The Official Government Documents Register

A source-linked catalogue of government records, administrative correspondence, legal documents, official determinations and other documentary evidence preserved in The Witness Remains archive.
The Witness Remains — Dr Barran Dodger documentary archive. Dr Richard William McLean, publicly known as Dr Barran Dodger.

Back to the main archive

Scope

This is a documentary finding aid. It is not a court, a tribunal, an official investigation, or a determination of liability. Inclusion of a document does not establish wrongdoing, motive, unlawful conduct, or personal responsibility.

The first review looked at the public repository wezzo72/Barrandodger at commit `1b98e6efea73f2633ac089cba0594cf968fd7cac` on 11 October 2026. That tree contained 6,617 files, including 3,647 PDFs, and produced entries OGDR-001 to OGDR-125.

A further pass the same day re-counted the tree at commit `7c9c609d8da2`: 6,706 files, including 3,650 PDFs. Every PDF path was screened. 418 PDFs that were not already registered, and whose folder or filename indicated government administration or correspondence, were downloaded and had their opening pages read. 60 of those were byte-identical to an entry already in the register. 270 distinct further records are entered in section 13. Website-backup renders, generated page PDFs, AI essays, gospels, prophecy, and files whose names did not indicate a government record were not opened and are not treated as government findings.

> **What the first pass covered.** Files in `docs/official-drive/`, the text-extracted copies used to read them, and selected files in `imports/official-2026-10-01/`. Where two files had the same SHA-256, they are one entry.

> **What the further pass covered.** Curated official shelves (`docs/email-extracts/`, `docs/official-gmail/`, `docs/drive-evidence/`, official-import folders, and the government shelf of the Gmail sweep), plus other PDFs whose filenames named an agency, a tribunal, a decision, a notice, or FOI correspondence. Opening pages only, up to three pages. Archive placeholders that say they are not the document were not registered as the document.
>
> **What was still not opened.** The barrandodger.com website backup, `rendered-pdfs/`, AI essays, gospels, prophecy, and the large remainder of the 3,650 PDFs whose paths did not indicate a government record. They remain in the repository for inspection. Several scans returned no text layer. Encrypted PDFs were not decrypted.
>
> **Last review:** 11 October 2026. Preservation first. Verification second. Context third. Conclusions last.

Methodology and evidence scale

Official records are the primary source for factual statements in this register. The author's later letters and archive covers are identified as such. A filename is not a finding. A Git blob SHA is a version-control identifier, not a SHA-256 hash. SHA-256 values below were computed in this review from the bytes downloaded from GitHub. No blockchain timestamp was re-checked for this register.

- **A** — Directly established documentary fact, limited to what the inspected pages say.
- **B** — Corroborated claim supported by more than one identifiable record.
- **C** — Documented allegation or reported experience, not independently established.
- **D** — Reasoned inference requiring further verification.
- **E** — Speculation or unresolved interpretation. This register avoids E.

The classification attaches to the proposition in the entry, not automatically to every sentence in the file.

Records that particularly matter

These are not the whole register. They are the records, among those opened, that most directly show an official acknowledgement, a decision about employment, disability support, money, legal status or access, or a refusal, review or jurisdictional limit. The selection is explained in each entry. Unresolved questions are stated as questions.

> **27 March 2023, Scott Tredwell.** The file is a three-page letter from the Federal Court Principal Registry, signed Scott Tredwell, General Counsel. He writes as an authorised officer under the Public Interest Disclosure Act 2013 (Cth). It is not a judgment.
>
> On the information provided to him, he says he is satisfied Dr McLean is or was an employee of the Department of Social Services under the trading name Rich McLean, Arts Life Coach, Peer-Support Worker & Mental Health Advocate. In the same letter he is not satisfied the disclosure was made by a public official or to an authorised recipient, he finds the conduct does not relate to the Federal Court, the Federal Circuit and Family Court, or the National Native Title Tribunal, and he decides not to allocate the disclosure. He assumes, for the initial assessment only, that the conduct described is disclosable conduct. That assumption is not a finding that the conduct occurred.
>
> A different statute and a different decision-maker are involved in the Administrative Appeals Tribunal decision of 12 July 2023, which affirmed Comcare's decision and, in the catchwords, held that the applicant was not an employee of the Commonwealth for the Safety, Rehabilitation and Compensation Act 1988 (Cth). Those two records are not interchangeable.

