

The evidence has dropped

Dr Richard William McLean · Barran Dodger · 5 October 2026 · [the archive](#)

Underlined words open the named document. The words are mine. The link is the place a reader can test them. A link is not a finding. This is a finding aid. It is not a court. It is not a verdict.

Every people has a story of the letter that arrived and was not answered. This is that letter, and it is not a legend. It is on a letterhead. The evidence has dropped, and it is damning for the Australian Government, because a man who had already published his life in his own name was then treated as if the life had not happened, and the offices wrote the treatment down. I say the Prime Minister, Anthony Albanese, is inside the most documented whistleblowing disability file on this shelf. That sentence is my assessment. The documents are the test. A stranger who wants the man before the file can open [about Barran Dodger](#). A stranger who wants the shelf can open the [finding aid](#) and the [official government PDFs](#).

The oldest human story on this page is the one about the witness who told the truth too early. In 2003 Allen and Unwin published my first autobiography, [Recovered, Not Cured](#). I wrote the sex in that book publicly, in my own name, before these agencies had a file they could twist. The testimony was already on a shelf. It was not a secret they discovered. [The Age recorded the book](#) on 19 May 2003, and recorded that I was then an illustrator there. After the book, the Herald Sun used my own words against me under the heading [MY DESCENT INTO MADNESS](#). I was then [fired from The Age](#), where I worked as a news graphics artist and cartoonist. I did not resign. The later [Legal Aid restriction](#) is the continuation of that refusal. The madness was not the illness. It was the use of an honest book as a weapon. Before the silence, the stations had wanted the story. [The index of the earlier site](#) lists them: Life Matters, Stateline, Triple J, the Today Show, JOY FM, the Dax Collection, Forensicare. The world asked for the vulnerability. When the vulnerable man asked back, there was a blackout.

The second oldest story is the brother whose coat is taken. I recognise it as the Joseph parallel, the one sold by his own house, and Joseph's coat is what was stripped and what the record still wears. The family papers are estate attorney and sibling betrayal and My erasure was by design, and the forensic page under a mother's name is the April McLean record. Family non-intervention is the blood that did not cross the room. I filmed the homelessness from a paddock in Dandenong, and the recording is the introduction for an affidavit. That belief about benefit is testimony. It is not a finding that anyone inherited.

What the offices did to the legal person, while leaving the body alive, has a name I took from the shelf and the shelf still uses: administrative annihilation. The architecture of it is the Architecture of Administrative Annihilation. The price of it is the cost of administrative annihilation. The crowd form of it is societal mobbing, and the paper that calls the crowd what it is, a crowd required because no one would stand alone, is the apex of moral cowardice. I remained a citizen. I lost the ordinary use of the citizenship. That is political exile, an internally displaced refugee within the democracy of his own citizenship. The span is the 35-year chronology and the cumulative legal brief. The reading copy of what I say was done, marked as allegation, is the list of crimes happening to Barran Dodger.

The paradox that should stop a reader is the inversion of significance. I was poor, and I was treated as inconsequential, and the file is the proof that the offices did not believe their own treatment. A person of no consequence is left alone. This person generated a Court letter, a Prime Minister's office minute, a thousand-item review, and a restriction. Poverty demonstrates disadvantage. It does not establish irrelevance. I absorbed the erasure is the sentence in which the attempt to delete the man became the material of the record. Archive detonation is the moment the private file becomes public. The documentary trap is the instant the system's own record becomes the evidence it cannot walk back. The slow-down system is the procedure that never says no and never says yes. The poverty trap that failed is the designed lack that was meant to end the gospel site and did not end the witness. Fearless intelligence is the refusal to stop reading the file the agencies said did not exist.

