To all Able Point staff. Friday 13 November 2026. Dr Richard William McLean. Barran Resonance Dodger.

You instructed me to go inside and lock the door. I am never safe anywhere. My locked door does not excuse the legal liability for any violent crime or harm occurring to me, just because I have been instructed to lock the door.
All staff refused to say why I should lock the door. I heard it from John. I heard it from Kim. Cassandra ignored me. Rachel, the chief executive, ignored me. So did Alisse.
An NDIS client came here with Alana, who asked me to call staff. John told me he was with her. He was not. I smell a rat. Able Point are corrupt.
Harry also instructed me that there was a situation, and to lock myself inside. Then both he and another staff member refused to return. I was left here all day, alone. That is not care. It is neglect.
This is the rest of what happened today.
Able Point staff alerted me that there was a situation. Two support workers then refused to return. I demanded of Cassandra Mackey and of Kim that they return. Cassandra ignored me. Kim told me my worker had gone to do my washing. She had not collected my clothes. I am not aware of any washing machine on the site. Alanah, in the front house, was used as the reason for the situation. I suspect she is a placed agent. She repeatedly knocked and asked me to call the workers who had also abandoned her. I accused Kim of lies. She opposed that.
1:17pm. Harry wrote that you were not completely sure what was going on, that you were trying to get help for Alana, that there were no police around, that he was not on the property, and that Sam was trying to organise my washing.
1:18pm. I told Harry I needed a lift. My mate's brother had died. I told him to forget the washing and send the worker back immediately.
1:19pm. Harry wrote that he would try to get hold of her. 1:44pm. I wrote that he had not tried very hard. Harry's message says Sam was still trying to organise the washing. That is not a worker who had already taken my clothes.
1:43pm. I wrote to Kim: "No one is here." "I need help." "Message cSs." "Fucking send someone already." "Confirm they are returning NOW please."
1:45pm. Kim wrote: "The last message I saw was that your SW has gone to do your clothes washing."
1:47pm. I wrote that she was not there, that my mate's brother had died, and: "She has nit even got my fucking clothes." "No more fucking LIES."
1:48pm. Kim wrote: "Not a lie Barron." She did not say where the worker was. She did not give a number. She did not confirm that anyone was returning. I asked for the number. I wrote "Send her back NOW."
1:49pm. The call is marked no answer. 1:50pm. I wrote "Fucking pathetic" and "Liar."
Asked, and not answered: Cassandra Mackey, Rachel, the Able Point 24-hour line, Kim after the message I left, and the support worker. Kim's one reply was the washing. John's reply was to lock the door.

