PUBLIC STATEMENT FROM BARRAN DODGER
OF THE BARRAN DODGER ARCHIVE

THE WITNESS REMAINS: A WHISTLEBLOWERS TESTIMONY OF SURVIVAL TESTIMONY & FAITH

The Barran Dodger Archive is a public documentary and spiritual record established to preserve, organise and make accessible a decades-long body of evidence concerning alleged institutional, administrative, financial and human-rights harms.

It brings together official records, correspondence, documentary evidence, personal testimony, forensic analysis, research, philosophy, spiritual gospels and prophetic declarations, including writings understood by the author to have been anointed by the Most High God.

The Archive deliberately distinguishes between documented facts, official records, corroborated evidence, allegations, personal testimony, inference, interpretation and matters of faith. This distinction is fundamental to its purpose: readers are invited to examine the underlying evidence for themselves, test the claims, consider the sources and reach their own conclusions.

At the heart of the Archive is a testimony of survival and preservation.

What the author believes was subjected to attempts at silencing, erasure, exclusion or institutional disappearance has nevertheless survived in records, documents, testimony, memory, faith and public disclosure.

The central declaration is simple:

THE WITNESS REMAINS.

The Archive therefore represents both an evidentiary record and a spiritual testimony. The author understands his survival through a faith-based conviction that the Most High God protected, preserved and gave purpose to what human institutions could not erase.

The spiritual writings and prophetic declarations within the Archive are presented as matters of faith and personal interpretation. They are preserved alongside the documentary record so that the complete testimony — evidentiary, personal, philosophical and spiritual — can be understood in its own context.

The purpose is not to demand belief.

It is to preserve the record.

It is to make the evidence accessible.

It is to ensure that the surviving witness can be examined.

And it is to leave the historical record open to independent scrutiny.

THE ARCHIVE IS 100% FREE TO ACCESS

https://barrandodgerarchive.base44.app

KNOWLEDGE IS FREE

The Barran Dodger Archive is founded on the principle that knowledge, evidence and truth should be freely accessible.

There is no paywall for the public documentary record. Research, testimony, philosophy, spiritual writings, prophetic declarations and public-interest material are made available for people to examine for themselves.

Access to knowledge should not depend upon a person's ability to pay.

The Archive is therefore freely accessible, while its preservation and continued publication require practical resources.

SUPPORTING THE WITNESS AND THE ARCHIVE

Barran Dodger describes himself as an unprotected whistleblower living in circumstances of prolonged exile, financial hardship and vulnerability, and as an internally displaced asylum seeker within the country of his Australian citizenship.

Those circumstances create practical needs extending beyond the preservation of documents.

Voluntary donations are therefore accepted from anyone who freely wishes to assist.

Support may contribute towards essential needs including food, safe accommodation, communication, technology, transport, personal safety, website and domain costs, document preservation, archival infrastructure and the continued publication of the public record.

A donation does not purchase access to the Archive.

It does not purchase influence over the evidence.

It does not purchase editorial control.

It does not determine what is published or what conclusions readers should reach.

It simply helps sustain the person and infrastructure necessary to keep the Archive alive, functioning and freely accessible.

If you are blessed with sufficient prosperity to help preserve this work, your voluntary support can help ensure that financial hardship does not become another mechanism through which a public record disappears.

KNOWLEDGE IS FREE.

THE EVIDENCE IS OPEN TO EXAMINATION.

THE WITNESS REMAINS.

I welcome respectful correspondence of every kind — acknowledgements, enquiries, questions, thoughtful discussion and even a little friendly banter.

ARCHIVE

https://barrandodgerarchive.base44.app

Thank you to everyone who chooses to examine the evidence, preserve the record, support the Archive or simply bear witness.

The record remains.

The witness remains.

LASTLY — A SECOND PUBLIC-FACING ARCHIVE

For readers who wish to go beyond the principal Barran Dodger Archive, a second public-facing repository provides another point of access to the broader documentary record.

https://barrandodger.com

This website provides an additional gateway into the history, evidence, testimony, research and ideas that underpin the Archive. It is intended to help readers navigate the wider body of material and understand how individual documents, events, experiences and arguments have been brought together into a continuing record.