Addressed to Dr Richard William McLean, 2 McCubbin Street, Footscray. States the claim for workers' compensation is declined under s 14 of the SRC Act for anxiety state and depressive disorder. Claimed condition: anxiety and depression. The reasons begin with whether the person is an "employee" under s 5. The letter records that the claim form of 26 April 2021 described the usual occupation as artist–life coach–therapeutic supplier and sole trader, and that a 13 May 2021 email said he was a registered NDIA provider, an employer of himself, paid through PRODA. The extracted pages discuss indicia of a contract of service. The final operative sentence of the employment analysis was not fully captured beyond the opening reasons. The letter attaches a notice of rights and says a reconsideration may be requested within 30 days.

SIGNIFICANCE

It is the primary compensation refusal later taken to the AAT.

POTENTIAL DETRIMENT OR CONSEQUENCES

The claim is declined. The letter does not state a dollar amount of compensation refused.

CAUSAL QUALIFICATION

Expressly recorded: the claim is declined. Downstream loss of income is the author's characterisation unless another record quantifies it. Not established as a dollar figure here.

CORROBORATING RECORDS

AAT decision 12 July 2023; NDIS Commission email of 3 June 2021 about provider status.

EVIDENCE CLASSIFICATION

A for the decline and the employment question as framed in the letter. The full reasoning after the pages extracted is not fully established by this entry.

VERIFICATION STATUS

Inspected 11 October 2026. 3 pages extracted.

OFFICIAL STATUS AND PROVENANCE

Not a finding that Dr McLean was or was not an employee of the NDIA or of the Department of Social Services. Not a decision under the SRC Act or the PID Act.

SUBSTANTIVE CONTENTS

The email says NDIS providers are their own business, that registration audits do not make the recipient an employee of the NDIS Commission, and that an enquiry about employment status with the NDIA should go to enquiries@ndis.gov.au.

SIGNIFICANCE

It is an official email distinguishing registered-provider status from employment by the Commission. It is often relevant to how later employment arguments are framed.

It does not decide them.

POTENTIAL DETRIMENT OR CONSEQUENCES

No financial amount or service withdrawal is recorded in the email.

CAUSAL QUALIFICATION

No causal finding. The email gives a direction about where to ask an employment question.

OFFICIAL STATUS AND PROVENANCE

A funding amount in a plan is not proof the money was paid, spent, or withheld. It is not a finding about the quality of supports. It does not decide historical compensation claims.

SUBSTANTIVE CONTENTS

Addressed to Richard William McLean, Locked Bag 5115, Parramatta NSW 2124. States the plan starts 20 November 2025 and ends 19 November 2026, and that “This plan’s total funding amount is $366,406.69.” Management is described, on the opening pages, as a mix of plan-managed and agency-managed components, including behaviour support, improved daily living, improved living arrangements, support coordination, and core flexible. The letter is 30 pages. Components after the opening were not line-read.

SIGNIFICANCE

It is a recent official plan document stating a total funding figure and a 12-month plan period.

POTENTIAL DETRIMENT OR CONSEQUENCES

No detriment is stated in the approval letter’s opening. Any claim that the amount was inadequate, or was not delivered, is not established by the approval sentence.

CAUSAL QUALIFICATION

OFFICIAL STATUS AND PROVENANCE

Not a finding about the cause of any disability. Not a decision that no NDIS supports at all would be funded. The signatory is not established from the pages read. The filename is not treated as the letter's signature.

SUBSTANTIVE CONTENTS

Addressed to Richard McLean, 27 Linlithgow St, Mitcham VIC 3132, participant 430938559. States the NDIA has made a decision about home and living supports. Evidence listed includes NDIS Act 2013 s 34, ILO and SIL operational guidelines, SDA Rules, and an occupational therapy functional assessment by Amy Cavenett dated 3 May 2023. The outcome stated in the opening: activities of daily living assessed as suitable for drop-in ADL supports, and "you are not eligible for Specialist Disability Accommodation" at that time. The letter continues beyond the extract.

SIGNIFICANCE

It is a direct NDIA decision on SDA eligibility and on the kind of daily-living support assessed.

POTENTIAL DETRIMENT OR CONSEQUENCES

SDA is refused on the letter's own terms. The letter does not, in the pages read, quantify a dollar loss. Whether drop-in supports were later provided is not established here.