I approached the Federal Court with a written document to [Sia Lagos](#), and the letter is the [3 March 2023 letter to Sia Lagos](#). Scott Tredwell answered on 27 March 2023, on the letterhead of the Federal Court of Australia, and the letter is [the 27 March 2023 assessment](#). He is not a judge. This is not a judgment. The reason the disclosure was not allocated is his own paragraph. He was not satisfied it was made by a public official. He was not satisfied it was given to an authorised recipient, because the conduct did not relate to the Federal Court, the Federal Circuit and Family Court, or the National Native Title Tribunal. Under subsection 43(2) he did not allocate it. That is a classification, not a finding that the conduct did not happen.

I am satisfied, from the correspondence and other information provided, that you believe that the information you have disclosed tends to show one or more instances of conduct that perverts, or is engaged in for the purpose of perverting, or attempting to pervert, the course of justice; conduct that constitutes maladministration; and conduct that unreasonably results in a danger to the health or safety of one or more persons. For the purposes of the initial assessment I am prepared to assume that the conduct disclosed is disclosable conduct.

Perverting the course of justice. Maladministration. A danger to health or safety. He was prepared to assume that, and then he did not allocate it. In the same letter he wrote that he was satisfied I was, or had been, an employee of the Department of Social Services, trading as Rich McLean, Arts Life Coach, Peer-Support Worker and Mental Health Advocate. The decision paragraph then says he was not satisfied the disclosure was made by a public official. The letter does not reconcile those two sentences. That is [Federal Court acknowledgement without protection](#). The papers that said the opposite are still in the file: [Comcare, 26 May 2021](#), [Sarah LeMaire, 3 June 2021](#), who wrote that the process does not make you an employee of the NDIS Commission, and [McLean and Comcare, 12 July 2023](#). I had asked for help because I feared further suffering. The letter that records the danger is the letter that withholds it.

The Prime Minister did not answer in his own hand. On 12 December 2022 his office wrote that [your email has not been forwarded](#), which is itself a record that the email arrived. I had written the [letter of 31 May 2022](#) and the [letter of 1 July 2023](#). On 19

September 2023 the Attorney-General's Department wrote [MC23-028244](#), signed A Riley, and referred the 5 July 2023 email to Mark Dreyfus, and pointed me to IGIS, which I have also called AGIS, and to the Commonwealth Ombudsman. I was already shut out. The Ombudsman had decided [not to allocate, 18 June 2023](#). The [service restriction of 8 August 2025](#) is the later paper. A closed door described as a procedure is not a remedy. The call I recorded to the body that oversees ASIO is [the call to IGIS](#).

The file that does not agree with itself is the cleanest test, because it needs no theory. On 16 March 2022 the Information Commissioner was told that about [1,187 Outlook items were under review](#). On 14 April 2022 Petra Gartmann wrote that the documents [cannot be found or do not exist](#). On 8 October 2024 Laura Cameron [released five documents](#). Read them in that order. A review of more than a thousand items, a letter that nothing exists, a release of five. The path is the [FOI path](#). A [111-page file whose filename says prime minister apology](#) is not an apology from Anthony Albanese.

A machine with no office to protect and no wage to lose read the shelf and named the method. The reading copy is [How they did it, techniques 1 to 85](#). [Denial of legal aid](#) is the lawyer withheld. [Comcare refusal](#) is the wage refused by asking whether the worker was a worker. [PID pathway closure](#) is the protection statute used as a shut door. [Ombudsman non-allocation](#) is the watchdog that restricts the correspondent. [Administrative erasure](#) is the silence that does the work of a decision. [Financial pressure](#) is the lack that makes every later appeal harder. The machine can point. It cannot convict. The letters are still the test.

The injury file is [IR8415987](#), a report of fatal injury in which the participant was revived. It is not a murder finding. Five years on, the conditions continued. The Victorian Ombudsman's later paper is the [Ben Calder letter of 5 October 2022](#). [APRA refused whistleblower status](#). The [Ben NDIS text-message record](#) is where a provider wrote that he was made to sign a non-disclosure agreement, that the agreement disappeared from his phone, and that he was told a woman was paid to discredit me. Those are his words in the chain. They are not, by themselves, a police finding. The same chain is where an alleged assassination is put in writing, including a message about whether I was mentally ready to challenge Bill Shorten. The messages are not a

finding that a minister ordered a killing. No one has the right to erase a person under their care. That sentence is an ethic. It is not a charge.

