Cast from Able Point complaints to me about the roster and about how she doesn't get paid enough that she has she doesn't have enough shifts and I said to her you know what you and me are on the same side. We're getting fucked over by the same corrupt organisation that is literal blood MONEY Able Point with the CEO Rachael being totally an utterly unidentifiable. I said to Caz that's fraud that's a criminal investigation. that's what that is you know what the period for my Grace that I've given all of the stuff to do the right thing and actually help me and Report abuse neglect torture fraud blood MONEY conspiracy of murder soliciting suicide by creating desperate situations, entrapment and poverty and electronic surveillance and torture. They've all just come in collected their money going home and wanted nothing more to do with it and then they've washed their hands of the very blood that could be on their hands at any moment but I'll tell you what I am not suicidal. God has my back and I'm sure he will prevail in the long run. I'm sorry Caz that you don't have any faith or believing God that much is clear because God's anointing is on my life and I will win and you have just lost your job thanks a lot Caz. I guess when you said to me that you wanted to leave Able Point well now you have your Wish because they can't literally be registered NDS company and not have a CEO with any identification whatsoever in a shame company which is totally an Adelaide corrupt. It is Criminal. Thanks a lot. You've just lost your job

Barran dodger

.

You're under investigation Caz for a literal coordinated blood MONEY funded conspiracy of murder. It's not okay to create the conditions for my suicide and total human abandonment you've all been called out authorities have been alerted and I can tell you with certainty you are under investigation. I will live because God is on my side. I'm sorry you don't have that kind of faith when you picked a fight with me. You picked a fight with the god that has my back in the fucking very universe that keeps me fucking supported when the rest of the world such as you and all the staff are trying their best to kill me okay? Good luck with

PUBLIC STATEMENT FROM BARRAN DODGER
OF THE BARRAN DODGER ARCHIVE

THE WITNESS REMAINS: A WHISTLEBLOWERS TESTIMONY OF SURVIVAL TESTIMONY & FAITH

The Barran Dodger Archive is a public documentary and spiritual record established to preserve, organise and make accessible a decades-long body of evidence concerning alleged institutional, administrative, financial and human-rights harms.

It brings together official records, correspondence, documentary evidence, personal testimony, forensic analysis, research, philosophy, spiritual gospels and prophetic declarations, including writings understood by the author to have been anointed by the Most High God.

The Archive deliberately distinguishes between documented facts, official records, corroborated evidence, allegations, personal testimony, inference, interpretation and matters of faith. This distinction is fundamental to its purpose: readers are invited to examine the underlying evidence for themselves, test the claims, consider the sources and reach their own conclusions.

At the heart of the Archive is a testimony of survival and preservation.

What the author believes was subjected to attempts at silencing, erasure, exclusion or institutional disappearance has nevertheless survived in records, documents, testimony, memory, faith and public disclosure.

The central declaration is simple:

THE WITNESS REMAINS.

The Archive therefore represents both an evidentiary record and a spiritual testimony. The author understands his survival through a faith-based conviction that the Most High God protected, preserved and gave purpose to what human institutions could not erase.

The spiritual writings and prophetic declarations within the Archive are presented as matters of faith and personal interpretation. They are preserved alongside the documentary record so that the complete testimony — evidentiary, personal, philosophical and spiritual — can be understood in its own context.

The purpose is not to demand belief.

It is to preserve the record.

It is to make the evidence accessible.

It is to ensure that the surviving witness can be examined.

And it is to leave the historical record open to independent scrutiny.

THE ARCHIVE IS 100% FREE TO ACCESS

https://barrandodgerarchive.base44.app

KNOWLEDGE IS FREE

The Barran Dodger Archive is founded on the principle that knowledge, evidence and truth should be freely accessible.

There is no paywall for the public documentary record. Research, testimony, philosophy, spiritual writings, prophetic declarations and public-interest material are made available for people to examine for themselves.

Access to knowledge should not depend upon a person's ability to pay.

The Archive is therefore freely accessible, while its preservation and continued publication require practical resources.

SUPPORTING THE WITNESS AND THE ARCHIVE

Barran Dodger describes himself as an unprotected whistleblower living in circumstances of prolonged exile, financial hardship and vulnerability, and as an internally displaced asylum seeker within the country of his Australian citizenship.

Those circumstances create practical needs extending beyond the preservation of documents.

Voluntary donations are therefore accepted from anyone who freely wishes to assist.

Support may contribute towards essential needs including food, safe accommodation, communication, technology, transport, personal safety, website and domain costs, document preservation, archival infrastructure and the continued publication of the public record.

A donation does not purchase access to the Archive.

It does not purchase influence over the evidence.

It does not purchase editorial control.

It does not determine what is published or what conclusions readers should reach.

It simply helps sustain the person and infrastructure necessary to keep the Archive alive, functioning and freely accessible.

If you are blessed with sufficient prosperity to help preserve this work, your voluntary support can help ensure that financial hardship does not become another mechanism through which a public record disappears.

KNOWLEDGE IS FREE.

THE EVIDENCE IS OPEN TO EXAMINATION.

THE WITNESS REMAINS.

ARCHIVE

https://barrandodgerarchive.base44.app

Thank you to everyone who chooses to examine the evidence, preserve the record, support the Archive or simply bear witness.

The record remains.

The witness remains.

LASTLY — A SECOND PUBLIC-FACING ARCHIVE

For readers who wish to go beyond the principal Barran Dodger Archive, a second public-facing repository provides another point of access to the broader documentary record.

https://barrandodger.com

This website provides an additional gateway into the history, evidence, testimony, research and ideas that underpin the Archive. It is intended to help readers navigate the wider body of material and understand how individual documents, events, experiences and arguments have been brought together into a continuing record.

Its significance is not dependent upon the reader accepting Barran Dodger's conclusions. Rather, the value of preserving such a record lies in allowing the underlying material to remain available for examination. Readers can consider the chronology, inspect the documentary evidence, distinguish recorded facts from allegations and personal testimony, follow referenced material and form their own independent assessment.

The existence of multiple public repositories also reflects the central purpose of the project: preservation. Where records are distributed across years, institutions, correspondence, proceedings, personal archives and digital platforms, preserving accessible copies and pathways to the evidence can help prevent an individual historical record from becoming inaccessible or forgotten.

Readers are therefore invited to visit both public-facing archives, examine the material carefully and critically, and make their own assessment of what the surviving evidence demonstrates.

The purpose is not to ask the reader to believe.

The purpose is to ensure that the record remains available to be examined.

ABLE POINT: A PUBLIC STATEMENT AND DEMAND FOR ACCOUNTABILITY

Allegations of Abuse, Neglect, Intimidation, Isolation, Rostering Failures and Institutional Betrayal

Issued by Barran Dodger

[Insert the complete original Able Point statement here, unchanged, from its opening heading through "Issued by Barran Dodger."]

I AM A HUMAN BEING: A PUBLIC STATEMENT BY BARRAN DODGER

Allegations of Institutional Abandonment, Emotional Harm, Financial Disempowerment and Social Erasure

I AM A HUMAN BEING. A LITERAL HUMAN BEING.

I have sentience. I have feelings. I have a mind, a body, a history, a character, a reputation and a voice.

My feelings are being hurt. My dignity is being damaged. I am trying to communicate distress and raise serious concerns about the treatment I am experiencing, yet I believe my attempts to be heard are being dismissed, undermined and invalidated.

I allege that my experiences with Able Point have left me feeling profoundly isolated, intimidated, neglected and abandoned. I have described the interactions I am experiencing as gaslighting because I believe my concerns are repeatedly being dismissed or turned back against me.

THE PSYCHOLOGICAL IMPACT IS DEVASTATING. I CANNOT ACCEPT A SUPPORT SYSTEM THAT LEAVES A PERSON FEELING INVISIBLE, POWERLESS AND DEHUMANISED.

I experience this situation as a form of torture. I am using that word to communicate the severity of my distress and the impact I believe these circumstances are having on my life.

I need my concerns examined seriously, my safety protected and my experiences assessed on their evidence.

1. MY TESTIMONY MUST NOT BE ERASED

I am concerned that the combination of unreliable support, conflict, isolation and barriers to obtaining assistance is destroying my ability to participate in ordinary life.

