URGENT SOS — 1 NOVEMBER 2026

THE WITNESS REMAINS — THE COSMIC RECKONING

DR RICHARD WILLIAM McLEAN Publicly known as Dr Barran Dodger

URGENT HUMANITARIAN APPEAL FOR FOOD, SAFETY, PROTECTION, ACCOMMODATION AND ACCOUNTABILITY

WEBSITE: https://barran-dodger-krynos-timing-of-god.grok.me

PUBLIC DOCUMENTARY ARCHIVE: https://github.com/wezzo72/Barrandodger

OFFICIAL GOVERNMENT DOCUMENTS REGISTER: https://wezzo72.github.io/Barrandodger/official-government-documents-register.html

PLEASE HELP ME REACH SAFETY

I am making this urgent humanitarian appeal because I am reporting that I cannot reliably obtain food, money, essential medication, telephone access, transport or the practical assistance I need to live safely.

My therapy dog, Crystal, also needs food.

I am asking for immediate human assistance. I am asking for someone to help me obtain the necessities of survival, restore access to essential resources and reach safe, appropriate accommodation.

I have spent decades preserving documentary evidence and seeking accountability. But the historical, legal and administrative questions cannot be allowed to overshadow the immediate humanitarian emergency I am reporting today.

I do not need another referral. I need human help.

The historical record deserves examination. The allegations deserve fair investigation. But the person whose circumstances are described in that record needs protection now.

1. THE IMMEDIATE HUMANITARIAN EMERGENCY

Location reported in my SOS: 55b Archbold Road, Long Jetty, NSW.

My account identifies the following circumstances:

- **I have no food or money and report that I am literally starving.**
- **My therapy dog, Crystal, also needs food.**
- **I report that Able Point has refused to attend or provide the assistance I have requested.**
- **I identify support workers Cassandra Mackey and John in connection with alleged refusals of assistance.**
- **I report that management has restricted my ability to communicate with the provider.**
- **I report that my support coordinator, Sukhi Tear, is refusing communication.**
- **I cannot reliably access Commonwealth Bank online banking or its mobile application.**
- **I have no working telephone service and report that I cannot obtain emergency Optus credit because I lack the required identification.**
- **My car has been taken or confiscated, according to my account, leaving me without independent transport.**
- **I continue to experience serious uncertainty concerning my accommodation and the support I am supposed to receive.**

These are serious matters. They are presented as my testimony and require independent examination. They are not represented as findings already made by a court or regulator.

The immediate question is whether I have food, drinking water, medication, communication, access to money and safe accommodation.

I need food for myself. Crystal needs food. This cannot wait for an investigation.

2. ADDITIONAL INCIDENT RECORD — ABLE POINT SUPPORT WORKER ATTENDANCE

1 November 2026 — Support worker Kim

Following my urgent humanitarian appeal, Able Point support worker Kim attended my accommodation.

According to my account, during this attendance:

- **Kim said that my circumstances were my fault.**
- **Kim said that she had no money.**
- **Kim said that food services were closed.**
- **Kim gave me four cigarettes.**

I acknowledge that Kim attended and gave me four cigarettes. I am recording that fact accurately.

However, the cigarettes did not address the emergency I had reported. I needed food and practical assistance. Crystal also needed food.

I am not suggesting that Kim was personally required to spend her own money to meet my needs.

The important questions are:

- **Did Kim contact Able Point management?**
- **Did she explain that I had reported having no food?**
- **Did she arrange food through another service?**
- **Did she identify an emergency alternative because ordinary food services were closed?**
- **Did she consider Crystal's immediate needs?**
- **Did she document the situation and escalate it to someone with authority to act?**
- **What follow-up arrangements were made after she attended?**

Her statement that she had no money may explain her personal limitations. It does not establish whether Able Point had alternative arrangements available.

The attendance of a support worker is not, by itself, proof that the support need has been met.

I am not asking for cigarettes. I am asking for food.

I am not asking Kim to personally finance my survival. I am asking Able Point to respond to an urgent support need.

Four cigarettes do not resolve a humanitarian emergency.