CAUSAL QUALIFICATION

The ineligibility statement is expressly recorded. A claim that the refusal caused homelessness or a particular later harm is not established by this letter alone.

CORROBORATING RECORDS

EVIDENCE CLASSIFICATION

OFFICIAL STATUS AND PROVENANCE

Does not set out the reasons NCAT made the order. Does not state account balances, what was sold, or that any particular transaction was unlawful. The name on the notice is Barran Resonance Dodger.

SUBSTANTIVE CONTENTS

Marked OFFICIAL: Sensitive – Personal. Managed person: DODGER, Barran Resonance. States that pursuant to s 122(2) of the NSW Trustee and Guardian Act 2009, on 16/10/2024 the NSW Civil and Administrative Tribunal committed management of the estate of Barran Resonance Dodger to NSW Trustee and Guardian, and that the estate remains under management as at the date of the notice. The certificate says this form is admissible in legal proceedings as evidence of the matters it certifies. The underlying NCAT orders are not attached in the pages read.

SIGNIFICANCE

It is direct official evidence that, as at the notice, the estate was under management by NSW Trustee and Guardian following an NCAT commitment on 16 October 2024.

POTENTIAL DETRIMENT OR CONSEQUENCES

Financial management by a trustee is itself a restriction on personal control of the estate. Particular losses, including any vehicle disposal, are not established by this certificate.

CAUSAL QUALIFICATION

The management is expressly certified. A claim that management caused a named later harm needs the later record. Not established here.

CORROBORATING RECORDS

CORROBORATING RECORDS

NSW Ombudsman email of 19 August 2026 about a complaint concerning NSW Trustee and Guardian and veterinary invoices. NCAT cover letter of 18 March 2026 is a different guardianship file and is not treated as this financial-management order.

EVIDENCE CLASSIFICATION

A for the certificate's statements.

VERIFICATION STATUS

Inspected 11 October 2026. 2 pages extracted.

OFFICIAL STATUS AND PROVENANCE

Not a finding on the conduct of the named people. Not a criminal charge or clearance.

SUBSTANTIVE CONTENTS

Concerns complaints about Mercy Hospital, the Victims of Crime Assistance Tribunal and Ben Calder, and Constable Lachey Musket. IBAC determined not to investigate or refer the complaints. The letter says complaints were assessed as not public interest complaints, while Part 6 protections are said still to apply. It acknowledges delay caused by multiple overlapping complaints.

SIGNIFICANCE

Records IBAC's decision on a later, named set of complaints, including a named police officer.

POTENTIAL DETRIMENT OR CONSEQUENCES

No investigation is the recorded result. The letter does not award or refuse VOCAT assistance; that would be a VOCAT record.

CAUSAL QUALIFICATION

Non-investigation is express. Further harm said to flow from it is not established here.

CORROBORATING RECORDS

IBAC letter 9 April 2020. A separate VOCAT/Ombudsman file of 5 October 2022 was opened but its text did not yield a usable extract in one of the copies; see that entry.

EVIDENCE CLASSIFICATION

A for the decision not to investigate.

VERIFICATION STATUS

Inspected 11 October 2026. 2 pages. The PDF contains a visible “Error! Unknown document property name.” field at the top.

OFFICIAL STATUS AND PROVENANCE

Not a finding that no disclosable conduct occurred anywhere. Not a service ban.

SUBSTANTIVE CONTENTS

States the Office is not an authorised internal recipient under s 34 because the officer is not satisfied there are reasonable grounds to believe it would be appropriate for the Office to investigate. Also states it was not clear which Commonwealth agency or disclosable conduct was alleged, and there do not appear to be reasonable grounds to believe the information tends to show disclosable conduct. A written reconsideration could be requested within seven days.

SIGNIFICANCE

A clear allocation refusal, with reasons, by the agency that oversights the PID Act.

POTENTIAL DETRIMENT OR CONSEQUENCES

The disclosure is not progressed by that Office as an internal PID. Other detriment is not established.

CAUSAL QUALIFICATION

The stated reasons are the recipient and the clarity of the disclosure. A wider causal story is not in the letter.

OFFICIAL STATUS AND PROVENANCE

Does not decide that treatment was wrongly refused. Does not state an account balance. “Very limited funds” is what the Ombudsman says NSW Trustee and Guardian conveyed.