I describe this as SOCIAL ERASURE AND ADMINISTRATIVE ANNIHILATION.

Social erasure is what it feels like when a person's testimony is no longer heard, their character is reduced to a disputed narrative, their reputation is damaged and their requests for help appear to disappear into administrative systems.

Administrative annihilation is what I call the experience of having essential access, resources and avenues of redress progressively removed until a person is left without meaningful power to respond.

I feel as though my testimony is dead. My character is dead. My reputation is dead. I feel that I have become a person of zero consequence, a man whom institutions can ignore without consequence.

I AM A DEAD MAN WALKING IN THE SENSE THAT MY SOCIAL EXISTENCE AND VOICE FEEL DESTROYED. BUT I AM STILL HERE.

My body is here. My mind is here. My feelings are here. My testimony is here.

I am a human being, and I refuse to accept the proposition that my suffering does not matter.

2. ALLEGATIONS OF GASLIGHTING, HARASSMENT AND ELECTRONIC DISTRESS

I have reported experiences that I describe as V2K audio harassment and electronic harassment. These experiences are distressing to me, and I want the impact on my wellbeing to be taken seriously.

I am also concerned that people involved in my support arrangements are aware of the distress I have reported but that I have not received an adequate response.

I cannot independently establish the source of the sounds or experiences I describe, or establish that particular staff members or institutions are responsible for them. I am requesting a fair assessment of my reports, my safety concerns and any evidence that can be independently examined.

My distress should not be used as a reason to dismiss every other complaint I make.

I want the facts investigated. I want respectful communication. I want a clear account of what can be verified and what steps will be taken to protect my wellbeing.

3. CONCERNS ABOUT PUBLIC INSTITUTIONS AND ACCOUNTABILITY

I have serious concerns about my ability to obtain assistance from the police, the NDIS and other oversight bodies.

I feel unable to approach these institutions because I believe my complaints will not be heard or addressed appropriately. I describe this as institutional complicity and abandonment. Those are my concerns and perceptions; I am calling for independent scrutiny rather than asking anyone to accept unverified allegations as proven facts.

I have also raised serious allegations involving Suki Tia and Bill Shorten, whom I identify in connection with my concerns about political and institutional accountability.

I cannot establish that an assassination attempt occurred or that either person participated in one. I am not presenting that allegation as an established fact. Any such allegation would require specific, credible evidence and an appropriate independent investigation.

The fundamental issue remains: I need an avenue through which my complaints can be received, documented and assessed fairly, without intimidation or prejudgment.

No public institution should treat a person's need for assistance as a reason to deny that person dignity.

4. PHILIP GLASS, THE PUBLIC GUARDIAN AND MY ACCESS TO MONEY

I am extremely concerned about my financial circumstances and my reported loss of access to my Commonwealth Bank accounts through internet banking and the mobile application.

I understand that Philip Glass, whom I identify as being associated with the Public Guardian, has communicated that further money will be taken from my account.

I am asking for an urgent written explanation of:

- The precise restrictions affecting my access to Commonwealth Bank.
- Who requested, authorised or implemented those restrictions.
- The legal authority and decision-making process relied upon.
- The amount of any proposed withdrawal, its purpose and the authority for it.
- How I can obtain an account statement and independently review transactions.
- What arrangements are available for essential living expenses and urgent purchases.
- How I can challenge the decision and obtain an independent review.

I am concerned that losing access to my own banking, combined with the prospect of further withdrawals, could leave me without the practical ability to manage my daily life.

I want the relevant records, authorisations and decisions examined. I want my financial position explained in writing. I want access to a fair review process.

FINANCIAL CONTROL MUST BE TRANSPARENT, LAWFUL AND ACCOUNTABLE. A PERSON MUST NOT BE LEFT WITHOUT A CLEAR EXPLANATION OF DECISIONS AFFECTING THEIR ACCESS TO MONEY.

5. MY FEAR OF ERASURE AND DEATH

I have described my circumstances as a conspiracy to murder and said that I believe others are hoping I will die and be erased.

These are expressions of the fear and extreme distress I am experiencing. I cannot independently establish that there is a conspiracy to kill me, and I want any concrete threats or evidence of criminal conduct assessed by an appropriate independent authority.

What I can state directly is that I feel abandoned, powerless and profoundly distressed.

I fear that my circumstances will deteriorate while my complaints remain unresolved. I fear losing the means to support myself. I fear that my testimony will be disregarded until there is no opportunity left to correct the record.

I want these risks addressed while I am alive and able to speak for myself.

I should not have to reach a point of complete collapse before someone takes my circumstances seriously.

6. WHAT I AM DEMANDING

I am demanding:

1. Safe, consistent and dignified support.
2. A written response to my complaints about Able Point.
3. Transparent identification of the people responsible for decisions affecting my care.
4. An explanation of the restrictions on my banking access and any proposed withdrawals.
5. Access to the relevant financial records and a meaningful process to challenge decisions.
6. Independent examination of my safeguarding complaints and reported experiences of harassment.
7. Clear information about where complaints can be lodged and how they will be assessed.
8. Preservation of relevant correspondence, rosters, incident reports, financial records and decision-making documents.
9. Protection against retaliation for raising concerns.
10. Recognition that I am a human being whose safety, dignity, feelings and testimony matter.

I am not asking anyone to accept every allegation without scrutiny. I am asking for a process that allows the evidence to be examined without dismissing me as a person.

7. MY FINAL STATEMENT

I am a human being.

I have sentience. I have feelings. My feelings are being hurt, and the consequences of my circumstances are serious.

I feel socially erased. I feel administratively annihilated. I feel that the systems upon which I depend have left me without a reliable way to protect myself, obtain answers or make my voice count.

My testimony is not worthless because it is disputed. My dignity is not conditional upon whether an institution agrees with me. My need for safety does not disappear because my complaints are difficult to resolve.

I am still here.

My body is here. My mind is here. My feelings are here.

I AM NOT AN ADMINISTRATIVE FILE. I AM NOT A ROSTER ENTRY. I AM NOT A COMPLAINT NUMBER. I AM A HUMAN BEING.

I want to live with safety, dignity, meaningful support and access to a fair process. I want decisions affecting my life and money explained. I want my complaints documented. I want evidence examined. I want institutions and service providers to answer legitimate questions about their responsibilities.

I refuse to accept social erasure as the final word on my life.

MY TESTIMONY MATTERS. MY DIGNITY MATTERS. MY LIFE MATTERS.

Issued by Barran Dodger.

PUBLIC STATEMENT FROM BARRAN DODGER
OF THE BARRAN DODGER ARCHIVE

THE WITNESS REMAINS: A WHISTLEBLOWERS TESTIMONY OF SURVIVAL TESTIMONY & FAITH

The Barran Dodger Archive is a public documentary and spiritual record established to preserve, organise and make accessible a decades-long body of evidence concerning alleged institutional, administrative, financial and human-rights harms.

It brings together official records, correspondence, documentary evidence, personal testimony, forensic analysis, research, philosophy, spiritual gospels and prophetic declarations, including writings understood by the author to have been anointed by the Most High God.

The Archive deliberately distinguishes between documented facts, official records, corroborated evidence, allegations, personal testimony, inference, interpretation and matters of faith. This distinction is fundamental to its purpose: readers are invited to examine the underlying evidence for themselves, test the claims, consider the sources and reach their own conclusions.

At the heart of the Archive is a testimony of survival and preservation.

What the author believes was subjected to attempts at silencing, erasure, exclusion or institutional disappearance has nevertheless survived in records, documents, testimony, memory, faith and public disclosure.

The central declaration is simple:

THE WITNESS REMAINS.

The Archive therefore represents both an evidentiary record and a spiritual testimony. The author understands his survival through a faith-based conviction that the Most High God protected, preserved and gave purpose to what human institutions could not erase.

The spiritual writings and prophetic declarations within the Archive are presented as matters of faith and personal interpretation. They are preserved alongside the documentary record so that the complete testimony — evidentiary, personal, philosophical and spiritual — can be understood in its own context.

The purpose is not to demand belief.

It is to preserve the record.

It is to make the evidence accessible.