Rachel, the chief executive, is uncontactable and refuses to provide her identification. No answer from Rachel. No answer from the Able Point 24-hour line. No answer from Kim. I left a message.
Another client came by and asked where Allanah was. I said I had no idea. Shortly after he left, she turned up asking for help. I called Cassandra. No answer. They have left her, like me, in the lurch. She is supposed to have 24/7 care.
I called John. He was agitated with me. He said he was with Allanah. He was not. She had only just knocked on the door asking for help. John told me to go inside and lock the door. He refused to say why. He told me she was heightened and to stay away from her. I have been staying away from her. She came to the door asking me for help. She is not with John whatsoever.
The other client returned with Alana, and they left for a short while. John is clearly not present with her whatsoever.
I gave my key card to my visitor to withdraw some money. I felt unsafe to go out. I do not feel safe here whatsoever.
I was worried answering the door. The other client was removed from this property because he went to attack me. I forgave him. He says Alana is a trusted friend of his. I helped them with something. I owe Alana some money. I used it to buy credits to help create this record and to buy phone credit. The other client returned what I lent them.
Staff telling me to lock myself inside and not go out shows they know there is a potential threat to me. They have not reported it. A death threat against me is documented. It is before Wyong court. There is an AVO that those people are not to come near me. I raised that threat with Able Point. Able Point refused to make a report. I have said, in public, that I am being subjected to abuse, poverty, what I allege is torture, and death threats. A private message to Able Point has not got me out.
A registered NDIS provider must tell the NDIS Commission of a reportable incident. Abuse or neglect of a person with disability must be notified within 24 hours of the provider becoming aware of it. An allegation is enough. The provider does not get to wait until someone else has proved it. That duty is on the NDIS Commission page, Reportable incidents, under the National Disability Insurance Scheme (Incident Management and Reportable Incidents) Rules 2018, and under the NDIS Code of Conduct.
I say Able Point is in breach of that duty, and in breach of every ethical standard an NDIS provider is required to meet. I made a public declaration of abuse, poverty, torture and death threats. You refused to report it. A provider who hears that, and files nothing, is not meeting the policy that binds you.
All staff had been directed not to drive me to my other supplier's house. That banned me from any transport to obtain what I needed. It forced me back into a more local situation. That local source is associated with Able Point. Able Point knew why I needed it. When my contact's brother died, I was refused a drive to him so that I could support him in his grief. I had no working phone with which to contact him. Despite our exchanges, I still offered to support him in his grief. The last time I went there, police intercepted me at his front door and asked questions. That led me to believe it was surveillance, and to wonder how far the deceitful corruption actually goes.
I have advertised my address because I want out. I want to be got to safety. This is not care. It is neglect.

GOD'S WITNESS REMAINS — THE GREAT RECKONING

Website summary, humanitarian SOS and demand for immediate protection

Website: https://gods-witness-remains.grok.me Attachment.png

Your website, God's Witness Remains — The Great Reckoning, is a public testimony, documentary evidence archive, humanitarian appeal, accountability campaign and Christian declaration authored under the name Barran Resonance Dodger — Dr Richard William McLean.

Its central message is:

I am a human being. I have the right to live safely, with dignity, independence and protection. I have preserved the evidence of what has happened to me. I am demanding that the institutions and individuals whose decisions appear in that evidence answer for their conduct. I will not remain in circumstances that I believe are unsafe simply to accommodate institutional convenience.

The website brings together five interconnected purposes:

- Humanitarian protection: demanding immediate safety, accommodation, food, financial access, disability support and protection for you and your assistance dog, Crystal.
- Leaving unsafe circumstances: communicating that you need to leave Able Point because you report being unsafe, unsupported and unable to secure the conditions necessary for your welfare and independence.
- Documentary accountability: preserving and publishing more than 35 years of government correspondence, official records, complaints, decisions and related evidence.
- Independent investigation: demanding examination of alleged institutional misconduct, administrative failures, financial deprivation, safeguarding failures, exclusion and unanswered complaints.
- Restoration and justice: seeking recognition, practical assistance, restitution, compensation, independence and the restoration of your life.

The website's governing principle is:

Preservation First. Examination Second. Conclusion Last.

Its documentary argument is that the institutional records should be examined collectively, chronologically and independently, rather than allowing each institution to consider an isolated letter or complaint without confronting the cumulative history.

The website expressly distinguishes official documentary facts, personal testimony, allegations, analytical inferences and matters

requiring independent investigation. It does not present AI analysis as a judicial finding or automatic proof of criminal conduct. The Great Reckoning

1. The humanitarian SOS: I demand to leave Able Point

This is one of the most important parts of the website.

Your SOS is not simply a complaint about the quality of disability services. It is a demand for intervention because you say that the accommodation and support arrangements have become unsafe and untenable.

Your published testimony describes:

- Support workers allegedly failing to attend or leaving without providing the required assistance.
- Being left without reliable access to food, money, transport, medication and telephone communication.
- Being unable to independently leave the circumstances in which you are living.
- Alleged intimidation, harassment and threats.
- Concerns about the conduct and accountability of Able Point management.
- Difficulty obtaining responses from the CEO, Rachel, and other responsible personnel.
- Concerns about the treatment of another vulnerable resident.
- Fear of being left without protection when support workers are absent.