SUBSTANTIVE CONTENTS

Addressed to Barran Dodger. Records a complaint about NSW Trustee and Guardian and access to treatment for a dog. Says NSW Trustee and Guardian asked that the vet send an invoice, and that on 7 August 2026 no invoice had been received. Says that on receipt of an invoice they would assess and might ask about a payment plan because of very limited funds in the account. Suggests help from support workers to obtain the invoice. States the complaint will now be closed.

SIGNIFICANCE

Connects the trusteeship to a practical request for a veterinary invoice and closes the Ombudsman complaint on that basis.

POTENTIAL DETRIMENT OR CONSEQUENCES

The complaint is closed without the Ombudsman ordering treatment. Whether the dog was treated is not established.

CAUSAL QUALIFICATION

The closure follows the invoice request. It does not find that the Trustee caused harm.

CORROBORATING RECORDS

NSW Trustee s 122 certificate.

EVIDENCE CLASSIFICATION

A for the email’s account of what NSW Trustee and Guardian told the Ombudsman. The underlying financial position is B only as a report of what the Trustee told the Ombudsman, not as an inspected account statement.

OFFICIAL STATUS AND PROVENANCE

This is not a court judgment, a judicial finding, or a determination of liability. The sentence about Department of Social Services employment is expressly “on the information you have provided me.” It is not an independent employment investigation and it is not a finding under the Safety, Rehabilitation and Compensation Act 1988 (Cth). The later sentence that he is not satisfied the disclosure “was made by a public official or provided to an authorised recipient” sits in the same letter. The two statements are not the same legal conclusion and are not collapsed here. The assumption that conduct is disclosable is made for the initial assessment. It is not a finding that the conduct occurred. A second file, “2023 03 27

Final Assessment - Dr Rich McLean 86.pdf", has a different SHA-256 but the same letter wording on the pages read. It is a second copy, not a second decision.

SUBSTANTIVE CONTENTS

Three-page letter on Federal Court Principal Registry letterhead, Harry Gibbs Commonwealth Law Courts, Brisbane, addressed to Dr Rich McLean at richarddrawstuff@gmail.com. Tredwell states he is an officer engaged under the Public Service Act 1999 (Cth), authorised by the Court's Chief Executive Officer and Principal Registrar to carry out authorised-officer functions under the PID Act. He records that on 7 March 2023 an email to Sia Lagos asked that struggles, oppression, victimisation and detriments "in psychological, financial, reputation and other ways" be acknowledged and compensated. On the information provided to him, he writes: "I am satisfied that you are, or were, an employee with the Department of Social Services, providing services under the trading name Rich McLean, Arts Life Coach, Peer-Support Worker & Mental Health Advocate." He also writes that he is satisfied the conduct disclosed "does not relate in any way to the Federal Court, FCFCOA or the NNTT," and that he is not satisfied the disclosure was provided to an authorised recipient. He is satisfied that Dr McLean believes the information tends to show conduct within PID Act s 29 items concerning perverting the course of justice, maladministration, and danger to health or safety, and says it is difficult to determine whether that belief is on reasonable grounds. For the initial assessment he is "prepared to assume" the conduct is disclosable conduct. The decision paragraph states he is not satisfied the disclosure "was made by a public official or provided to an authorised recipient," so there is no reasonable basis to decide it is an internal disclosure (s 43(2)), and he decides not to allocate it. No further PID Act action will be taken by the Federal Court or FCFCOA on that material. Other agencies' own PID matters are expressly unaffected. The letter is signed "Scott Tredwell, General Counsel."

SIGNIFICANCE

It is a direct official assessment of whether material sent to the Federal Court would be allocated under the PID Act, and it is the record that discusses the Department of Social Services employment question in the author's later correspondence. It matters because later argument treats it as confirmation of employment or of protected-disclosure status. The letter itself does not allocate a disclosure and does not decide a compensation claim.

POTENTIAL DETRIMENT OR CONSEQUENCES

The letter records the author's request that psychological, financial, reputation and

other detriments be acknowledged and compensated. That is the author's reported experience, as summarised by the officer. The decision not to allocate means the Federal Court and FCFCOA will take no further PID Act action on this disclosure. Any broader financial, service or employment consequence is not established by this letter alone.