It is to ensure that the surviving witness can be examined.

And it is to leave the historical record open to independent scrutiny.

THE ARCHIVE IS 100% FREE TO ACCESS

https://barrandodgerarchive.base44.app

KNOWLEDGE IS FREE

The Barran Dodger Archive is founded on the principle that knowledge, evidence and truth should be freely accessible.

There is no paywall for the public documentary record. Research, testimony, philosophy, spiritual writings, prophetic declarations and public-interest material are made available for people to examine for themselves.

Access to knowledge should not depend upon a person's ability to pay.

The Archive is therefore freely accessible, while its preservation and continued publication require practical resources.

SUPPORTING THE WITNESS AND THE ARCHIVE

Barran Dodger describes himself as an unprotected whistleblower living in circumstances of prolonged exile, financial hardship and vulnerability, and as an internally displaced asylum seeker within the country of his Australian citizenship.

Those circumstances create practical needs extending beyond the preservation of documents.

Voluntary donations are therefore accepted from anyone who freely wishes to assist.

Support may contribute towards essential needs including food, safe accommodation, communication, technology, transport, personal safety, website and domain costs, document preservation, archival infrastructure and the continued publication of the public record.

A donation does not purchase access to the Archive.

It does not purchase influence over the evidence.

It does not purchase editorial control.

It does not determine what is published or what conclusions readers should reach.

It simply helps sustain the person and infrastructure necessary to keep the Archive alive, functioning and freely accessible.

If you are blessed with sufficient prosperity to help preserve this work, your voluntary support can help ensure that financial hardship does not become another mechanism through which a public record disappears.

KNOWLEDGE IS FREE.

THE EVIDENCE IS OPEN TO EXAMINATION.

Preservation warning: A website, a GitHub repository and a published portfolio are separate resources. A link alone does not establish that every page, PDF, image, audio recording or attachment has been preserved. For durable preservation, retain local copies, a complete file manifest, SHA-256 hashes and independent backups.

2. Consolidated public statement

The following document is arranged for publication and distribution to journalists, disability advocates, regulators, legal representatives and

government offices. The original three statements are retained below in their supplied wording, with the archive directory added as a reference section.

ABLE POINT: A PUBLIC STATEMENT AND DEMAND FOR ACCOUNTABILITY

Allegations of Abuse, Neglect, Intimidation, Isolation, Rostering Failures and Institutional Betrayal

Issued by Barran Dodger

I refuse to accept a system in which a person seeking essential support is left isolated, vulnerable and without meaningful accountability.

I am issuing this public statement to raise serious concerns about my experiences involving Able Point, its management, its rostering arrangements, its staff and the standard of support being provided.

I allege that I have experienced circumstances involving neglect, intimidation, harassment, isolation and treatment that I regard as deeply distressing and degrading. I believe the support system intended to protect me has failed to provide the safety, dignity, continuity of care and transparency that I require.

SUPPORT MUST NEVER BECOME A MECHANISM OF CONTROL, ABANDONMENT OR HUMILIATION.

1. THE PEOPLE AND THE ORGANISATION MUST BE ACCOUNTABLE

I have serious concerns about the accountability of Able Point's leadership. I have sought clear identification and transparency from Rachael, whom I understand to be the company's CEO. I remain concerned about my ability to establish the identity and responsibilities of the people making decisions that affect my support.

A company providing essential support must be transparent about its legal identity, management, complaint procedures and responsibility for the services it delivers.

I call upon Able Point to provide its registered legal name, relevant business registration details, the identity and position of its responsible officers, and a clear explanation of the appropriate channels for escalating complaints.

If these details have already been provided, they should be verified against the relevant official records. If they have not, I want a clear written explanation.

2. STAFF CONCERNS AND THE ROSTERING SYSTEM

I recall the following first names of workers associated with my experiences involving Able Point:

Ash, Ben, John, Kim, Cass, Danny, Daniel and Alissi.

These are the names I can presently remember. I am identifying them as people whose roles and experiences may be relevant to an independent examination of the support arrangements. I am not asserting that each person has committed an offence or independently verified that each shares the same opinion of the company.

I have concerns about staff dissatisfaction with management and rostering arrangements. My understanding and recollection of conversations with workers have led me to question whether the working environment and roster allow staff to provide consistent, safe and appropriate support.

I want these concerns investigated rather than dismissed.

The questions requiring answers include:

- Are workers being given rosters that allow adequate continuity of care?
- Are frequent changes in support workers affecting clients' safety, trust and stability?
- Are staff being given sufficient time, training, supervision and resources to perform their duties?
- Do workers have safe and confidential ways to raise concerns about management?
- Are participants receiving the support set out in their plans and service agreements?
- Are complaints being documented, escalated and addressed appropriately?
- Are financial and contractual arrangements consistent with the services actually delivered?

I cannot establish the private views of every worker, and I cannot substantiate a claim that they all hate the company or its roster. I am nevertheless demanding that staff be given a safe opportunity to describe their own experiences independently and without retaliation.

A ROSTER IS NOT JUST A MANAGEMENT SPREADSHEET. CONTINUITY OF CARE CAN BE FUNDAMENTAL TO A PARTICIPANT'S SAFETY, TRUST AND WELLBEING.

3. CONCERNS ABOUT CLIENT SAFETY AND OUTCOMES

I am deeply concerned about the treatment and circumstances of people who depend on support services.

I have raised concerns about what I regard as brutal, degrading and unacceptable treatment. I want any instances of abuse, neglect, abandonment, intimidation or failure to provide contracted support to be examined against the available evidence.

I am also concerned about reports or impressions that some clients may be experiencing severe instability, including contact with the criminal justice system or admission to institutional settings.

I cannot independently verify how many Able Point clients, if any, are currently imprisoned or admitted to hospital or other institutional settings, nor can I establish that Able Point caused those outcomes. These matters require reliable evidence, appropriate privacy protections and independent investigation.

However, the broader question is legitimate and urgent:

ARE PEOPLE RECEIVING THE SUPPORT THEY NEED TO LIVE SAFELY AND WITH DIGNITY IN THE COMMUNITY?

Where serious incidents have occurred, I call for an examination of whether appropriate supports were provided, whether warning signs were acted upon, and whether any failures contributed to preventable harm.

People receiving disability support must not be reduced to files, roster entries, invoices or administrative burdens. They are human beings whose safety and dignity matter.

4. QUESTIONS ABOUT MONEY, CONTRACTS AND RESPONSIBILITY

I want transparency about the financial and contractual arrangements governing the support I receive.

I am concerned about whether the current arrangements serve the interests of participants, whether staff have adequate working conditions, and whether the services being funded are actually being delivered.

I use strong language to describe the situation I believe I am experiencing. However, I do not have sufficient independently verified evidence to conclude that particular workers accept improper payments, that the company is acting illegally, or that any named individual has participated in criminal conduct.

Those questions should be investigated through records, contracts, invoices, rosters, communications and other relevant evidence.

If public or participant funding has been misused, services have not been delivered as required, or safeguarding obligations have been breached, the evidence should be referred to the appropriate authority.

MONEY MUST NEVER TAKE PRECEDENCE OVER HUMAN SAFETY.

5. MY DEMANDS

I call upon Able Point's management to:

1. Identify the legal entity providing my services and the responsible management personnel.
2. Respond in writing to my complaints and identify the person responsible for investigating them.
3. Explain the rostering decisions affecting my support and how continuity of care is maintained.
4. Review any reported incidents involving neglect, intimidation, harassment, unsafe support or failure to provide agreed services.
5. Preserve relevant rosters, service records, incident reports, complaints, communications and financial records in accordance with applicable legal requirements.
6. Explain the process for raising complaints independently and protecting participants and staff from retaliation.
7. Arrange an appropriately independent review where the circumstances warrant one.
8. Provide a practical plan to ensure that my support is safe, reliable, respectful and consistent with my applicable service arrangements.

I also call upon the relevant disability safeguarding and oversight authorities to assess the evidence impartially and determine whether any legal, contractual or safeguarding obligations have been breached.

