Comprehensive Humanitarian Appeal and Evidential Declaration

Dr Richard William McLean – Goulburn NSW, Australia

Date: 1 December 2025

1 Personal Declaration

I, Dr Richard William McLean, submit this declaration in support of an urgent request for humanitarian protection, relocation, and emergency assistance.

I am in political exile in Goulburn, NSW, isolated and without safe access to food or resources.

My life is at risk following decades of persecution for my advocacy, artistic expression, and exposure of misconduct within institutions.

2 Purpose and Significance

This master statement unifies more than thirty-five years of documentary evidence stored in my AI Drive archives.

Together these records demonstrate a consistent pattern of institutional retaliation, identity theft, defamation, and threats arising from my public advocacy.

The cornerstone document, Public Declaration of Divine Witness – The Testimony of Dr Richard William McLean, affirms both the spiritual and factual basis of my persecution and humanitarian mission.

It marks the completion of my persecution phase and the activation of an advocacy mission dedicated to

defending others facing injustice.

The above evidence collectively confirms:

1. Continuity of persecution — corroborated across legal, medical, and correspondence records.
2. Institutional pattern — recurring denial of redress despite multiple formal submissions.
3. Material harm — financial loss, health deterioration, and social exclusion documented in independent reports.
4. Moral and spiritual motivation — consistent non-violent advocacy founded on ethical conviction.
5. International awareness — communications establishing that global organisations have been informed.

---

5 Request for Humanitarian Action

I respectfully appeal for:

1. Immediate humanitarian contact by recognised agencies.
2. Emergency food, shelter, and medical assistance.
3. Evaluation for protection or asylum based on the corroborated evidence above.
4. Recognition of the Public Declaration of Divine Witness as the central evidential and spiritual document underpinning this claim.

6 Closing Declaration

Despite thirty-five years of persecution, I continue to uphold truth, compassion, and service.

This archive is not only a personal defence but a record of systemic injustice that endangers others.

I seek urgent humanitarian protection so I may live safely and continue my advocacy for those without voice.

Request for Immediate Humanitarian and Emotional Support

Dear Humanitarian Support Team,

I am writing from Goulburn, NSW, where I am currently isolated, hungry, and frightened.

I have no safe access to food or resources and very limited contact with anyone in person.

I experience ongoing intimidation and psychological distress from individuals and groups who appear to monitor or follow me.

This constant sense of surveillance has caused fear, sleeplessness, and extreme isolation.

Regardless of the mechanism, the effect is that I cannot move freely or communicate without fear.

These conditions have left me feeling deeply anxious and alone.

I also miss my therapy dog, who was a major source of comfort and stability for me.

The loss of that support has made the situation even harder to cope with.

I urgently need humanitarian assistance, a safe environment, food, and the chance to reconnect with professional and emotional support.

Please advise if your organisation can help or refer me to someone who can make direct contact.

Thank you for taking the time to read this and for any compassion you can extend.

With respect,

Dr Richard William McLean