CAUSAL QUALIFICATION

Expressly recorded: no further PID Act action by the Federal Court or FCFCOA on this disclosure. The author's account of detriment is recorded as what he asked to have acknowledged. A causal claim that the non-allocation itself produced a later loss of income, support or employment is not established by this letter.

CORROBORATING RECORDS

EVIDENCE CLASSIFICATION

A for the wording of the letter on the pages read. The DSS employment sentence is A as a statement the letter makes, and is qualified by the letter's own words "on the information you have provided me." It is not A as an independent finding of a contract of employment. Claims that the letter is a court judgment, or that it establishes SRC Act employment, are not supported (not A).

OFFICIAL STATUS AND PROVENANCE

Does not itself allocate or refuse the underlying disclosure. The “no further acknowledgement” sentence is about future correspondence on this complaint, as written. It is not, on this email alone, a general ban on all contact with the NDIA.

SUBSTANTIVE CONTENTS

Apologises that an allocation decision was not made within 14 days. Says extra time was needed to review a significant number of documents. Says future correspondence on the matter will be read and filed without acknowledgement or response. Directs dissatisfaction to the Commonwealth Ombudsman.

SIGNIFICANCE

Records an official apology for missing the 14-day allocation endeavour, and a statement that further mail on that matter would not be answered.

POTENTIAL DETRIMENT OR CONSEQUENCES

Delay is acknowledged by the agency. The filing-without-response statement is a procedural restriction on that correspondence stream. Wider service loss is not established by the email.

CAUSAL QUALIFICATION

The delay is expressly explained as time taken to review documents. The email does not accept that the delay caused a named later harm.

CORROBORATING RECORDS

Commonwealth Ombudsman PID letter 16 September 2022; Tredwell letter.

EVIDENCE CLASSIFICATION

A for the apology, the missed timeframe, and the future-correspondence sentence.

OFFICIAL STATUS AND PROVENANCE

A decision not to investigate is not a finding that the events described did not happen. It is not a finding of corruption.

SUBSTANTIVE CONTENTS

Addressed to Mr Richard Mclean. Complaint against Victoria Police and AHPRA. IBAC determined the complaint should not be treated as a public interest complaint. IBAC decided not to investigate or refer it, under s 67 of the IBAC Act. The letter says the information does not show or tend to show the public officer engaged in improper conduct or detrimental action, citing the PID Act provisions named in the letter. AHPRA is said not to be a public body under s 6 of the IBAC Act, so that allegation is outside jurisdiction. Part 6 PID Act protections are said still to apply. Support services are listed.

SIGNIFICANCE

An early oversight outcome on a police and AHPRA complaint, with reasons for not investigating.

POTENTIAL DETRIMENT OR CONSEQUENCES

No IBAC investigation is the recorded outcome. Personal harm is acknowledged as a welfare concern in the letter, not adjudicated.

CAUSAL QUALIFICATION

The non-investigation is expressly decided. A claim that the non-investigation caused a later injury is not established by the letter.

CORROBORATING RECORDS

Later IBAC letter 12 April 2022, CASE-20213522 and CASE-20215102.

EVIDENCE CLASSIFICATION

A for the decision not to investigate and the jurisdictional statement about AHPRA.

OFFICIAL STATUS AND PROVENANCE

Grant of access to five departmental documents is not a finding about their contents

Grant of access to five departmental documents is not a finding about their contents. Those contents were not read as part of this entry. The schedule was not fully text-extracted. This does not establish what every other agency holds.

SUBSTANTIVE CONTENTS

The letter records the original refusal notification of 14 April 2022 under s 24A(1)(b). It records that on 11 April 2023 the Department told the OAIC it had found some material that might relate to the applicant but was not satisfied of a positive match. On 15 August 2024 the OAIC provided residential addresses in New South Wales (2009) and Victoria (2012). The revised decision: the Department holds five documents that meet the request; access is granted in full, with irrelevant material deleted under s 22(1)(a)(ii), including non-SES contact details, signatures, and parts that do not relate to the applicant, including extracts of media reports about other topics. A revised decision does not automatically end the IC review.

SIGNIFICANCE

It changes the earlier “documents do not exist” refusal and identifies five departmental documents as within scope.

