To: Grace Medical Centre
Attention: Dr Dina

Dear Dr Dina and Grace Medical Centre Reception,

URGENT — REQUEST FOR A DOCTOR'S APPOINTMENT AND REPEAT ANTIBIOTIC PRESCRIPTION TODAY

I am writing to urgently request an appointment with Dr Dina today, as my infection has not cleared and I have now run out of my antibiotics. I urgently need medical review and a further prescription, if clinically appropriate, so that my treatment can continue without further delay.

I also need to confirm that I can attend today for my blood test and see the doctor urgently regarding the ongoing infection.

Unfortunately, I do not have access to my own phone and have been unable to call the medical centre. My NDIS support people have refused to allow me to use their phone, leaving me unable to contact the practice by telephone to arrange the care I urgently need.

My situation is extremely difficult. I also currently have no food, and I am struggling with these circumstances, as you are already aware.

Could you please urgently call me on 04 31 300 940 to confirm whether I can attend today for my blood test and whether Dr Dina can see me to assess the ongoing infection and arrange another antibiotic prescription if necessary?

I would be very grateful for a prompt response, as I am unwell, have run out of my medication, and need to know what arrangements can be made for my care today.

If, for any reason, you are unable to accommodate my request or contact me, could you please let me know that as well, so I am not left waiting without knowing what to do next?

Thank you for your time, understanding and urgent assistance. I sincerely appreciate your help.

I am awaiting your response.

Kind regards,
Barran Dodger

PUBLIC STATEMENT FROM BARRAN DODGER
OF THE BARRAN DODGER ARCHIVE

THE WITNESS REMAINS: A WHISTLEBLOWERS TESTIMONY OF SURVIVAL TESTIMONY & FAITH

The Barran Dodger Archive is a public documentary and spiritual record established to preserve, organise and make accessible a decades-long body of evidence concerning alleged institutional, administrative, financial and human-rights harms.

It brings together official records, correspondence, documentary evidence, personal testimony, forensic analysis, research, philosophy, spiritual gospels and prophetic declarations, including writings understood by the author to have been anointed by the Most High God.

The Archive deliberately distinguishes between documented facts, official records, corroborated evidence, allegations, personal testimony, inference, interpretation and matters of faith. This distinction is fundamental to its purpose: readers are invited to examine the underlying evidence for themselves, test the claims, consider the sources and reach their own conclusions.

At the heart of the Archive is a testimony of survival and preservation.

What the author believes was subjected to attempts at silencing, erasure, exclusion or institutional disappearance has nevertheless survived in records, documents, testimony, memory, faith and public disclosure.

The central declaration is simple:

THE WITNESS REMAINS.

The Archive therefore represents both an evidentiary record and a spiritual testimony. The author understands his survival through a faith-based conviction that the Most High God protected, preserved and gave purpose to what human institutions could not erase.

The spiritual writings and prophetic declarations within the Archive are presented as matters of faith and personal interpretation. They are preserved alongside the documentary record so that the complete testimony — evidentiary, personal, philosophical and spiritual — can be understood in its own context.

The purpose is not to demand belief.

It is to preserve the record.

It is to make the evidence accessible.

It is to ensure that the surviving witness can be examined.

And it is to leave the historical record open to independent scrutiny.

THE ARCHIVE IS 100% FREE TO ACCESS

https://barrandodgerarchive.base44.app

KNOWLEDGE IS FREE

The Barran Dodger Archive is founded on the principle that knowledge, evidence and truth should be freely accessible.

There is no paywall for the public documentary record. Research, testimony, philosophy, spiritual writings, prophetic declarations and public-interest material are made available for people to examine for themselves.

Access to knowledge should not depend upon a person's ability to pay.

The Archive is therefore freely accessible, while its preservation and continued publication require practical resources.

SUPPORTING THE WITNESS AND THE ARCHIVE

Barran Dodger describes himself as an unprotected whistleblower living in circumstances of prolonged exile, financial hardship and vulnerability, and as an internally displaced asylum seeker within the country of his Australian citizenship.

Those circumstances create practical needs extending beyond the preservation of documents.

Voluntary donations are therefore accepted from anyone who freely wishes to assist.

Support may contribute towards essential needs including food, safe accommodation, communication, technology, transport, personal safety, website and domain costs, document preservation, archival infrastructure and the continued publication of the public record.

A donation does not purchase access to the Archive.

It does not purchase influence over the evidence.

It does not purchase editorial control.

It does not determine what is published or what conclusions readers should reach.

It simply helps sustain the person and infrastructure necessary to keep the Archive alive, functioning and freely accessible.

If you are blessed with sufficient prosperity to help preserve this work, your voluntary support can help ensure that financial hardship does not become another mechanism through which a public record disappears.

KNOWLEDGE IS FREE.

THE EVIDENCE IS OPEN TO EXAMINATION.