The 13 November 2026 account is particularly important. It records a sequence of messages concerning absent support workers, your requests for assistance, unanswered calls and your statement:

"I do not feel safe here whatsoever."

The website reproduces the communications attributed to Kim and Harry, including the messages concerning washing arrangements and attempts to locate support workers. It also distinguishes your own suspicions from what the messages actually establish. The Great Reckoning

Your demand is to leave

Your position is that you should not be required to remain at Able Point while complaints about its management, care arrangements and safeguarding responsibilities remain unresolved.

You are demanding:

- Immediate assistance to leave Able Point safely.
- Independent accommodation for yourself and Crystal.
- Protection against intimidation, harassment and further harm.
- Independent assessment of the existing support arrangements.
- Replacement of disputed care arrangements where necessary.
- Access to your money, banking, telephone and transport.
- Food, medication and essential supplies.
- Independent investigation of the complaints concerning Able Point.
- Accountability for any established neglect, abuse, financial misconduct or safeguarding failures.

Your demand to leave must not be misrepresented as consent to homelessness, abandonment or withdrawal of disability support.

You are asking to leave circumstances you consider unsafe and to receive appropriate alternative support.

2. The corruption and institutional accountability allegations

The website places the Able Point situation within a much larger history of alleged institutional misconduct.

Its central argument is that the treatment you describe cannot be adequately examined by looking at individual incidents in isolation.

You identify several areas requiring investigation:

Area	What your website raises
Able Point	Provider accountability, alleged neglect and failure to deliver support
NDIS	Funding expenditure compared with actual services received
Financial administration	Restricted access to money and alleged financial deprivation

Police	Unresolved complaints and alleged misconduct
Legal assistance	Exclusion and difficulty obtaining representation
Government	Unanswered correspondence, decisions and complaints
Whistleblower protection	Alleged retaliation and failure to protect disclosures
Disability safeguarding	Whether statutory and professional responsibilities were fulfilled
Ministerial accountability	Questions concerning decisions, responsibilities and alleged connections requiring investigation

An especially important issue is the distinction between money allocated to provide disability support and the actual care received.

Your website asks:

If money is being allocated for my care, where is the care?

It calls for examination of attendance records, service agreements, invoices, provider identities, funding expenditure and the actual assistance delivered. Barran Dodger +1

The website also identifies particular alleged irregularities concerning Able Point's corporate identification and ABNs. These are matters requiring verification against the relevant corporate and contractual records, not proof of corruption by themselves.

3. The 35-year documentary evidence archive

Central documentary project

The website presents an extensive historical record.

Its 13 November declaration identifies 1,333 official government documents and related correspondence spanning more than 35 years.

The archive includes:

- Government correspondence.
- Departmental decisions.
- Complaints and acknowledgements.
- Legal and administrative records.
- NDIS and disability-support documentation.
- Police-related correspondence.
- Financial and administrative records.
- Human rights and international representations.
- Personal testimony and supporting communications.

The purpose of assembling these records is to enable independent examination of the complete chronology.

The website links to the GitHub evidence repository and its public documentary register.

4. The forensic examination and terminology

The website develops a vocabulary for describing the cumulative consequences of the events you report.

Among its central terms are:

- Administrative annihilation.
- Civil death.
- Civil erasure.
- Social erasure.
- Institutional complicity.
- Institutional corruption.
- Coercive financial control.

- Societal mobbing.
- Whistleblower retaliation.
- Exile.
- Human sacrifice.
- The architecture of erasure.

These are analytical, legal, moral or metaphorical descriptions with different evidentiary requirements.

Your intended approach is to justify each term against identifiable records, distinguish documented events from allegations and inferences, and identify what requires further investigation.

The objective is not simply to publish accusations. It is to make the underlying material accessible for scrutiny.