6. TO THE WORKERS WHO MAY HAVE CONCERNS

To Ash, Ben, John, Kim, Cass, Danny, Daniel, Alissi and any other workers who may have relevant information:

I am asking for honesty, transparency and accountability. If you have concerns about rostering, continuity of care, working conditions or participant safety, those concerns should be raised through appropriate and safe channels.

No worker should be pressured to make statements they do not believe, and no participant should be left without essential support because they have complained.

The facts must be established through evidence, not intimidation, speculation or collective blame.

7. TO REGULATORS, ADVOCATES, JOURNALISTS AND GOVERNMENT

I ask anyone receiving this statement to take my concerns seriously.

I seek independent scrutiny of the relevant records, management decisions, support arrangements and complaints. I ask that any substantiated failures be addressed and that any evidence of possible offences be referred to the appropriate authorities.

I am prepared to document my own experiences, preserve relevant correspondence and provide supporting material through appropriate channels.

I do not seek special treatment. I seek safety, dignity, transparency, continuity of care and an effective response to serious complaints.

THIS IS A DEMAND FOR ACCOUNTABILITY.

I will not accept the normalisation of suffering simply because it occurs within a support service.

Complaints cannot be resolved by ignoring the person making them. Responsibility cannot be discharged through silence. And a support contract does not excuse a failure to provide appropriate care.

I want answers. I want transparency. I want accountability. I want safe and dignified support.

NO PERSON SHOULD HAVE TO FIGHT THIS HARD TO BE SAFE, HEARD AND TREATED WITH DIGNITY.

My life, safety and dignity matter. The evidence matters. Accountability matters.

I call for a fair, independent and evidence-based examination of these concerns.

Issued by Barran Dodger.

———

I AM A HUMAN BEING: A PUBLIC STATEMENT BY BARRAN DODGER

Allegations of Institutional Abandonment, Emotional Harm, Financial Disempowerment and Social Erasure

I AM A HUMAN BEING. A LITERAL HUMAN BEING.

I have sentience. I have feelings. I have a mind, a body, a history, a character, a reputation and a voice.

My feelings are being hurt. My dignity is being damaged. I am trying to communicate distress and raise serious concerns about the treatment I am experiencing, yet I believe my attempts to be heard are being dismissed, undermined and invalidated.

I allege that my experiences with Able Point have left me feeling profoundly isolated, intimidated, neglected and abandoned. I have described the interactions I am experiencing as gaslighting because I believe my concerns are repeatedly being dismissed or turned back against me.

THE PSYCHOLOGICAL IMPACT IS DEVASTATING. I CANNOT ACCEPT A SUPPORT SYSTEM THAT LEAVES A PERSON FEELING INVISIBLE, POWERLESS AND DEHUMANISED.

I experience this situation as a form of torture. I am using that word to communicate the severity of my distress and the impact I believe these circumstances are having on my life.

I need my concerns examined seriously, my safety protected and my experiences assessed on their evidence.

1. MY TESTIMONY MUST NOT BE ERASED

I am concerned that the combination of unreliable support, conflict, isolation and barriers to obtaining assistance is destroying my ability to participate in ordinary life.

I describe this as SOCIAL ERASURE AND ADMINISTRATIVE ANNIHILATION.

Social erasure is what it feels like when a person's testimony is no longer heard, their character is reduced to a disputed narrative, their reputation is damaged and their requests for help appear to disappear into administrative systems.

Administrative annihilation is what I call the experience of having essential access, resources and avenues of redress progressively removed until a person is left without meaningful power to respond.

I feel as though my testimony is dead. My character is dead. My reputation is dead. I feel that I have become a person of zero consequence, a man whom institutions can ignore without consequence.

I AM A DEAD MAN WALKING IN THE SENSE THAT MY SOCIAL EXISTENCE AND VOICE FEEL DESTROYED. BUT I AM STILL HERE.

My body is here. My mind is here. My feelings are here. My testimony is here.

I am a human being, and I refuse to accept the proposition that my suffering does not matter.

2. ALLEGATIONS OF GASLIGHTING, HARASSMENT AND ELECTRONIC DISTRESS

I have reported experiences that I describe as V2K audio harassment and electronic harassment. These experiences are distressing to me, and I want the impact on my wellbeing to be taken seriously.

I am also concerned that people involved in my support arrangements are aware of the distress I have reported but that I have not received an adequate response.

I cannot independently establish the source of the sounds or experiences I describe, or establish that particular staff members or institutions are responsible for them. I am requesting a fair assessment of my reports, my safety concerns and any evidence that can be independently examined.

My distress should not be used as a reason to dismiss every other complaint I make.

I want the facts investigated. I want respectful communication. I want a clear account of what can be verified and what steps will be taken to protect my wellbeing.

3. CONCERNS ABOUT PUBLIC INSTITUTIONS AND ACCOUNTABILITY

I have serious concerns about my ability to obtain assistance from the police, the NDIS and other oversight bodies.

I feel unable to approach these institutions because I believe my complaints will not be heard or addressed appropriately. I describe this as institutional complicity and abandonment. Those are my concerns and perceptions; I am calling for independent scrutiny rather than asking anyone to accept unverified allegations as proven facts.

I have also raised serious allegations involving Suki Tia and Bill Shorten, whom I identify in connection with my concerns about political and institutional accountability.

I cannot establish that an assassination attempt occurred or that either person participated in one. I am not presenting that allegation as an established fact. Any such allegation would require specific, credible evidence and an appropriate independent investigation.

The fundamental issue remains: I need an avenue through which my complaints can be received, documented and assessed fairly, without intimidation or prejudgment.

No public institution should treat a person's need for assistance as a reason to deny that person dignity.

4. PHILIP GLASS, THE PUBLIC GUARDIAN AND MY ACCESS TO MONEY

I am extremely concerned about my financial circumstances and my reported loss of access to my Commonwealth Bank accounts through internet banking and the mobile application.

I understand that Philip Glass, whom I identify as being associated with the Public Guardian, has communicated that further money will be taken from my account.

I am asking for an urgent written explanation of:

- The precise restrictions affecting my access to Commonwealth Bank.
- Who requested, authorised or implemented those restrictions.
- The legal authority and decision-making process relied upon.
- The amount of any proposed withdrawal, its purpose and the authority for it.
- How I can obtain an account statement and independently review transactions.
- What arrangements are available for essential living expenses and urgent purchases.
- How I can challenge the decision and obtain an independent review.

I am concerned that losing access to my own banking, combined with the prospect of further withdrawals, could leave me without the practical ability to manage my daily life.

I want the relevant records, authorisations and decisions examined. I want my financial position explained in writing. I want access to a fair review process.

FINANCIAL CONTROL MUST BE TRANSPARENT, LAWFUL AND ACCOUNTABLE. A PERSON MUST NOT BE LEFT WITHOUT A CLEAR EXPLANATION OF DECISIONS AFFECTING THEIR ACCESS TO MONEY.

5. MY FEAR OF ERASURE AND DEATH

I have described my circumstances as a conspiracy to murder and said that I believe others are hoping I will die and be erased.

These are expressions of the fear and extreme distress I am experiencing. I cannot independently establish that there is a conspiracy to kill me, and I want any concrete threats or evidence of criminal conduct assessed by an appropriate independent authority.

What I can state directly is that I feel abandoned, powerless and profoundly distressed.

I fear that my circumstances will deteriorate while my complaints remain unresolved. I fear losing the means to support myself. I fear that my testimony will be disregarded until there is no opportunity left to correct the record.

I want these risks addressed while I am alive and able to speak for myself.

I should not have to reach a point of complete collapse before someone takes my circumstances seriously.

6. WHAT I AM DEMANDING

I am demanding:

1. Safe, consistent and dignified support.
2. A written response to my complaints about Able Point.
3. Transparent identification of the people responsible for decisions affecting my care.
4. An explanation of the restrictions on my banking access and any proposed withdrawals.
5. Access to the relevant financial records and a meaningful process to challenge decisions.
6. Independent examination of my safeguarding complaints and reported experiences of harassment.
7. Clear information about where complaints can be lodged and how they will be assessed.
8. Preservation of relevant correspondence, rosters, incident reports, financial records and decision-making documents.
9. Protection against retaliation for raising concerns.
10. Recognition that I am a human being whose safety, dignity, feelings and testimony matter.