LASTLY — A SECOND PUBLIC-FACING ARCHIVE

For readers who wish to go beyond the principal Barran Dodger Archive, a second public-facing repository provides another point of access to the broader documentary record.

https://barrandodger.com

This website provides an additional gateway into the history, evidence, testimony, research and ideas that underpin the Archive. It is intended to help readers navigate the wider body of material and understand how individual documents, events, experiences and arguments have been brought together into a continuing record.

Its significance is not dependent upon the reader accepting Barran Dodger's conclusions. Rather, the value of preserving such a record lies in allowing the underlying material to remain available for examination. Readers can consider the chronology, inspect the documentary evidence, distinguish recorded facts from allegations and personal testimony, follow referenced material and form their own independent assessment.

The existence of multiple public repositories also reflects the central purpose of the project: preservation. Where records are distributed across years, institutions, correspondence, proceedings, personal archives and digital platforms, preserving accessible copies and pathways to the evidence can help prevent an individual historical record from becoming inaccessible or forgotten.

Readers are therefore invited to visit both public-facing archives, examine the material carefully and critically, and make their own assessment of what the surviving evidence demonstrates.

The purpose is not to ask the reader to believe.

The purpose is to ensure that the record remains available to be examined.

Please provide an urgent referral to a treating psychiatrist that is free as the public guardian have blocked all access to my disability pension, it is literally impossible for me to pay to see someone. Provide a written reason if a decision is made

of why this cannot be achieved.

I am providing this letter so that my concerns are accurately documented in my medical record and independently considered during my appointment.

I report experiencing a sustained pattern of financial abuse or financial control, entrapment, inability to leave freely, deliberate isolation, restriction of autonomy and barriers to obtaining independent assistance, including what I understand to be a Legal Aid ban or restriction. I report that these circumstances have left me dependent upon systems and people about whom I am attempting to complain, while limiting my ability to obtain independent legal or advocacy assistance.

I further report that Able Point management has, in my experience, effectively blacklisted me from contacting or communicating directly with management. I understand this to have restricted my ability to raise complaints, seek explanations, advocate for myself or obtain a direct response from management about matters affecting my accommodation, welfare and safety.

I am also concerned about psychiatric weaponisation — specifically, that my psychiatric history, diagnosis or expressions of distress may be used to reinterpret, minimise or discredit my reports about my circumstances. I am concerned that understandable human reactions to fear, distress, conflict, protest or perceived injustice may be characterised primarily as psychiatric symptoms without adequate consideration of the circumstances producing those reactions.

I report experiences of forced or coercive medication/drugging in response to my reactions to these circumstances, and I am concerned about a cycle in which distress arising from my environment may subsequently be interpreted as psychiatric deterioration, resulting in further psychiatric intervention, medication or loss of autonomy.

I also report that my prescribed ADHD medication has been denied or withheld, and I ask that the circumstances, clinical reasoning, decision-maker, documentation and consequences surrounding that denial be independently reviewed and recorded. I ask that my access to clinically indicated medication not be treated as a behavioural-management issue without an independent clinical assessment of my ADHD treatment needs and the reasons for any restriction.

I ask that my account be recorded as my reported experience, without asking you to accept allegations as established facts. However, I also ask that these concerns not automatically be dismissed or clinically reframed solely because they involve psychiatric services, disability services, accommodation providers or other institutions.

I respectfully ask that you:

- record this disclosure in my medical record;
- speak with me privately, without Able Point staff or other persons involved in my accommodation present;
- independently assess my mental state, safety, capacity and medication effects;
- review the circumstances surrounding the denial or withholding of my ADHD medication;
- consider whether coercion, exploitation, financial abuse, neglect, undue influence, disability discrimination or other safeguarding concerns may be relevant;
- consider the circumstances surrounding psychiatric intervention and medication;
- document relevant objective observations, dates, communications, medication decisions, medication

effects and supporting evidence; and
- advise me what appropriate medical, safeguarding, legal or other referral options are available.

I have preserved supporting documentary material, including government correspondence, legal and administrative records, medical and psychiatric documentation, communications, chronology and other evidence. Material can be supplied directly for examination and is also preserved in my public documentary archive:

The Witness Remains — Main Archive

Rebuild / Finding-Aid Archive

I ask that this letter be retained on my medical record as a contemporaneous record of what I have disclosed to you, and that my reported circumstances be considered alongside rather than separated from any assessment of my mental health.

I report that **an arrest has been made in relation to an alleged threat to kill, with the matter proceeding before Wyong Local Court, and that, to my knowledge, Able Point was aware of the circumstances but refused to acknowledge the matter or make what I understand to be any mandatory report or appropriate safeguarding notification**.

Bluntly:

am reporting circumstances that I believe have left me financially controlled, deliberately isolated, effectively entrapped and unable to leave or obtain independent legal assistance, with psychiatric intervention and medication subsequently experienced by me as being used to manage or discredit my human responses to those circumstances.