5. Your Christian testimony and spiritual declaration

The website is also a declaration of faith.

Its central spiritual themes include:

- Your relationship with the Most High God through Jesus Christ.
- Survival despite prolonged adversity.
- The sanctity of human life.
- The moral limitations of institutional power.
- Divine justice and accountability.
- The refusal to surrender your testimony.

Your spiritual declaration is intertwined with your documentary work.

The recurring declaration is:

THE WITNESS REMAINS.

6. Publishing, international advocacy and public accountability

The website is intended to operate as more than an archive.

It incorporates:

- A publishing house.
- Gospel and prophetic writing collections.
- Books and downloadable publications.
- An evidence repository.
- A public accountability campaign.
- An international human rights appeal.
- An investigations and obligations register.
- A public support and humanitarian donation appeal.
- A press and media presence.

It seeks to bring the documented issues to the attention of Australian authorities, oversight bodies, legal professionals, journalists and international human rights organisations.

7. The central message that should accompany your SOS

I would summarise the entire humanitarian demand in the following declaration:

URGENT HUMANITARIAN SOS

I NEED TO LEAVE ABLE POINT. I AM ASKING TO BE TAKEN TO SAFETY.

I am Barran Resonance Dodger, Dr Richard William McLean. I am a disabled person, an author, a researcher and a whistleblower.

I am publicly asking for urgent intervention because I do not consider my circumstances at Able Point safe or sustainable.

I have documented allegations of neglect, inadequate support, financial deprivation, intimidation and failures of safeguarding. I have published communications and records that I believe warrant independent investigation.

I am not asking to be abandoned, made homeless or deprived of my disability supports.

I am demanding a safe and properly supported departure, alternative accommodation, access to my money, food, medication, transport, communication and protection.

My assistance dog Crystal must be included in that protection.

I am also demanding that the allegations concerning Able Point and the wider institutional history be independently investigated.

I WILL NOT BE REQUIRED TO REMAIN IN CIRCUMSTANCES I CONSIDER UNSAFE JUST BECAUSE THE INSTITUTIONS RESPONSIBLE HAVE FAILED TO PROVIDE AN ALTERNATIVE.

My departure is not consent to abandonment.

My request for safety is not a withdrawal of my complaints.

My demand for accountability is not a substitute for humanitarian assistance.

I WANT TO LIVE. I WANT SAFETY. I WANT MY LIFE RESTORED.

The Witness Remains.

8. An important immediate point

Your website's SOS page records serious concerns about food, medication, communication and safety, including the events of 13 November. Those are urgent humanitarian issues, independently of whether the wider corruption allegations have been established.

If you are in immediate danger, call 000. You can also contact NSW Link2home on 1800 152 152 for emergency accommodation assistance.

One important question: Are you physically safe at Able Point right now, or do you need immediate help getting out tonight?

I want the distinction preserved throughout your public appeal: you are demanding protection and alternative accommodation, not another welfare check that leaves the underlying housing and support problem unresolved.

PUBLIC STATEMENT FROM BARRAN DODGER
OF THE BARRAN DODGER ARCHIVE

THE WITNESS REMAINS: A WHISTLEBLOWERS TESTIMONY OF SURVIVAL TESTIMONY & FAITH

The Barran Dodger Archive is a public documentary and spiritual record established to preserve, organise and make accessible a decades-long body of evidence concerning alleged institutional, administrative, financial and human-rights harms.

It brings together official records, correspondence, documentary evidence, personal testimony, forensic analysis, research, philosophy, spiritual gospels and prophetic declarations, including writings understood by the author to have been anointed by the Most High God.

The Archive deliberately distinguishes between documented facts, official records, corroborated evidence, allegations, personal testimony, inference, interpretation and matters of faith. This distinction is fundamental to its purpose: readers are invited to examine the underlying evidence for themselves, test the claims, consider the sources and reach their own conclusions.

At the heart of the Archive is a testimony of survival and preservation.