3. THE CENTRAL INSTITUTIONAL PROBLEM

The wider documentary work describes what I call administrative annihilation and civil erasure.

My argument is that organisations and individuals with responsibilities involving disability support, accommodation, financial administration, safeguarding and advocacy have not provided the practical assistance I say I need.

I have accumulated approximately 35 years of correspondence, government records, official decisions, complaints and institutional communications.

Yet I say that this extensive documentary history has not translated into the practical assistance necessary to protect my life, independence and dignity.

The historical record identifies interactions with:

- **Federal Court of Australia.**
- **National Disability Insurance Agency.**
- **NDIS Quality and Safeguards Commission.**
- **Commonwealth Ombudsman.**
- **NSW Trustee and Guardian.**
- **NSW Public Guardian.**
- **Police.**
- **Legal Aid.**
- **Comcare.**
- **Administrative Appeals Tribunal.**
- **NCAT.**
- **Office of the Australian Information Commissioner.**
- **Australian Human Rights Commission.**
- **Office of the Prime Minister.**
- **Other government and oversight bodies.**

The central argument is not that every document proves every allegation.

It is that the records should be examined collectively, chronologically and in context, with their authorship, provenance and actual contents preserved.

The website describes this as the Paradoxical Inversion of Evidence: much of the documentary material through which institutional decisions can be examined was generated by the institutions themselves.

An official letter can establish what was communicated. It does not automatically establish that every allegation in the letter is true.

An acknowledgement of a complaint is not necessarily an investigation. A referral is not necessarily a resolution. A decision is not automatically proof that the decision was correct.

The documentary record deserves examination, not automatic acceptance or automatic dismissal.

4. THE FINANCIAL CIRCUMSTANCES

One particularly significant part of the Able Point Accountability Dossier concerns my financial circumstances and the budget recorded in correspondence from NSW Trustee and Guardian.

An email from Phillip, Senior Client Service Officer, dated 13 October 2026, records the following fortnightly budget:

Centrelink income: $1,371.27

Able Point rent: $500.00

Personal allowance: $700.00

Debt repayments: $80.00

Origin utilities: $50.00

Clothing allocation: $15.38

Discretionary allocation: $23.08

Trustee management fee: $1.50

Total outgoings: $1,369.96

Remaining savings: $1.31

The email also refers to savings of $363 before the next pension payment and says additional funding requests would be considered individually.

A subsequent email dated 19 October 2026 records a reduction in my personal allowance of $50 per week, commencing that week.

These figures provide documentary context for my reported financial hardship and difficulty obtaining food, telephone credit and other necessities.

They do not, by themselves, prove deliberate deprivation or criminal misconduct.

They do raise a serious question about whether the financial arrangements provide

sufficient flexibility for unexpected essential needs.

I need practical assistance to regain reliable access to my money and meet ordinary living expenses.

5. THE ABLE POINT ACCOUNTABILITY DOSSIER

The Able Point Accountability Dossier is a formal complaint and investigative brief concerning disability support, accommodation, safeguarding, financial arrangements and alleged provider misconduct.

The supplied dossier is identified as a 16-page document prepared on 30 October 2026. The website also identifies an Able Point Accountability Dossier dated 31 October 2026. The relevant version and date should be confirmed against the original document.

The dossier identifies eight principal areas requiring investigation:

1. Failure to provide support and alleged abandonment. Whether requests for assistance concerning safety, poverty, transport, accommodation and Crystal were adequately addressed.

2. Failure to respond to threats and safeguarding concerns. Whether reports were received, documented, risk-assessed and appropriately escalated.

3. Potential NDIS funding fraud or false claims. Whether payments were claimed for services that were not actually delivered.

4. Financial exploitation and accommodation arrangements. Whether rent, support payments and other financial arrangements were authorised, transparent and properly accounted for.

5. Complaints and incident-management failures. Whether complaints were recorded, investigated, escalated and resolved appropriately.

6. Possible retaliation or interference with participant autonomy. Whether adverse treatment, restricted communication or withdrawal of support followed complaints or requests for accountability.