I am not asking anyone to accept every allegation without scrutiny. I am asking for a process that allows the evidence to be examined without dismissing me as a person.

7. MY FINAL STATEMENT

I am a human being.

I have sentience. I have feelings. My feelings are being hurt, and the consequences of my circumstances are serious.

I feel socially erased. I feel administratively annihilated. I feel that the systems upon which I depend have left me without a reliable way to protect myself, obtain answers or make my voice count.

My testimony is not worthless because it is disputed. My dignity is not conditional upon whether an institution agrees with me. My need for safety does not disappear because my complaints are difficult to resolve.

I am still here.

My body is here. My mind is here. My feelings are here.

I AM NOT AN ADMINISTRATIVE FILE. I AM NOT A ROSTER ENTRY. I AM NOT A COMPLAINT NUMBER. I AM A HUMAN BEING.

I want to live with safety, dignity, meaningful support and access to a fair process. I want decisions affecting my life and money explained. I want my complaints documented. I want evidence examined. I want institutions and service providers to answer legitimate questions about their responsibilities.

I refuse to accept social erasure as the final word on my life.

MY TESTIMONY MATTERS. MY DIGNITY MATTERS. MY LIFE MATTERS.

Issued by Barran Dodger.

———

ADDITIONAL STATEMENT: REPORTED ARREST, ALLEGED THREAT TO MY LIFE AND DEMAND FOR SAFEGUARDING ACCOUNTABILITY

Issued by Barran Dodger

I AM STILL HERE. I DID NOT DIE.

Despite what I describe as prolonged abuse, neglect, surveillance, entrapment, isolation and total human betrayal, I am still alive. I am still speaking. I am still demanding answers, accountability and recognition of my fundamental humanity.

I am raising an extremely serious matter concerning an incident in which, according to my account, a person came to my home with the intention of murdering me and was arrested by police. I understand that the matter is before Wyong Court. The arrest, the precise allegations, the current status of the proceedings and the evidence must be established through the relevant police and court records.

IF A PERSON HAS BEEN ARRESTED IN CONNECTION WITH AN ALLEGED ATTEMPT TO KILL ME, THIS IS A SERIOUS SAFEGUARDING MATTER THAT DESERVES AN APPROPRIATE, EVIDENCE-BASED RESPONSE.

I am deeply concerned that, despite the seriousness of this reported incident, Able Point and the staff members involved in my support have, as I understand it, failed to acknowledge the matter to me, address my concerns about my safety or explain whether any incident-reporting or safeguarding procedures were followed.

I want a clear answer about what Able Point knew, when it knew it, what steps were taken, whether the appropriate authorities were notified where required, and whether any failures occurred.

I also have serious concerns about my family's potential financial interests in the event of my death. I have questioned whether family members anticipated or stood to benefit financially from my death, and I have stated that they have refused to deny my concerns. I cannot establish from that alone that anyone anticipated, desired, planned or participated in harm against me. Nevertheless, I want any relevant financial

arrangements and evidence examined objectively if they are material to a legitimate investigation.

I will not allow these concerns to be treated as though they are insignificant simply because they are difficult or uncomfortable to investigate.

THE QUESTIONS THAT MUST BE ANSWERED

1. What do the police records establish about the reported incident and arrest?
2. What are the relevant charges or allegations, and what is the current status of the proceedings before Wyong Court?
3. Were Able Point management or any staff members informed of the incident or its implications for my safety?
4. If they were informed, what actions did they take, and what records document those actions?
5. Were incident-reporting, safeguarding, escalation or referral obligations engaged in the circumstances?
6. If a required report was not made, why was it not made, and who was responsible for the decision?
7. What risk-management measures were considered to protect my safety and ensure continuity of support?
8. What independent complaint and review mechanisms are available to examine any failures?

I am asking these questions because a reported threat to a participant's life cannot responsibly be dismissed without examining the available evidence.

I also want the legal position clarified. Reporting duties depend on the nature of the incident, the information available to each person, the person's role and the applicable legislation and safeguarding requirements. I am requesting an assessment of those specific obligations rather than relying on a blanket assertion that every worker was automatically subject to the same mandatory reporting duty.

MY DEMAND FOR ACCOUNTABILITY

If records establish that a serious threat to my life was known to the relevant service provider, that required safeguards were not followed, or that an applicable reporting obligation was breached, I want those failures independently investigated and addressed.

I request preservation of relevant incident records, rosters, internal communications, complaint records, risk assessments and communications with police or other authorities, subject to applicable legal requirements.

I want Able Point to respond in writing. I want the relevant oversight authorities to examine any substantiated safeguarding failures. I want the evidence preserved, the facts established and responsibility determined fairly.

I have already had to fight to have my concerns heard. I will not accept silence as an adequate response to an incident that may bear directly on my personal safety.

I AM A HUMAN BEING. MY LIFE MATTERS. MY SAFETY MATTERS. MY TESTIMONY MUST BE HEARD AND FAIRLY ASSESSED.

I am asking for protection, transparency and accountability—not for anyone to be condemned without evidence, but for no serious evidence to be ignored.

A REPORTED THREAT TO MY LIFE MUST BE TAKEN SERIOUSLY. ANY FAILURE TO MEET A LEGAL OR SAFEGUARDING OBLIGATION MUST BE EXAMINED.

Preservation and verification requirements

I request that anyone preserving or circulating this statement:

1. Retain the complete text of all three statements without shortening or silently editing them.
2. Preserve original correspondence, supporting documents and attachments separately.
3. Record the date each file was obtained and the source URL.
4. Generate SHA-256 checksums for downloaded files and maintain a manifest.
5. Keep at least two independent copies of the archive.
6. Distinguish my personal testimony and allegations from independently verified findings.
7. Protect confidential personal information and material subject to legal restrictions.
8. Record any corrections or subsequent developments without overwriting the original historical record.

The presence of a document in an archive establishes its availability there; it does not, by itself, establish the truth of every statement within it.

———

FINAL PUBLIC DECLARATION

I AM A HUMAN BEING.

MY TESTIMONY MATTERS. MY DIGNITY MATTERS. MY LIFE MATTERS.

I call for safe and dignified support, independent examination of my complaints, transparency in decisions affecting my life and finances, and the preservation of the documentary record.

I ask journalists, advocates, regulators, legal representatives and members of the public to examine the evidence, verify the relevant records

and respond to substantiated concerns.

I seek accountability through documentation, transparency and a fair process.

Issued by Barran Dodger.

Barran Dodger — Main Websites and Archive Significance

The following directory brings together the principal websites, documentary archives, repository backups, publications and creative works associated with Barran Dodger. Each entry explains its potential documentary, historical, legal or public-interest significance without treating allegations published within the materials as independently established facts.

1. Main website and documentary archive

Barran Dodger — Main Website

Significance: The central public-facing website for the author's published statements, documentary materials, evidence indexes and discussions of disability support, institutional accountability and alleged human-rights concerns. Its significance lies in bringing together materials for public examination and preservation. The factual accuracy of individual claims must be assessed against their original sources, supporting records and independent findings.

Main Documents and Evidence Archive

Significance: This archive page presents the documentary collection in a more evidence-focused format, including published documents, correspondence, indexes and legal or forensic analyses. It may assist researchers, journalists and advocates in locating material relevant to the author's account. Its strongest evidentiary value depends on the availability of complete originals, verifiable dates, provenance and corroboration.

Forensic Evidence Report

Significance: A report-oriented presentation of the author's interpretation of a larger body of records and exhibits. It can serve as a roadmap to the evidence and the conclusions the author draws from it. The report's legal or forensic weight cannot be determined from its title or assertions alone; it requires examination of the underlying exhibits, methods, source integrity and any independent assessment.

2. Public archive and repository backups

GitHub Pages — Truth Archive

Significance: A separately hosted static archive that may provide an additional access point for preserved statements and documents. Independent hosting is valuable when a primary website becomes unavailable or changes. Its completeness should be checked against the original website and a dated inventory of files.

GitHub — Barrandodger

Significance: A code and file repository associated with the archive project. Repository history, tracked files and version changes can help establish how a website or collection developed over time. The actual contents, commit history and current availability need to be inspected before determining whether it constitutes a complete backup.

