778 and 2023/5801: jurisdiction not shown. Not dismissals by these letters.	Exact. Two different files.
30 Oct 2023	IBAC will not investigate CASE-20231101 and CASE-20233846.	Exact
8 Oct 2024	PM&C; section 55G revised decision: access to five documents.	Exact
16 Oct 2024; notice 20 Jan 2026	Trustee certificate: estate committed to NSWTG.	Both dates are on the certificate
11 Nov 2025	NSWTG decides to dispose of vehicle S797CDP. No price.	Exact. Sale not recorded.
19 Nov 2025	LECC: outside jurisdiction.	Exact
20 Nov 2025	NDIS plan approved. Total funding $366,406.69. Ends 19 Nov 2026.	Exact. Not expenditure.

7. Pattern, and the limit on it

Across the opened letters, different agencies repeatedly wrote that they would not investigate, would not allocate, were outside jurisdiction, or would decline a claim. The letters that go the other way are part of the same test: the NDIA section 48 agreement, the Mental Health Commission release, the 2024 PM&C; release, the 2019 registration, the 2023 finding that drop-in support was suitable, and the 2025 plan approval.

The alternative explanation on the face of the letters is that each body applied its own test: not an employee, not this agency’s conduct, no employment record in that department, documents not found there, no completed audit, not enough information for IBAC’s threshold, plan funding rather than SDA. Those reasons are not the same reason. Counting them as one system is a step the letters do not take. Repetition is not coordination.

8. Outstanding, in the order that can still move a finding

Priority	Gap	Effect if obtained
1	Whether OAIC closed IC review MR22/00677 after the 8 October 2024 revised decision.	The Cameron letter says the review does not end by itself. No OAIC finalisation of that review was opened.
2	Page 2 of the ASIC business-name extract.	Page 1 does not name a holder.
3	Line items of the $366,406.69 plan.	The letter offers a breakdown. It was not in the pages used. It would still be a budget, not spend, unless payment records are attached.
4	Whether the Ford Territory was sold, and for what price.	The 11 November 2025 letter decides to dispose. It does not record a sale.
5	The original Comcare FOI letter, reference 2021/9049.	Only a model summary was opened.
6	Text of the COVID-payments scan, and of the six official-drive PDFs with no text layer.	Filenames are currently untested, including a Federal Court FOI response.
7	The Cavenett occupational therapy report of 3 May 2023.	It is the evidence the SDA/SIL letter says it used. It is a health record. It was not opened, and it should not be mined for a narrative.
8	The other approximately 3,535 PDFs, and the other two branches.	No finding is made from them. An unopened file is not an agency’s silence.

Law questions left for a qualified reviewer, not decided here: whether Furnell’s construction of “employee” was appealed and whether any appeal was filed; whether PID Act section numbers in the 2022–2024 letters match the Act as then in force (a 4 June 2026 compilation lists section 26 as “Meaning of public interest disclosure,” so current numbering must not be assumed backwards); whether the five released PM&C; documents are the whole of what a section 55G variation can be asked to cover. This report does not give legal advice on whether any review period is still open.

9. Adversarial verification

Test	Result
Were the Furnell reasons read, or only the registrar’s cover?	The reasons were read. The employee holding is in them.
Was the press draft allowed to stand as the section 55G decision?	No. The Cameron letter was read.
Was one copied letter counted as several decisions?	No. Tredwell copies, Cameron copies, and the IBAC pair are marked.
Was the employment sentence quoted without the decision paragraph?	No. Both are set out in F-05.
Was Paula Stratton named only from a later email?	No. Her signature is on the 18 July 2023 DSS email.
Was the plan total treated as money spent?	No.

Test	Result
Was the ASIC extract treated as proof of identity?	No. The page read names no holder, and ASIC disclaims accuracy.
Was a GPT-4o summary treated as Comcare's letter?	No.
Were Gone files used as the records named in their filenames?	No.
Were clinical notes quoted?	No. Decision outcomes were stated. The OT report was not opened.
Was the rest of the repository claimed as read?	No.
Were evidence files in the repository altered by this examination?	No. This PDF is a new file, added afterwards.

Bottom line. On the files opened, the repository holds a large public file store and a set of agency instruments. The strongest merits instrument in that set is the AAT's affirmation of the Comcare refusal, on the ground that the applicant was not an employee. The FOI position on FOI/2022/045 moved: five documents were released in 2024, and the 2022 refusal is not the last word. The Federal Court filename is a non-allocation with two inconsistent sentences about public-official status. DSS, over Paula Stratton's signature, says there is no employment record. The NDIA refused SDA and SIL in 2023 and approved plan funding of $366,406.69 in November 2025. Cover sheets that state a court confirmation, an international determination, Bitcoin sealing, or a quantified loss of $18–32.9 million are not what those instruments say. The unopened majority of the repository is not evidence either way.

Annex A — docs/official-drive/, all 95 files

SHA-256 was calculated on the bytes downloaded for this examination. “In sums” means the hash appears in SHA256SUMS.txt. Git blob SHA-1 is not shown here. It is not SHA-256.

Annex C — where the full path inventory is

The 6,649-row inventory (evidence id, path, git blob SHA-1, size, GitHub URL pinned to this commit) was produced in the examination workspace as report-b-file-inventory.csv. It is not reproduced inside this PDF because a 6,649-row table is not readable as a printed annex and because pasting it here would not add a content examination that was not done. Git

blob SHA-1 identifies the git object. It does not prove authorship or truth.

End of report BD-AUDIT-2026-10-13. Examination commit a2ff83d3e38361fc67965a252f43966a9fdcf5ff. Repository https://github.com/wezzo72/Barrandodger.