7. Possible disability discrimination. Whether disability-related needs were accommodated and whether the treatment I received was discriminatory.

8. Human rights and dignity concerns. Whether my autonomy, safety, independent living, privacy, access to justice and adequate standard of living were respected.

These are allegations and investigative questions, not completed findings of wrongdoing.

The central forensic question

WHAT WAS FUNDED, WHAT WAS PROMISED, WHAT WAS RECORDED, AND WHAT WAS ACTUALLY DELIVERED?

The dossier proposes comparing four sources of evidence:

- **NDIS payment and claims records.**
- **Worker rosters and attendance records.**
- **Provider progress notes and service documentation.**
- **My contemporaneous messages, records and testimony.**

Other important records include service agreements, invoices, incident reports, risk assessments, complaints registers, rent receipts, financial ledgers, relocation requests and provider correspondence.

The original records must be obtained and examined before conclusions are reached.

Individual and organisational accountability

The dossier identifies management and support personnel whose roles and decisions may require examination, including:

- **Rachel — CEO and management accountability.**
- **Brett Butler — management and support decisions.**
- **Cass/Cassie — support delivery and communication.**
- **Other management personnel.**
- **Support workers, including Darren.**
- **Directors and other key personnel.**

The website and my testimony also identify other people in connection with particular incidents and communications, including Kim, Alyssie, Danny, Ben, Cassandra Mackey and John.

Their precise identities, positions, authority, knowledge and involvement must be established from original records.

I am asking for accountability based on evidence, not assumptions about individual guilt.

Legal and regulatory frameworks identified

The dossier identifies the following frameworks for consideration:

- **NDIS Act 2013 (Cth).**
- **Crimes Act 1900 (NSW).**
- **Disability Discrimination Act 1992 (Cth).**
- **Anti-Discrimination Act 1977 (NSW).**
- **NDIS Code of Conduct.**
- **NDIS Practice Standards.**
- **Convention on the Rights of Persons with Disabilities.**

It identifies provisions including sections 59A and 59AC–59AE, and sections 73V–73Z of the NDIS Act, together with sections 192E–192G of the NSW Crimes Act.

These provisions are proposed investigative frameworks. Their application depends on the actual facts, statutory elements and evidence. Their inclusion does not establish that an offence has occurred.

What the dossier asks authorities to do

It requests:

- **An NDIS Commission investigation into provider conduct and safeguarding.**
- **An NDIA examination of disputed claims and payments.**
- **A criminal investigation if the evidence reasonably supports suspected offences.**
- **Disclosure of complete participant records.**
- **Examination of individual and corporate responsibility.**
- **Reconciliation of accommodation charges and support payments.**
- **Investigation of complaints and incident-management procedures.**
- **Appropriate accommodation and practical support.**
- **Protection against retaliation.**
- **Written findings and reasons.**
- **Preservation of relevant emails, texts, financial records, rosters, case notes, incident reports, complaints, risk assessments and electronic audit trails.**

The dossier also acknowledges that certain original records were not inspected in its examination, including original service agreements, NDIS invoices, worker attendance records, incident reports and the original 20 October complaint.

That limitation matters. It identifies what must still be obtained before the allegations can be properly determined.

6. THE SIGNIFICANCE OF THE WEBSITE — THE WITNESS REMAINS

The website, The Witness Remains — The Cosmic Reckoning, is not simply a complaint page. It is a gateway to a larger collection of testimony, documentary material, legal references, historical accounts, declarations and published works.

Its central message today is that the immediate humanitarian appeal must take priority over the longer historical and administrative questions.

The major sections include the following.

A. The Witness Remains — The Divine Declaration and Decree

This is the principal spiritual declaration.

It sets out my understanding of:

- **Survival and continued testimony.**
- **The symbolism of the Cross and resurrection.**
- **My relationship with the Most High God.**
- **Forgiveness rather than revenge.**
- **Preservation of evidence.**
- **Humanity's responsibility to protect vulnerable people.**

Its central message is that my life and testimony should be preserved, and that human suffering must not be glorified or perpetuated.