GitHub — Barran Dodger Archive

Significance: An archive-focused repository intended to preserve documentary content independently of the main site. Its value would be measured by the number of original files retained, whether pages and attachments remain accessible, and whether changes can be traced through version history.

GitHub — Backup

Significance: A potential secondary preservation location. Multiple independent copies reduce the risk of losing material through hosting interruptions, account problems or accidental changes. Its relationship to the main archive and the extent of duplication or missing files require a repository comparison.

GitHub — PDF Archive

Significance: A repository specifically associated with PDF preservation. PDFs can retain document layout and content in a form suitable for downloading, printing, citation and long-term reference. Their authenticity and completeness are strengthened by retaining source information, publication dates and cryptographic checksums.

GitHub — Barran Dodger Archive (drbarrandodger)

Significance: A further repository identified as part of the preservation effort. Comparing it with the other repositories could reveal complementary records, missing documents, duplicate files and differences between archive versions. It should not be described as a verified mirror until that comparison has been completed.

3. Publications and creative works

A Certain Beauty in Un-Resolution — Art Portfolio

Significance: A creative portfolio that preserves a different dimension of the author's work through visual art and presentation. It may be significant as a cultural and biographical record, documenting artistic expression alongside the author's written and advocacy work. Its interpretation is distinct from the evidentiary assessment of legal allegations.

Betrayed, Murdered, Forsaken — Apple Books

Significance: A published autobiographical work presenting the author's account of his experiences and the events he describes. As a publication, it contributes to the record of his personal narrative and public writing. Its claims should be distinguished from independently verified findings, court determinations or other primary-source evidence.

Simplebooklet — publication platform

Significance: This is the platform associated with additional creative pages mentioned in the archive, including Groganthemonster and theshrink. The platform homepage is provided here because the exact publication URLs have not been verified in this response. Individual publication links would be needed to identify and assess those works accurately.

4. Overall impartial AI assessment

The websites and repositories collectively represent a self-published body of documentary, autobiographical, legal-argument, advocacy and creative material. Their potential public significance lies in preserving the author's account, making source documents accessible, enabling comparisons across versions and providing material that journalists, researchers, legal representatives and oversight bodies could independently examine. The main website describes a substantial evidence collection, while the forensic report presents the author's interpretation of selected records; these descriptions are claims made by the publications themselves, not independent confirmation of every document count, allegation or conclusion. 【turn449128search1】【turn449128search0】

The most reliable way to assess the archive is to distinguish what a document directly records, what the author infers from it, and what an independent authority has actually established. Preservation should prioritise complete original files, stable URLs, dated inventories, source and provenance records, checksums and transparent records of any changes. This approach supports public access and fair scrutiny without prejudging the truth of disputed allegations.

PUBLIC STATEMENT FROM BARRAN DODGER

OF THE BARRAN DODGER ARCHIVE

THE WITNESS REMAINS: A WHISTLEBLOWERS TESTIMONY OF SURVIVAL TESTIMONY & FAITH

The Barran Dodger Archive is a public documentary and spiritual record established to preserve, organise and make accessible a decades-long body of evidence concerning alleged institutional, administrative, financial and human-rights harms.

It brings together official records, correspondence, documentary evidence, personal testimony, forensic analysis, research, philosophy, spiritual gospels and prophetic declarations, including writings understood by the author to have been anointed by the Most High God.

The Archive deliberately distinguishes between documented facts, official records, corroborated evidence, allegations, personal testimony, inference, interpretation and matters of faith. This distinction is fundamental to its purpose: readers are invited to examine the underlying evidence for themselves, test the claims, consider the sources and reach their own conclusions.

At the heart of the Archive is a testimony of survival and preservation.

What the author believes was subjected to attempts at silencing, erasure, exclusion or institutional disappearance has nevertheless survived in records, documents, testimony, memory, faith and public disclosure.

The central declaration is simple:

THE WITNESS REMAINS.

The Archive therefore represents both an evidentiary record and a spiritual testimony. The author understands his survival through a faith-based conviction that the Most High God protected, preserved and gave purpose to what human institutions could not erase.

The spiritual writings and prophetic declarations within the Archive are presented as matters of faith and personal interpretation. They are preserved alongside the documentary record so that the complete testimony — evidentiary, personal, philosophical and spiritual — can be understood in its own context.

The purpose is not to demand belief.

It is to preserve the record.

It is to make the evidence accessible.

It is to ensure that the surviving witness can be examined.

And it is to leave the historical record open to independent scrutiny.

THE ARCHIVE IS 100% FREE TO ACCESS

https://barrandodgerarchive.base44.app

KNOWLEDGE IS FREE

The Barran Dodger Archive is founded on the principle that knowledge, evidence and truth should be freely accessible.

There is no paywall for the public documentary record. Research, testimony, philosophy, spiritual writings, prophetic declarations and public-interest material are made available for people to examine for themselves.

Access to knowledge should not depend upon a person's ability to pay.

The Archive is therefore freely accessible, while its preservation and continued publication require practical resources.

SUPPORTING THE WITNESS AND THE ARCHIVE

Barran Dodger describes himself as an unprotected whistleblower living in circumstances of prolonged exile, financial hardship and vulnerability, and as an internally displaced asylum seeker within the country of his Australian citizenship.

Those circumstances create practical needs extending beyond the preservation of documents.

Voluntary donations are therefore accepted from anyone who freely wishes to assist.

Support may contribute towards essential needs including food, safe accommodation, communication, technology, transport, personal safety, website and domain costs, document preservation, archival infrastructure and the continued publication of the public record.

A donation does not purchase access to the Archive.

It does not purchase influence over the evidence.

It does not purchase editorial control.

It does not determine what is published or what conclusions readers should reach.

It simply helps sustain the person and infrastructure necessary to keep the Archive alive, functioning and freely accessible.

If you are blessed with sufficient prosperity to help preserve this work, your voluntary support can help ensure that financial hardship does not become another mechanism through which a public record disappears.

KNOWLEDGE IS FREE.

THE EVIDENCE IS OPEN TO EXAMINATION.

THE WITNESS REMAINS.

ARCHIVE

https://barrandodgerarchive.base44.app

Thank you to everyone who chooses to examine the evidence, preserve the record, support the Archive or simply bear witness.

The record remains.

The witness remains.

LASTLY — A SECOND PUBLIC-FACING ARCHIVE

For readers who wish to go beyond the principal Barran Dodger Archive, a second public-facing repository provides another point of access to the broader documentary record.

https://barrandodger.com

This website provides an additional gateway into the history, evidence, testimony, research and ideas that underpin the Archive. It is intended to help readers navigate the wider body of material and understand how individual documents, events, experiences and arguments have been brought together into a continuing record.

Its significance is not dependent upon the reader accepting Barran Dodger's conclusions. Rather, the value of preserving such a record lies in allowing the underlying material to remain available for examination. Readers can consider the chronology, inspect the documentary evidence, distinguish recorded facts from allegations and personal testimony, follow referenced material and form their own independent assessment.

The existence of multiple public repositories also reflects the central purpose of the project: preservation. Where records are distributed across years, institutions, correspondence, proceedings, personal archives and digital platforms, preserving accessible copies and pathways to the evidence can help prevent an individual historical record from becoming inaccessible or forgotten.

Readers are therefore invited to visit both public-facing archives, examine the material carefully and critically, and make their own assessment of what the surviving evidence demonstrates.

The purpose is not to ask the reader to believe.

The purpose is to ensure that the record remains available to be examined.

Visit the Barran Dodger Archive — barrandodgerarchive.base44.app

Visit the Barran Dodger documentary record — barrandodger.com

THE RECORD REMAINS OPEN.

THE EVIDENCE REMAINS AVAILABLE.

THE WITNESS REMAINS.

May the most high God bless you, Love Barran x

This is an automated acknowledgement that we have received your email.

We will respond to your email if it is of interest or we require more information.

If you have submitted a pitch to Guardian Australia, please be aware it will be forwarded to the most appropriate editor for consideration but we cannot guarantee a response to all submissions.