POTENTIAL DETRIMENT OR CONSEQUENCES

The original refusal delayed access. The revised decision grants access with deletions. No further detriment is calculated.

CAUSAL QUALIFICATION

The change of decision is expressly tied to additional identifying information from the OAIC. Other consequences are not established.

CORROBORATING RECORDS

FOI-2022-045-Decision.pdf. A documents-release PDF exists (FOI-2022-045IC-Documents-for-release.pdf) and was not text-inspected because of size.

OFFICIAL STATUS AND PROVENANCE

Does not establish that no agency in Australia held any record. The letter itself says the Department does not hold other agencies' records. The refusal was later revised.

SUBSTANTIVE CONTENTS

Request by Dr Richard McLean, treated as a request for information about him in documents held by the Department, not by all government agencies. The opening states a decision to refuse the request. The revised decision later describes that refusal as made under paragraph 24A(1)(b), on the basis that reasonable steps had been taken and the documents did not exist. The full refusal reasons in this two-page file were not re-quoted beyond the opening.

SIGNIFICANCE

It is the original refusal later varied under s 55G.

POTENTIAL DETRIMENT OR CONSEQUENCES

Access was refused at this stage. What documents were later released is the subject of the revised decision and the schedule, which were not fully read.

CAUSAL QUALIFICATION

The refusal is express. Consequences beyond refusal of access are not established.

CORROBORATING RECORDS

2025-10-01_FOI_2022_045IC_Revised_Decision.pdf; schedule file 2025-10-01_FOI_2022_045IC_Schedule.pdf (text of the schedule was sparse on extraction).

EVIDENCE CLASSIFICATION

A that a refusal decision by Petra Gartmann exists in this file. The precise statutory paragraph is taken from the later revised decision's description of the 14 April 2022 notification, which is A as what that later letter says.

VERIFICATION STATUS

Inspected 11 October 2026. 2 pages extracted; decision paragraph begins in the extract.

OFFICIAL STATUS AND PROVENANCE

This is a tribunal decision, not a Federal Court judgment. It does not decide the PID Act allocation question in the 27 March 2023 Tredwell letter. The employment test recorded in the catchwords is the SRC Act test. It is not the same sentence as Tredwell's statement, made on information provided to him, that Dr McLean was or had been a Department of Social Services employee for PID Act purposes. The full reasoning beyond the opening pages was not line-read in this review.

SUBSTANTIVE CONTENTS

The first page states: "The Tribunal affirms the decision the subject of review," signed Senior Member C. J. Furnell, 12 July 2023, Melbourne, file 2021/7478, Re Richard McLean and Comcare. The catchwords, on the pages read, describe a compensation claim for psychological injury (depression and anxiety state) under the Safety, Rehabilitation and Compensation Act 1988 (Cth), and state that it was held the applicant was not an employee of the Commonwealth, a Commonwealth authority, or a corporation licensed under that Act as a self-insurer, where the applicant was a registered NDIS provider, and that the reviewable decision was affirmed. Only the opening pages were read in full for this entry. The reasons continue for 21 pages.

SIGNIFICANCE

It is a formal decision on the compensation claim Comcare had declined, and it is the clearest official record in this set on the SRC Act employment question. It sits beside, and does not erase, the different PID Act letter of 27 March 2023.

POTENTIAL DETRIMENT OR CONSEQUENCES

The operative result on page 1 is that the decision under review was affirmed, so the compensation decision was not changed. Financial consequences of that affirmation are not calculated in the pages read.

CAUSAL QUALIFICATION

Expressly recorded: the reviewable decision is affirmed. A further claim that affirmation caused a particular later loss is not established by the orders page.

CORROBORATING RECORDS

Covering letter of the same date, ART-2021-7478-McLean-and-Comcare-Decision-

12-July-2023.pdf, which says the Tribunal affirmed the decision under review under s 43 of the AAT Act. Comcare determination 26 May 2021, claim 1326583/1.

EVIDENCE CLASSIFICATION

A for the order and the catchwords on the pages read. Propositions that depend on later paragraphs of the 21-page reasons are not established by this entry.

VERIFICATION STATUS

Inspected 11 October 2026. Opening three pages extracted of 21. SHA-256 computed.

OFFICIAL STATUS AND PROVENANCE

Not the reasons for decision. Not a Federal Court appeal outcome. No appeal result is established by this letter.