Its significance is not dependent upon the reader accepting Barran Dodger's conclusions. Rather, the value of preserving such a record lies in allowing the underlying material to remain available for examination. Readers can consider the chronology, inspect the documentary evidence, distinguish recorded facts from allegations and personal testimony, follow referenced material and form their own independent assessment.

The existence of multiple public repositories also reflects the central purpose of the project: preservation. Where records are distributed across years, institutions, correspondence, proceedings, personal archives and digital platforms, preserving accessible copies and pathways to the evidence can help prevent an individual historical record from becoming inaccessible or forgotten.

Readers are therefore invited to visit both public-facing archives, examine the material carefully and critically, and make their own assessment of what the surviving evidence demonstrates.

The purpose is not to ask the reader to believe.

The purpose is to ensure that the record remains available to be examined.

Visit the Barran Dodger Archive — barrandodgerarchive.base44.app

Visit the Barran Dodger documentary record — barrandodger.com

THE RECORD REMAINS OPEN.

THE EVIDENCE REMAINS AVAILABLE.

THE WITNESS REMAINS.

May the most high God bless you, Love Barran x

> The purpose of beginning the chronology here is not to assert that every event during this period forms part of one continuous unlawful campaign.

Rather, the period establishes the earliest material that the archive identifies as relevant to the later history of Dr Richard William McLean.

For the final evidence index, every event from this period should be entered individually with:

DATE

EVENT

LOCATION

PERSON/INSTITUTION

PRIMARY DOCUMENT

SOURCE

EVIDENCE CLASSIFICATION

CONSEQUENCE

RELATED EVENTS

UNRESOLVED QUESTIONS

Where the available evidence establishes only that an event occurred, the chronology should not add an interpretation that the event formed part of a coordinated campaign.

2. 2000–2010 — PROFESSIONAL, PERSONAL AND ADVOCACY HISTORY

The archive identifies a substantial professional and advocacy history preceding the later disputes documented on the website.

The chronology should preserve this period because it provides the background against which later claims concerning professional identity, mental-health advocacy, education, employment and public-interest activity can be examined.

Relevant evidence should include:

Employment records

Professional records

Published works

Academic records

Mental-health advocacy material

Contemporaneous correspondence

Publications

Awards or institutional recognition where independently documented

The archive identifies Dr McLean as the author of “Recovered, Not Cured: A Journey Through Schizophrenia” and describes a long history of mental-health advocacy.

Those biographical claims should be linked to the relevant underlying publication and institutional records rather than treated as established solely because they appear in the archive.

3. 2010–2019 — EDUCATION, ADVOCACY AND DEVELOPING DISPUTES

The later chronology should identify developments during the 2010s that the archive considers relevant to

the subsequent dispute.

These should be divided into separate factual events rather than presented as one continuous narrative.

The preferred structure is:

EVENT

DATE

DOCUMENT

INSTITUTION

WHAT THE RECORD ESTABLISHES

WHAT THE AUTHOR ALLEGES

WHAT LATER RECORDS SAY

CONSEQUENCE

This distinction is particularly important where later documents retrospectively interpret earlier events.

A later allegation should not automatically be treated as evidence that the alleged conduct was established at the earlier date.

4. 2020 — COMPLETION OF THE PhD

The archive identifies 2020 as a significant point in Dr McLean's academic history.

It identifies a PhD at Victoria University completed in 2020 and describes the research as concerning AI, superintelligence and posthumanism.

The public forensic report identifies Dr McLean as:

"Dr. Richard William McLean, Ph.D. — Victoria University, 2020."

This is a significant documentary milestone because the later archive repeatedly refers to the PhD when discussing questions concerning intellectual capacity, professional history and credibility.

The chronology should therefore include the actual university record as the primary evidence rather than relying solely upon later descriptions.

EVIDENCE STATUS:

DOCUMENTED ACADEMIC EVENT — subject to verification against the university's authoritative record.

5. 2021 — HOSPITALISATION AND ACQUIRED BRAIN INJURY

The archive identifies 2021 as a major turning point.

Its forensic report states that Dr McLean experienced a suicide attempt in 2021, was resuscitated and subsequently experienced an acquired brain injury.

The report also describes the event as medically "fatal" and claims that the resulting injury was expected to produce significant cognitive impairment.