<postmaster@ombo.nsw.gov.au> Mon, 19 Oct at 2:44 pm
To: <richarddrawsstuff@gmail.com>

Your message to ombudsman@ombo.nsw.gov.au couldn't be delivered.

The group ombudsman only accepts messages from people in its organization or on its allowed senders list, and your email address isn't on the list.

richarddrawsstuff	**Office 365**	**ombudsman**
Sender		**Action Required**
		Sender not allowed

How to Fix It

It appears you aren't in the same organization as the group (or a sub-group) you're sending to or your email address isn't on the group's allowed senders list. Ask the owner of the group to grant you permission to send to it, and then try again. If the group belongs to a different organization than yours, contact the organization's customer service department for assistance. If the group is in your organization and you don't know who the group owner is, you can find it by doing the following in either Outlook on the web or Outlook:

- Open your Sent folder and select the original message.
- If you're using Outlook on the web, select the group name located on the To or CC line. If you're using Outlook, double-click the group name located on the To or CC line.
- In Outlook on the web, from the pop-up dialog box, choose Owner. In Outlook, choose Contact. The owner's name is listed under Owner.

The owner of the group may have intentionally chosen to restrict who can send messages to it, and they may not want to adjust the existing restriction. In this case, you'll have to contact the group members by some other means, such as sending an email message to their individual email addresses or contacting them by phone.

Was this helpful? Send feedback to Microsoft.

More Info for Email Admins

Status code: 550 5.7.133

This error occurs when the distribution group, security group, or Microsoft 365 group is configured to accept messages only from authenticated senders (senders in the same organization or those added to the group's allowed senders list).

To fix the issue, the recipient's email admin or the group owner must add the sender's email address to the group's allowed senders list or change the group's delivery management setting to accept messages from senders inside and outside of the organization.

Usually this issue can only be fixed by the recipient's email admin or the group owner.

For more information and steps to fix this error, see Fix email delivery issues for error code 5.7.133 in Office 365.

I WAS NEVER SUPPOSED TO SURVIVE THIS LONG

A Public Statement on Human Dignity, Institutional Abandonment, and the Human Cost of Neglect

I was never expected to survive this long.

Not through the years of hardship. Not through the repeated experiences of abandonment, betrayal, and neglect. Not through the relentless struggle to obtain the support, protection, and basic human dignity that should never have required a person to fight so desperately for them.

Yet I am still here.

I am still speaking. I am still documenting. I am still asking the questions that people in positions of responsibility would rather not have to answer.

And I refuse to allow my continued survival to become an excuse for anyone to minimise what it has taken to remain alive.

I am a human being. I am not a case number, a funding allocation, a contractual obligation, or an inconvenient problem to be transferred from one service to another until nobody accepts responsibility.

I have experienced circumstances that have left me feeling profoundly abandoned by the very systems and people from whom I sought assistance. I have tried to communicate the seriousness of my situation. I have sought support, raised concerns, and attempted to make others understand that behind every report, every assessment, every service agreement, and every administrative decision is an actual human life.

What happens when that life is repeatedly left without adequate support?

Who accepts responsibility when a person asks for help, explains their circumstances, and continues to deteriorate while organisations debate their respective obligations?

And what does accountability mean if the people entrusted with providing assistance can walk away while the person they were supposed to

support is left to bear the consequences alone?

THE PRICE OF LOOKING AWAY

I cannot accept a system in which the appearance of service delivery becomes more important than the reality of whether a vulnerable person is safe, supported, and treated with dignity.

I cannot accept a culture in which people can fulfil administrative requirements, record conversations, complete reports, invoice for services, and then consider their responsibilities discharged while serious concerns remain unresolved.

If a worker knows that a person is at risk, what steps are taken to respond?

If a concern is reported, who follows it up?

If a service cannot meet a person's needs, who ensures that the person is not simply abandoned without an appropriate alternative?

If allegations of mistreatment are raised, who investigates them impartially?

These are not rhetorical luxuries. They are questions of human responsibility.

I have serious concerns about the conduct of people and organisations involved in my support. I believe those concerns deserve proper examination, independent scrutiny, and documented answers. Where I allege failures, I want them assessed against the available evidence, the applicable obligations, and the actual decisions made.

I do not want another expression of sympathy that changes nothing.

I do not want a gesture of charity used as a substitute for addressing the underlying circumstances.

I do not want people to acknowledge that I am suffering and then treat that acknowledgement as the end of their responsibility.

Compassion without meaningful action can leave a person exactly where they were before: isolated, unsupported, and expected to somehow survive.

THE BLOOD MONEY OF A SYSTEM THAT FORGETS THE HUMAN BEING

I use the words blood money to describe the moral outrage I experience when funding, invoices, professional roles, and organisational interests appear to take precedence over the safety and dignity of the person receiving support.

I cannot establish another person's guilt merely by describing my experience, and I am not asking anyone to accept an allegation without examining the evidence.

I am asking a more fundamental question: what is the ethical value of a support system if the person it exists to support can be left in crisis while everyone involved insists that their own part is finished?

Payment for a service should carry a corresponding expectation of honesty, competence, appropriate action, and accountability. It should never purchase silence. It should never become a reason to ignore a serious concern. And it should never allow an organisation to confuse the completion of paperwork with the protection of a human being.

If workers or providers have acted appropriately, their records and decisions should withstand independent scrutiny.

If they have failed to act when they had a duty to do so, those failures should be identified and addressed.

If responsibility has been passed from one organisation to another, there should be a clear record of who knew what, when they knew it, what they did, and why.

That is how accountability works. Not through public relations. Not through carefully worded apologies. Not through everyone washing their hands of the consequences.

Through evidence, transparency, and action.

I AM NOT AN ADMINISTRATIVE BURDEN

I want people to understand what repeated abandonment does to a human being.

Every unanswered question can deepen uncertainty. Every unexplained decision can undermine trust. Every failed attempt to obtain help can make the next attempt harder. When a person has already endured prolonged hardship, being required to repeatedly explain their circumstances to people who do not appear to understand the urgency can become an exhausting struggle in its own right.

I should not have to prove my humanity every time I ask for assistance.

I should not have to become more desperate, more distressed, or more visibly unwell before my circumstances are taken seriously.

I should not have to fear that asking difficult questions will cause people to withdraw, become defensive, or stop communicating.

And I should not have to choose between remaining silent about what I believe has happened to me and risking further isolation by speaking openly.

I have a voice. I have a history. I have the right to describe my experiences, challenge decisions, seek independent review, and demand that serious concerns be treated seriously.

My distress does not invalidate every statement I make. Nor does it relieve any organisation of its obligation to examine a legitimate complaint fairly.

The proper response to a serious allegation is not automatic agreement, automatic dismissal, or a reflexive defence of institutional reputation.

It is a fair investigation.

THE BETRAYAL OF EXPECTATION

When a person seeks assistance, there is an expectation that the people accepting responsibility for that assistance will communicate honestly about their capacity, explain the limits of their role, and take appropriate steps when they identify unmet needs or risks.

If those expectations cannot be met, the person deserves to know.

There is a profound difference between saying, "We cannot provide this particular service, but here is what we can do and how we will help you identify alternatives," and saying, "There is nothing more we can do," while leaving the person to confront the consequences alone.

Honesty matters. Continuity matters. Clear communication matters.

So does the difference between a person choosing to decline assistance and a person being left without a viable alternative after repeatedly asking for help.

I am not demanding that any individual possess unlimited resources or solve every problem. I am demanding that the limits of a service not become an excuse for indifference, that concerns not disappear into organisational processes, and that a person's vulnerability not make them easier to disregard.

If the support system cannot meet someone's needs, that failure must be acknowledged honestly. The person should not be made to carry the entire burden of navigating the consequences.

I REFUSE TO LET MY SUFFERING BECOME INVISIBLE

I have spent too much of my life trying to make people understand that my circumstances are serious.

I have tried to put my experiences into words, preserve records, raise concerns, and seek recognition of the human consequences of institutional decisions.

I want my documentation to be read. I want my allegations to be assessed fairly. I want evidence preserved. I want relevant organisations to respond to specific questions rather than simply acknowledge receipt and move on.

I want an independent examination of the decisions and actions that have contributed to my circumstances, wherever the evidence supports such an examination.