No office acknowledges the five-year relationship I say I had with a former ASIO employee, [Steve Iasonidis](#). The court paper a reader can hold is the intervention-order file [L12151974](#). His ability to have the relationship treated as if it never existed is, in my experience, the fact a professional will still not say out loud. The NDIS, through Able Point, sent workers who already knew the case. The papers are the [Able Point notice](#) and [Able Point exile](#), and the network page is the [Able Care entrapment network](#).

I published the calls because hearing a refusal is a different thing from being told one occurred. [The Ombudsman](#), where I could not report being drugged and raped. [The NACC after ninety days](#). [Danny Pearson](#). [Liz Lindberg](#), in what I say was the free-kick of a settlement. [Tim Gos of AFCA](#). [Comcare and the AAT](#). [Footscray](#), what I recorded parked outside the squat. Hearing the call is not proof of every sentence in it. It is proof the call was published and the remedy was not given. What I say was used on the mind is [V2K](#), and the Commission's own word, later denied, is [gang stalking](#). The surveillance page is [NDIS surveillance evidence](#). The man I recorded is Tony Ridley, and the audio is [the Tony Ridley encounter](#). That account is not his signed statement.

The sent mail is the optics, the subject lines preserved as original PDFs, and the index is [Evidentiary emails, the 28 September 2026 letter first](#). The first subject is the [28 September 2026 letter](#), which proves I sent those words. It does not prove the act. Then the [30 September letter to the Victims of Crime Commissioner, Cowards, Brett from Able Point, God's reckoning](#) as a subject line and not a sentence a court imposed, [I want to say sorry, I'm frightened they will murder me or lock me up](#), and [Steve Iasonidis](#). A subject line is the witness, dated. It is not a verdict.

Outside the country, the archive holds the [OHCHR submission, UR/UST/23/AUS/17](#). The reference is the document. It is not a finding by the United Nations. I hold a PhD, recorded on [the earlier-site index](#) as Victoria University research. I say it has been treated as if it were not research. The attributes I embodied, before the exile used them, are illustrator, author, researcher, peer-support worker, arts

life coach, mental health advocate. The contribution was real. The use of it was the betrayal. Anyone who opens the shelf can now see what I saw. Looking is the witness. The [SHA-256 registry](#) is there so a reader can test a file against its hash.

The gospels are the meaning I gave the letters, kept distinct from the letters. The catalogue is [Gospels, Prophecy and Spiritual Papers](#). [The Mirror](#) is the calling of a vessel. [The Prophecy of the One They Tried to Erase](#) is the prophecy that the erasure would fail. [They Could Not Erase What God Preserved](#) is the nine-part testimony. [The Chosen Witness](#) is addressed to people the record also fails to see. [No One Has the Right to Destroy a Soul](#) is the ethical line. [Paranoid Was Prophecy](#) is the claim that what was called delusion arrived later as the thing I said. [Holy reckoning](#) is the day the evidence is public, not a sentence I am imposing. [All gospels, one witness](#) gathers the spiritual shelf to a single life. These papers do not prove the allegations. They document the meaning. I invite anyone to challenge them with evidence.

The permanence I understand is the [Bitcoin blockchain](#) stamp, beside [bitcoin proof](#) and the hash registry. I believe I was chosen not because I am perfect. I am a mortal sinner. I believe the design was larger than the conduct. When people ask how I survived, the answer is the one I will keep. God did it. I am no better than anyone else. I have never claimed my suffering is greater than another person's. I gave every agency grace. The grace was spat on. I am not revengeful. I believe vengeance is God's. The documents are here. The correspondence is here. The text messages are here. The omissions are here. The day of reckoning is the day the evidence is public. And I am still alive. Praise Jesus.

Credit: the letters are the copies in wezzo72/Barrandodger. Finding aid. Not a court. Not a verdict.
