Dr Lima appointment today

I believe my appointment today was regarding my medication with ADHD with a psychiatrist referral or otherwise it was my blood test results with the syphilis that I have been formally diagnosed with all my bowel cancer results from the poo test that I had to do I'm unable to come and I'm a little bit upset but I can't get there

II was unable to attend the doctors appointment today. I wanted to come and I asked to come but the Support Worker said she feels unsafe with me and she couldn't guarantee that I would be safe out in the oven so I apologise to her profusely for anything that I might've said well done to cause their home but she refuse to accept that apology and then she told me that my apologies mean nothing and she left so I'm unable to come. I don't have any other options. I don't have any money. I don't have any transport, I don't have any way to get there and be safe so I don't know what to do. Is the doctor able to come out and visit me at my house because at this point there is literally no way I can get there.

I also cannot call you because I literally don't have a working phone and I've lost access to all of my banking online banking Commonwealth Bank and my Commonwealth Bank app which means I'm unable to buy credit from my phone. I feel abused and neglected Survey Harris tortured and I have literal death threats of the house and the Able Point that Ndis Provider still won't protect me or make a report. I'm interrupted to the house. I feel very vulnerable and I'm really sick of everyone aligning with the perpetrators who are finding reason to damage me and caused me detriment.