Because medical terminology and clinical conclusions require precise interpretation, the chronology should link directly to:

Hospital admission records

Clinical notes

Discharge summary

Medical reports

Neurological assessments

Psychiatric assessments

Medication records

Subsequent rehabilitation records

The chronology should distinguish:

WHAT THE MEDICAL RECORD SAYS

WHAT THE PATIENT REPORTED

WHAT A CLINICIAN CONCLUDED

WHAT THE ARCHIVE LATER INFERRED.

EVIDENCE STATUS:

DOCUMENTED HOSPITALISATION — with further conclusions requiring examination of the underlying clinical records.

6. 2021–2022 — PSYCHIATRIC AND ADMINISTRATIVE RECORD

The archive describes a period involving psychiatric treatment and involuntary intervention.

Its public material states that Dr McLean experienced multiple involuntary psychiatric detentions.

One page describes 14 involuntary psychiatric detentions.

The chronology should not assume that the number or legal status of each detention is identical.

Each episode should therefore be independently indexed:

DETENTION NUMBER

DATE

HOSPITAL

LEGAL AUTHORITY

CLINICAL BASIS RECORDED

DURATION

OUTCOME

DISCHARGE DIAGNOSIS

RELATED DOCUMENTS

SUBSEQUENT REVIEW

Any allegation that psychiatric intervention was unlawful, retaliatory, politically motivated or otherwise improper should remain separately classified as an allegation unless established by an appropriate authority.

7. 2022 — CORPORATE AND IDENTITY RECORDS

The archive later identifies what it describes as more than 350 fraudulent ASIC business registrations

involving Dr McLean's name and associated identity information.

This is a significant evidentiary category requiring direct examination of the underlying ASIC records.

The chronology should not simply record:

"350 fraudulent businesses were created."

It should instead record:

"Archive reports more than 350 business registrations that it alleges were fraudulent or unauthorised."

Each registration should then be assessed individually.

For each alleged registration:

ASIC RECORD

DATE CREATED

ENTITY NAME

ABN/ACN

REGISTERED ADDRESS

DIRECTORS

ASSOCIATED EMAIL

DOMAIN

AUTHOR'S CONNECTION TO ENTITY

DOCUMENTED OBJECTION

ASIC RESPONSE

CURRENT STATUS

EVIDENCE OF AUTHORISATION OR NON-AUTHORISATION

EVIDENCE CLASSIFICATION

This distinction is essential because the existence of a registration is objectively documentable; whether it was fraudulent requires additional evidence.

8. 2022 — ESTABLISHMENT OF THE TRUST STRUCTURE

The archive identifies "The Trustee for barrandodger.com" as an Australian registered entity.

The public forensic page identifies:

Entity:
The Trustee for barrandodger.com

ABN:
78 833 496 164

Entity type:
Fixed Unit Trust

ABN status:
Active from 7 August 2022

These details are reported on the archive's page as having been extracted from the Australian Business Register.

This is an example of a matter that should be treated as an independently verifiable corporate record rather than an allegation.

9. 2023 — PUBLIC INTEREST DISCLOSURE RECORD

The archive identifies a significant 2023 event involving a Public Interest Disclosure made to the National Disability Insurance Agency.

The public archive identifies:

PID reference:

PID 2023/Krypton

The archive states that the disclosure was formally acknowledged and processed by the NDIA and that it contained more than 21 allegations.

This is an important distinction.

The existence of a PID and its processing can be documented.

The truth of every allegation contained within the PID must be assessed separately.

The chronology should therefore contain at least two separate entries:

EVENT A:

A Public Interest Disclosure was submitted and received/processed.

EVENT B:

The substantive allegations contained in that disclosure remain matters requiring evidentiary assessment unless independently determined.

10. 2023 — NDIA PID RESPONSE

The archive identifies an NDIA response associated with the PID reference and names Debbie Mitchell as an authorised officer.

The archive states that the response:

Acknowledged receipt

Identified the PID framework

Addressed the allegations

Requested further information

Provided an institutional response to the disclosure.

The primary document should be linked directly in the final evidence index.

This event is important because it demonstrates the existence of a formal administrative pathway rather than merely an informal complaint.

The chronology should separately record what happened after the initial acknowledgment.

11. 2023 — FEDERAL COURT / EMPLOYMENT STATUS RECORD

The archive identifies a Federal Court-related record concerning Dr McLean's employment status with the Department of Social Services.