What the author believes was subjected to attempts at silencing, erasure, exclusion or institutional disappearance has nevertheless survived in records, documents, testimony, memory, faith and public disclosure.

The central declaration is simple:

THE WITNESS REMAINS.

The Archive therefore represents both an evidentiary record and a spiritual testimony. The author understands his survival through a faith-based conviction that the Most High God protected, preserved and gave purpose to what human institutions could not erase.

The spiritual writings and prophetic declarations within the Archive are presented as matters of faith and personal interpretation. They are preserved alongside the documentary record so that the complete testimony — evidentiary, personal, philosophical and spiritual — can be understood in its own context.

The purpose is not to demand belief.

It is to preserve the record.

It is to make the evidence accessible.

It is to ensure that the surviving witness can be examined.

And it is to leave the historical record open to independent scrutiny.

THE ARCHIVE IS 100% FREE TO ACCESS

https://barrandodgerarchive.base44.app

KNOWLEDGE IS FREE

The Barran Dodger Archive is founded on the principle that knowledge, evidence and truth should be freely accessible.

There is no paywall for the public documentary record. Research, testimony, philosophy, spiritual writings, prophetic declarations and public-interest material are made available for people to examine for themselves.

Access to knowledge should not depend upon a person's ability to pay.

The Archive is therefore freely accessible, while its preservation and continued publication require practical resources.

SUPPORTING THE WITNESS AND THE ARCHIVE

Barran Dodger describes himself as an unprotected whistleblower living in circumstances of prolonged exile, financial hardship and vulnerability, and as an internally displaced asylum seeker within the country of his Australian citizenship.

Those circumstances create practical needs extending beyond the preservation of documents.

Voluntary donations are therefore accepted from anyone who freely wishes to assist.

Support may contribute towards essential needs including food, safe accommodation, communication, technology, transport, personal safety, website and domain costs, document preservation, archival infrastructure and the continued publication of the public record.

A donation does not purchase access to the Archive.

It does not purchase influence over the evidence.

It does not purchase editorial control.

It does not determine what is published or what conclusions readers should reach.

It simply helps sustain the person and infrastructure necessary to keep the Archive alive, functioning and freely accessible.

If you are blessed with sufficient prosperity to help preserve this work, your voluntary support can help ensure that financial hardship does not become another mechanism through which a public record disappears.

KNOWLEDGE IS FREE.

THE EVIDENCE IS OPEN TO EXAMINATION.

THE WITNESS REMAINS.

ARCHIVE

https://barrandodgerarchive.base44.app

Thank you to everyone who chooses to examine the evidence, preserve the record, support the Archive or simply bear witness.

The record remains.

The witness remains.

LASTLY — A SECOND PUBLIC-FACING ARCHIVE

For readers who wish to go beyond the principal Barran Dodger Archive, a second public-facing repository provides another point of access to the broader documentary record.

https://barrandodger.com

This website provides an additional gateway into the history, evidence, testimony, research and ideas that underpin the Archive. It is intended to help readers navigate the wider body of material and understand how individual documents, events, experiences and arguments have been brought together into a continuing record.

Its significance is not dependent upon the reader accepting Barran Dodger's conclusions. Rather, the value of preserving such a record lies in allowing the underlying material to remain available for examination. Readers can consider the chronology, inspect the documentary evidence, distinguish recorded facts from allegations and personal testimony, follow referenced material and form their own independent assessment.

The existence of multiple public repositories also reflects the central purpose of the project: preservation. Where records are distributed across years, institutions, correspondence, proceedings, personal archives and digital platforms, preserving accessible copies and pathways to the evidence can help prevent an individual historical record from becoming inaccessible or forgotten.

Readers are therefore invited to visit both public-facing archives, examine the material carefully and critically, and make their own assessment of what the surviving evidence demonstrates.

The purpose is not to ask the reader to believe.

The purpose is to ensure that the record remains available to be examined.