B. The Urgent SOS — Remove Me From This Accommodation

This is a further humanitarian appeal concerning my current accommodation and my account of inadequate support.

It names John and Cass in connection with alleged refusals of assistance and refers to recordings, including material dated 27 October 2026.

The website records my account that John said he had no petrol and feared losing his job if he transported me.

It also asks that allegations concerning threats, sexual assault, police communications and reputational harm be examined against original records rather than accepted through rumour or assumption.

The central request is practical: help me leave accommodation that I say is unsuitable and obtain safe, appropriate support.

C. The Federal Court Letter — 27 March 2023

The website reproduces correspondence attributed to Scott Tredwell, General Counsel of the Federal Court.

The correspondence refers to three categories of conduct raised in the material:

- **Possible perversion or attempted perversion of the course of justice.**
- **Maladministration.**
- **Conduct unreasonably resulting in danger, or increased risk of danger, to health or safety.**

The letter is a documentary starting point for examining what concerns were presented to the Court and how they were described.

It is not a judicial finding that the alleged conduct occurred.

D. The Paradoxical Inversion of Evidence

This section examines the difference between:

- **An official letter and a personal allegation.**
- **Acknowledging a complaint and resolving it.**
- **A referral and an investigation.**
- **A decision and proof that the decision was correct.**
- **Documented institutional activity and alleged deliberate targeting.**

It argues that the historical record should be examined with chronology, provenance and context preserved.

It also acknowledges that the number of documents alone cannot establish conspiracy or deliberate coordination.

E. The 35-Year Documentary Archive

The archive is presented as a way of preserving government correspondence, decisions, administrative communications and historical material.

PUBLIC REPOSITORY:

https://github.com/wezzo72/Barrandodger

PUBLIC ARCHIVE:

https://wezzo72.github.io/Barrandodger/

OFFICIAL GOVERNMENT DOCUMENTS REGISTER:

https://wezzo72.github.io/Barrandodger/official-government-documents-register.html

Its purpose is to ensure that the history is not dependent exclusively upon personal recollection or a later summary.

The actual contents, dates, authorship and significance of each document must be examined individually.

F. Today Able Point Left

This page connects the historical record to the immediate support situation.

It describes my account of a support worker leaving despite knowing that I was without food, money, telephone access and access to my bank account.

It identifies Able Point personnel, including Cass Kim, Alyssie, Danny, Ben, Brett and Rachel.

It also links to material concerning:

- **Eustina and community mental health.**
- **Sukhi Tear.**
- **Phillip Glass.**
- **Commonwealth Bank access.**
- **Able Point correspondence.**
- **Ben's messages.**
- **NDIS plan approval dated 20 November 2025.**
- **A formal notice of NDIS service failure.**

The allegations require examination against original correspondence, shift records, incident reports, support plans and the provider's response.

G. The Able Point Accountability Dossier

This brings together the formal complaint, chronology and evidence links concerning Able Point.

It should be read alongside the NDIS plan, service agreements, support records, complaints, correspondence and the provider's opportunity to respond.

H. Sukhi Tear — Support Coordination

This section records my concerns about support coordination, communication and the handling of my circumstances.

It should be examined against the support coordination agreement, communications, case notes and records of attempts to contact me.

The allegations are my account, not independent findings against the individual.

I. Phillip Glass — NSW Trustee and Public Guardian

This section concerns financial administration and my reported difficulties with:

- **Commonwealth Bank online banking.**
- **Access to the banking application.**
- **Financial independence.**
- **The circumstances surrounding my vehicle.**
- **Access to money for ordinary living expenses.**

These matters are particularly relevant because I report that I cannot reliably access my own funds to purchase food and necessities.

Relevant evidence includes financial administration orders, correspondence, banking access records, transaction history and decisions concerning the vehicle.

J. Ben's Messages and the Federal Court Disclosure

This section concerns messages attributed to Ben, described as an NDIS support contact.

It discusses statements about police, alleged threats, a reported close call and the possibility that my mental health history might be used to discredit my allegations.