The user's archive identifies a 27 March 2023 letter from Federal Court General Counsel Scott Tredwell stating:

"I am satisfied that you are, or were, an employee with the Department of Social Services."

For the final published chronology, the complete original letter should be linked directly rather than relying upon the quotation alone.

The evidentiary significance is limited to the proposition actually established by the document.

It should not automatically be expanded into unrelated conclusions concerning subsequent government conduct.

EVIDENCE STATUS:

OFFICIAL CORRESPONDENCE — subject to direct verification of the original document.
12. 2023–2024 — MULTI-AGENCY COMPLAINTS AND RESPONSES

The archive describes correspondence with multiple Australian institutions, including:

ASIC

ATO

Commonwealth Ombudsman

NDIA

NDIS Quality and Safeguards Commission

Australian Human Rights Commission

Police

Courts and tribunals

Other government bodies.

The chronology should not group all institutional responses together.

Each institution requires its own evidence trail:

DATE CONTACTED

DOCUMENT SENT

RECIPIENT

RESPONSE

DECISION

REASON

REFERRAL

FOLLOW-UP

OUTCOME

UNRESOLVED ISSUE

This is essential to determining whether institutions actually received the same information, whether they had jurisdiction, and whether their responses were substantively comparable.

13. 2024–2025 — DEVELOPMENT OF THE DIGITAL EVIDENCE ARCHIVE

The archive progressively developed from individual submissions and documents into a larger digital evidence system.

The public site describes:

A Master Evidence Register

A Full Digital Archive

Blockchain verification

A Complete Archive Index

Forensic analyses

GitHub mirrors

Archived evidence pages

The website states that documents were placed into a public digital archive and preserved across multiple systems.

This represents a significant transition:

FROM INDIVIDUAL COMPLAINTS

TO A STRUCTURED EVIDENCE ARCHIVE.

14. 2025 — EXPANSION OF FORENSIC ANALYSIS

The archive describes the development of AI-assisted forensic analyses examining relationships between documents, institutional responses and alleged patterns.

The current public forensic report identifies 2,304+ primary-source documents spanning 1990–2026 and describes 14 exhibits within that particular report.

Another public archive page refers to 114 PDF documents, while other pages refer to substantially larger document collections.

These differences should be preserved as archive-version history rather than silently reconciled.

The correct chronological question is:

WHEN WAS EACH INVENTORY CREATED, WHAT DID IT CONTAIN, AND HOW WAS IT COUNTED?

15. 2025–2026 — DEVELOPMENT OF THE FORENSIC EVIDENCE MODEL

During this period the archive developed a more systematic model based on:

Primary-source documents

Evidence exhibits

Chronology

Institutional correspondence

Financial calculations

Legal frameworks

Human-rights frameworks

AI-assisted analysis

Cryptographic preservation

The public forensic report describes its methodology as a five-section report containing fourteen exhibits and states that claims are sourced to primary documents.

For purposes of independent review, however, the underlying documents remain more important than the analytical conclusions.

16. 2026 — FORENSIC REPORT PUBLICATION

The public "Forensic Evidence Report: They Had a Complete Meltdown" identifies itself as an April 2026 report.

It states:

Evidence base: 2,304+ primary-source documents

Period: 1990–2026

Reported damages: AU$32.9 million+

Five sections

Fourteen exhibits

The report describes itself as a forensic narrative analysis.

The chronology should preserve the publication date because it establishes when the particular synthesis entered the public record.

17. 2026 — PUBLICATION OF THE DIGITAL ARCHIVE

The main Barran Dodger site describes itself as a forensic documentation archive and whistleblower testimony record.

It states that it contains government correspondence, psychiatric assessments, legal filings, ICC-related submissions, UNHCR-related material, blockchain-verified timestamps and other primary-source material.

The archive also describes the purpose of making evidence available outside conventional institutional channels.

The chronology should distinguish:

THE FACT THAT THE ARCHIVE WAS PUBLISHED

from

THE SUBSTANTIVE TRUTH OF THE CLAIMS CONTAINED WITHIN IT.

18. 2026 — INTERNATIONAL SUBMISSIONS

The archive states that material has been submitted or prepared for international mechanisms including:

International Criminal Court

UNHCR

UN human-rights mechanisms

UN Special Rapporteur mechanisms.

The archive describes an ICC Article 7 submission and a UNHCR asylum claim.