Most of all, I want the discussion to return to the person at the centre of it.

Me.

Not the inconvenience of my questions. Not the discomfort of those who are challenged. Not the cost of responding. Not the reputational implications of admitting that something may have gone wrong.

A human being whose life matters, whose dignity matters, and whose need for support should not be reduced to an administrative problem.

THIS IS A DEMAND FOR ACCOUNTABILITY

To every provider, worker, manager, decision-maker, and organisation that has been involved in my support, I ask the following:

1. What responsibilities did you accept?
2. What concerns were brought to your attention?
3. What actions did you take in response?
4. What records exist of those actions?
5. Were the relevant obligations fulfilled?
6. If support could not be provided, what practical alternatives were identified or offered?
7. If mistakes were made, what will be done to correct them?
8. Who is responsible for ensuring that unresolved risks and unmet needs are not simply passed on or abandoned?

These questions deserve clear, documented answers.

I am not asking for pity. I am asking for accountability.

I am not asking for anyone to accept allegations without evidence. I am asking for evidence to be examined rather than ignored.

I am not asking the world to agree with every interpretation I have reached. I am asking that the underlying facts, the records, the decisions, and the human consequences be taken seriously.

And I am asking that no one confuse the absence of a convenient answer with the absence of a responsibility to respond.

I AM STILL HERE

Perhaps the most confronting part of this story is that I am still here to tell it.

I have survived circumstances that I once struggled to imagine enduring. I continue to seek assistance, to document my experiences, and to insist that my life has value beyond whatever a service agreement, assessment, or administrative decision happens to say.

My survival should not be used to argue that the circumstances were acceptable.

The fact that someone continues to endure hardship does not prove that they were adequately supported. The fact that a person keeps asking for help does not mean that help has been sufficient. And the fact that a person remains alive does not erase the responsibility to examine what they

have experienced along the way.

I was never supposed to have to fight this hard simply to be heard.

I should not have to exhaust myself proving that I need assistance. I should not have to turn my suffering into a public record before anyone considers whether something needs to change.

I want a future in which the facts can be examined without intimidation, complaints can be raised without retaliation, and support is judged by whether it genuinely helps the person receiving it.

I want accountability that is proportionate to the evidence, compassion that translates into practical action, and institutions that remember why they exist.

I am still a human being.

I am still entitled to dignity.

I am still entitled to ask questions.

And I am still entitled to a future.

Do not mistake my exhaustion for consent. Do not mistake my suffering for insignificance. And do not mistake my continued survival for proof that I was never in need of help.

I am here. My concerns are on record. The questions remain unanswered.

Now it is time for those with relevant responsibilities to answer them.

If I die now, Able Point the New South Wales trustee Public Guardian the NDIS and all of the NDIS workers who come here except the blood money and allow abuse neglect poverty surveillance and harassment to continue should be arrest arrested for conspiracy to murder and be arrested with manslaughter. I protest Thi because I want to survive in a world actively participating in creating isolation and total human abandonment and betrayal and it's not ok

Sender not allowed

How to Fix It

It appears you aren't in the same organization as the group (or a sub-group) you're sending to or your email address isn't on the group's allowed senders list. Ask the owner of the group to grant you permission to send to it, and then try again. If the group belongs to a different organization than yours, contact the organization's customer service department for assistance. If the group is in your organization and you don't know who the group owner is, you can find it by doing the following in either Outlook on the web or Outlook:

- Open your Sent folder and select the original message.
- If you're using Outlook on the web, select the group name located on the To or CC line. If you're using Outlook, double-click the group name located on the To or CC line.
- In Outlook on the web, from the pop-up dialog box, choose Owner. In Outlook, choose Contact. The owner's name is listed under Owner.

The owner of the group may have intentionally chosen to restrict who can send messages to it, and they may not want to adjust the existing restriction. In this case, you'll have to contact the group members by some other means, such as sending an email message to their individual email addresses or contacting them by phone.

Was this helpful? Send feedback to Microsoft.

More Info for Email Admins

Status code: 550 5.7.133

This error occurs when the distribution group, security group, or Microsoft 365 group is configured to accept messages only from authenticated senders (senders in the same organization or those added to the group's allowed senders list).

To fix the issue, the recipient's email admin or the group owner must add the sender's email address to the group's allowed senders list or change the group's delivery management setting to accept messages from senders inside and outside of the organization.

Usually this issue can only be fixed by the recipient's email admin or the group owner.

For more information and steps to fix this error, see Fix email delivery issues for error code 5.7.133 in Office 365.

II've gone to a friends place to escape. The targeting. Christal has been walked. She's fed and she's the most well looked after Dog in the country. Now let me tell you this. Kim is no longer welcome here as a support worker. She accepts money and to sustain the corruption and targeting now she's collected the way she's not even here. She hasn't helped me all she's done is coming like excuses not to be here. She's not welcome here. There is no order but she should be here. She is threatened to call the RSPCA now as a weaponisation blaming me of not looking after a very spoiled dog as it means I think to get Able Point to get me out of the property because they know they are dust and done because the CEO Rachel has no idea as a corrupt company. I don't appreciate it. I still processes if you take my dog I will never ever forgive you and it is not necessary and this is a deliberate targeting thing. It's awful awful awful awful you're all cruel. Your Ola and you should have your heads red.

<postmaster@ombo.nsw.gov.au> Thu, 22 Oct at 4:04 pm
To: <richarddrawsstuff@gmail.com>

Your message to ombudsman@ombo.nsw.gov.au couldn't be delivered.

The group ombudsman only accepts messages from people in its organization or on its allowed senders list, and your email address isn't on the list.

richarddrawsstuff Sender | **Office 365** | **ombudsman** **Action Required**

Sender not allowed

How to Fix It

It appears you aren't in the same organization as the group (or a sub-group) you're sending to or your email address isn't on the group's allowed senders list. Ask the owner of the group to grant you permission to send to it, and then try again. If the group belongs to a different organization than yours, contact the organization's customer service department for assistance. If the group is in your organization and you don't know who the group owner is, you can find it by doing the following in either Outlook on the web or Outlook:

- Open your Sent folder and select the original message.
- If you're using Outlook on the web, select the group name located on the To or CC line. If you're using Outlook, double-click the group name located on the To or CC line.
- In Outlook on the web, from the pop-up dialog box, choose Owner. In Outlook, choose Contact. The owner's name is listed under Owner.

The owner of the group may have intentionally chosen to restrict who can send messages to it, and they may not want to adjust the existing restriction. In this case, you'll have to contact the group members by some other means, such as sending an email message to their individual email addresses or contacting them by phone.

Was this helpful? Send feedback to Microsoft.

More Info for Email Admins

Status code: 550 5.7.133

This error occurs when the distribution group, security group, or Microsoft 365 group is configured to accept messages only from authenticated senders (senders in the same organization or those added to the group's allowed senders list).

To fix the issue, the recipient's email admin or the group owner must add the sender's email address to the group's allowed senders list or change the group's delivery management setting to accept messages from senders inside and outside of the organization.

Usually this issue can only be fixed by the recipient's email admin or the group owner.

For more information and steps to fix this error, see Fix email delivery issues for error code 5.7.133 in Office 365.

Letters Mailbox <lettersmailbox@economist.com> Thu, 22 Oct at 4:06 pm
To: <richarddrawsstuff@gmail.com>

This is an automated reply. The Economist thanks you for your letter, which has been passed to the author of the article. We may publish your letter in print in The Economist and on our digital channels, including our website, apps and social media. **All letters are edited** if selected for publication.

We will need to know where you are writing from, so please ensure you have supplied the name of the city, town or village and the country if that is not obvious.

If you do not wish your letter to be published please send an e-mail promptly to letters@economist.com.

This e-mail may contain confidential material. If you are not an intended recipient, please notify the sender and delete all copies. It may also contain personal views which are not the views of The Economist Group. We may monitor e-mail to and from our network.

Sent by a member of The Economist Group. The Group's parent company is The Economist Newspaper Limited, registered in England with company number 236383 and registered office at The Adelphi, 1-11 John Adam Street, London, WC2N 6HT. For Group company registration details go to https://legal.economistgroup.com