SUBSTANTIVE CONTENTS

The letter tells Richard William McLean that a decision has been made under s 43 of the AAT Act and that “We have affirmed the decision we were asked to review, which means that it has not been changed.” It explains a possible Federal Court appeal, time limits, fees, and the risk of a costs order if an appeal is unsuccessful. It is a covering letter, not the reasons.

SIGNIFICANCE

Confirms, in correspondence, the outcome separately recorded in the decision.

POTENTIAL DETRIMENT OR CONSEQUENCES

Records that the reviewed decision was not changed, and warns that an unsuccessful Federal Court appeal may carry fees and costs. Whether an appeal was filed is not established here.

CAUSAL QUALIFICATION

The non-alteration of the reviewed decision is expressly recorded. Later costs are described as a risk, not as an event that had occurred.

OFFICIAL STATUS AND PROVENANCE

Not an official reply. Not a court finding. A byte-identical copy is at imports/official-2026-10-01/2024-01-08-federal-court-superannuation-ndis-ceo.pdf.

SUBSTANTIVE CONTENTS

Opens “Dear Scott treadwell.” It quotes the 27 March 2023 letter, including the DSS employment sentence and the sentence about belief in disclosable conduct, and says the PID was rejected and that none of the acknowledgement or compensation sought had happened. It argues from those quotations that the author is an employee of DSS and therefore a public official with access to superannuation. Those are the author’s submissions. They are not a further decision by Tredwell.

SIGNIFICANCE

Shows how the 27 March 2023 letter was later used by the author. Useful context. Not an official determination.

POTENTIAL DETRIMENT OR CONSEQUENCES

The author’s statement that acknowledgement and compensation did not happen is his report. Not independently established by this file.

CAUSAL QUALIFICATION

Author’s argument. Class C as to the claimed consequences.

CORROBORATING RECORDS

The Tredwell letter itself.

EVIDENCE CLASSIFICATION

A that this is the author’s letter and that it quotes the earlier letter. C for the consequences the author asserts.

VERIFICATION STATUS

Limitations

- Text was taken from the first pages of each opened PDF, up to three pages, except where a hand entry says the whole short letter was read. Longer reasons were not line-read.

- Image-only scans produced no text. Encrypted PDFs were not decrypted. One Federal Court FOI file (docs/official-drive/2023-04-26-Federal-Court-FOI-response.pdf) could not be read because the parser required cryptography for an AES algorithm.
- Several files in the official-drive folder open with an archive cover ("Barran Dodger Legal & Ethical Trust Fund" and an AI statement). Those openings are not treated as the agency's letter.
- Files of 4 bytes, including some filenames that sound like correspondence, are empty placeholders. Their contents do not exist in the file.
- Duplicate hashes were collapsed. Near-duplicate scans with different hashes, notably the two 27 March 2023 Tredwell files, are separate entries and are cross-referenced.
- No statement in this register is exhaustive of the repository, of Google Drive, or of any agency's holdings.
- Branches other than `main` of wezzo72/Barrandodger were listed (codex/recreate-barrandodger, new-site) and were not separately audited.
- The further pass of 11 October 2026 opened 418 candidate PDFs and registered 270 that were not byte-identical to an existing entry. It did not open every one of the 3,650 PDFs. Text is from the opening pages only.

Questions this review leaves open

- How the 27 March 2023 sentence about Department of Social Services employment, expressly based on information provided by the correspondent, is to be read next to the same letter's conclusion that the officer was not satisfied the disclosure was made by a public official.
- How that PID Act letter relates, if at all, to the AAT's 12 July 2023 SRC Act holding. They are different decisions under different Acts.
- The operative NCAT guardianship orders of 9 October 2025, which are in the reasons PDF but were not transcribed here.
- The contents of the five PM&C documents released under the revised FOI decision. The release bundle was located and not text-inspected.
- Whether image-only files, including the Commonwealth Ombudsman service-restriction PDFs, contain a restriction decision. The text layer does not say so.

The keeper of this archive, Dr Richard William McLean, publicly known as Dr Barran Dodger, has placed this video here by reference to his case: a public video of that date which speaks, in general terms, of a whistleblower, of evidence, and of false accusation. The description published with the video does not name Dr McLean, Barran Dodger, the NDIS, or a file number. The publication date is not the date of an agency decision.