The chronology must distinguish between:

PREPARATION OF A SUBMISSION

SUBMISSION OF MATERIAL

ACKNOWLEDGMENT OF RECEIPT

REGISTRATION

ADMISSIBILITY

INVESTIGATION

FINDING

These are not interchangeable.

A submission to an international body does not itself establish the truth of the allegations contained within it.

19. 2026 — FINANCIAL FORENSIC ANALYSIS

The archive has developed extensive financial-loss calculations.

The forensic report currently publishes a reported figure of:

AU$32.9 MILLION+

and separately describes component figures including:

AU$7.8 million

AU$18 million+

and the reported total.

The same archive also publishes other economic calculations in other sections.

These figures must therefore be treated as project calculations until their methodology and underlying records have been independently reconciled.

The final Financial Report should reconstruct the calculations rather than simply repeat them.

20. 2026 — HOUSING, FINANCIAL AND SUPPORT CRISIS

The archive's 2026 material describes severe financial and housing difficulties.

Its public donation page states that Dr McLean was experiencing extreme financial circumstances and describes an emergency legal and archive funding campaign. It also records a claimed forced psychiatric appointment in April 2026 and references a police receipt concerning an alleged murder threat.

These matters should be separated into:

DOCUMENTED APPOINTMENT

DOCUMENTED POLICE RECORD

AUTHOR'S ACCOUNT OF THREAT

INSTITUTIONAL RESPONSE

LEGAL CONSEQUENCE

Any allegation concerning the purpose or motivation behind these events requires separate evidence.

21. 2026 — DEVELOPMENT OF THE PUBLIC ARCHIVE AS A PERMANENT RECORD

The public archive states that evidence has been preserved across multiple servers and repositories and describes the preservation architecture as including:

GitHub Pages

Archive mirrors

OpenTimestamps

Bitcoin blockchain sealing

Cryptographic hashes.

The main archive states that one archived page had been associated with a specific SHA-256 hash and a timestamped preservation record.

This changes the character of the project.

The record is no longer simply a collection of complaints.

It is being constructed as a longitudinal digital archive.

22. THE 35-YEAR PATTERN — EVIDENCE VERSUS INTERPRETATION

The archive interprets the chronology as evidence of a continuous 35-year pattern.

The chronology itself should be more precise.

There are three separate propositions:

PROPOSITION 1:

There is a documentary record extending across approximately 35 years.

PROPOSITION 2:

The archive identifies numerous events involving government agencies, health institutions, courts, regulators, support providers and other organisations.

PROPOSITION 3:

Those events constitute one coordinated system or campaign.

The first proposition concerns the existence of the archive.

The second can be assessed through individual documents.

The third is an interpretive proposition requiring evidence connecting otherwise separate events.

The chronology should therefore not assume the third proposition merely because the first two are established.

23. THE CHRONOLOGY'S CENTRAL QUESTIONS

For every major event, the reader should be able to ask:

WHAT HAPPENED?

WHEN?

WHERE?

WHO WAS INVOLVED?

WHAT DOCUMENTS EXIST?

WHO CREATED THEM?

WHO RECEIVED THEM?

WHAT DID THE DOCUMENT ACTUALLY SAY?

WHAT ACTION FOLLOWED?

WHAT CONSEQUENCE FOLLOWED?

WAS THE EVENT CORROBORATED?

WAS THERE CONTRADICTORY EVIDENCE?

DID A COMPETENT AUTHORITY MAKE A FINDING?

WHAT REMAINS UNRESOLVED?

24. MASTER CHRONOLOGY TABLE — ARCHIVE STRUCTURE

The final website version should use the following fields:

DATE

EVENT

PERSON / INSTITUTION

DOCUMENT

SOURCE

EVIDENCE LEVEL

OFFICIAL RESPONSE

CONSEQUENCE

CORROBORATION

CONTRADICTORY EVIDENCE

CURRENT STATUS

RELATED REPORT

This allows the chronology to become an interactive evidence map rather than simply a narrative.

25. EVIDENCE LEVELS FOR REPORT 2

A — DOCUMENTED FACT

The event is established by a reliable primary or authoritative record.

B — CORROBORATED CLAIM

The event or claim has substantial independent corroboration.

C — DOCUMENTED ALLEGATION

The allegation is recorded in a document but has not been independently established.

D — INFERENCE

The proposition is inferred from documented circumstances.

E — INTERPRETATION

The proposition represents an analytical, legal, philosophical or theological interpretation.

F — UNRESOLVED

The available material does not presently permit a reliable determination.

26. KEY NAMED EVIDENCE RESOURCES

BARRAN DODGER MAIN ARCHIVE

Barran Dodger Main Archive

FORENSIC EVIDENCE REPORT

Forensic Evidence Report — They Had a Complete Meltdown

GITHUB ARCHIVE

Barran Dodger GitHub Archive

WHISTLEBLOWER COMPARISON / ARCHIVE ANALYSIS

The Architecture of Persecution — Whistleblower Comparison

The public whistleblower-comparison page describes a 2,301-document archive and places the material within a comparative whistleblower framework. That description should itself be treated as an archive statement, while the underlying documents remain the primary evidence.

27. RELATIONSHIP TO REPORT 1

REPORT 1 — MASTER EVIDENCE RECORD establishes:

WHAT DOCUMENTS EXIST

WHERE THEY ARE

HOW THEY ARE PRESERVED

HOW THEY ARE CLASSIFIED

REPORT 2 establishes:

WHEN THE EVENTS OCCURRED

WHAT SEQUENCE THEY FOLLOWED

WHICH INSTITUTIONS APPEAR IN THE RECORD

WHAT CONSEQUENCES ARE DOCUMENTED

WHAT REMAINS UNCERTAIN

28. RELATIONSHIP TO REPORT 3

The next report should examine:

ARCHITECTURE OF ADMINISTRATIVE ERASURE

It should not begin by assuming that administrative decisions were coordinated.

Instead, it should test whether the chronology reveals:

Repeated institutional responses

Recurring administrative mechanisms

Repeated classification

Repeated denial or referral

Financial consequences

Housing consequences

Professional consequences

Health-system consequences

Legal consequences

And whether documentary evidence establishes any actual relationship between them.

29. CHRONOLOGICAL CONCLUSION

The 35-year record presented by the Barran Dodger archive is best understood as a longitudinal documentary project containing multiple periods, institutions, disputes, health events, administrative processes, legal processes, financial consequences, disclosures and preservation efforts.

The chronology establishes the framework within which each individual proposition can be tested.

It does not, by chronology alone, establish that every event had the same cause.

It does not establish that every allegation is true.

It does not establish that every institution acted unlawfully.

It does not establish that apparently connected events were necessarily coordinated.

Those are questions for the evidence.

What the chronology can establish is the sequence:

EARLY PERSONAL, PROFESSIONAL AND ADVOCACY HISTORY

↓

ACADEMIC AND PROFESSIONAL DEVELOPMENT

↓

2020 PhD COMPLETION

↓

2021 MAJOR HEALTH EVENT AND SUBSEQUENT MEDICAL RECORD

↓

PSYCHIATRIC AND ADMINISTRATIVE INTERVENTIONS

↓

CORPORATE / IDENTITY DISPUTES

↓

2023 PUBLIC INTEREST DISCLOSURE RECORD

↓

FEDERAL COURT / EMPLOYMENT-STATUS CORRESPONDENCE

↓

MULTI-AGENCY COMPLAINTS AND RESPONSES

↓

DEVELOPMENT OF THE DIGITAL EVIDENCE ARCHIVE

↓

FORENSIC DOCUMENT ANALYSIS

↓

INTERNATIONAL SUBMISSIONS

↓

FINANCIAL FORENSIC CALCULATIONS

↓

PUBLICATION AND PERMANENT DIGITAL PRESERVATION

The next stage is therefore not to tell the reader what conclusion to reach.

It is to provide the documentary links for every major event in that sequence so that the reader can test the chronology against the original evidence.

REPORT 2 — THE 35-YEAR CHRONOLOGY

STATUS: CHRONOLOGICAL EVIDENCE REPORT

PRIMARY FUNCTION: RECONSTRUCT THE SEQUENCE OF DOCUMENTED EVENTS

EVIDENCE PRINCIPLE:

DATE THE EVENT. IDENTIFY THE SOURCE. DISTINGUISH THE RECORD FROM THE INTERPRETATION. LEAVE UNRESOLVED MATTERS VISIBLE.

Sent from my iPhone