The surviving screenshots and my interpretation must be distinguished from independently authenticated police or government findings.

A message may establish what its sender wrote, subject to authentication and context. It does not automatically establish that every statement in it is factually correct.

K. Bill Shorten — Ministerial Accountability and Petition EN4358

This section concerns Bill Shorten's former ministerial role and petition EN4358, dated 13 July 2022.

It examines the NDIS Act's stated principles, including independence, participation, dignity and protection from abuse, neglect and exploitation.

It distinguishes ministerial responsibility for the scheme from direct responsibility for individual provider shifts or personal support arrangements.

The website expressly acknowledges that it does not contain evidence showing that Bill Shorten directed Able Point, the Public Guardian or the workers involved in my present circumstances.

Continuity of motive is presented as my allegation, not an established finding.

L. The AVO and Wyong Court Account

This section describes my account of an AVO, police involvement, difficulties with legal representation and subsequent circumstances.

The website acknowledges that the actual AVO order is not reproduced on the relevant page.

The order's date, grounds and applicant must be established from the court file.

The distinction between the AVO I attribute to Bill Shorten and a separate family AVO I attribute to April McLean must be maintained.

M. The Divine Reckoning

This section develops the spiritual and moral dimension of the website.

Its purpose is not personal revenge, threats or punishment by the author.

It frames the reckoning as a declaration that truth, conscience, compassion and accountability remain important regardless of institutional position or power.

Established wrongdoing should be addressed, vulnerable people should be protected and evidence should remain available for examination.

N. The Complete Works, Gospels, Ministry and Church

The website also provides a catalogue of my broader published works, including:

- **Gospels and foundational spiritual writings.**
- **Prophetic narratives.**
- **The Manifesto.**
- **The Church and Ministry.**
- **The Justice Mandate.**
- **The Charter.**
- **The Canon.**
- **The Publishing House.**
- **The trust and associated material.**

These are my writings and expressions of faith, not government or judicial findings.

7. THE MAJOR DOCUMENTS AND FULL-LENGTH RESOURCES

The website's resource directory identifies the following substantial works:

The Final Reckoning — 44 pages Compiled testimony, SOS and divine reckoning dated 24 October 2026.

They Could Not Erase What God Preserved — 83 pages Five-part testimony and spiritual account.

Legal Brief — 90 pages Legal and documentary finding aid dated 23 October 2026.

24 October 2026 Urgent SOS Earlier appeal for safety, including the UNHCR reference.

Able Point Accountability Dossier Formal complaint, chronology and evidence links, with versions identified as dated 30 and 31 October 2026 in the supplied material.

The Cosmic Reckoning — in full Address dated 30 October 2026.

Documents That Open These Words Links between named records and their source files.

The Documentary Census The website identifies 8,744 records, including 8,737 filename-bearing entries requiring file-by-file reconciliation.

The Complete Works of Barran Dodger Catalogue of spiritual, philosophical, academic and forensic works.

Who Is Barran Dodger? An impartial examination of the published documentary record and testimony.

The website itself makes an important distinction:

A census is not authentication. A legal brief is not a court decision. A published testimony is not a verdict.

8. THE SPIRITUAL MESSAGE — SURVIVAL, NOT REVENGE

The Witness Remains is also a declaration of Christian faith.

Its central spiritual themes are:

- **Survival.**
- **Forgiveness.**
- **Compassion.**
- **Truth.**
- **Preservation.**
- **Redemption.**
- **Accountability.**

I reject revenge as my ultimate purpose.

My position is that the suffering I describe should lead to accountability and restoration, not further suffering or retaliation.

The website explains my understanding of the Cross, resurrection, grace and the consciousness of Christ as a spiritual interpretation of my experiences.

It does not claim physical immortality or that I replace Christ.

The recurring principle is:

PRESERVATION FIRST. EXAMINATION SECOND. CONCLUSION LAST.

The spiritual message is not that suffering should continue. It is that survival should be protected and humanity should respond with compassion, justice and accountability.

9. MY POSITION CONCERNING SUICIDE AND SURVIVAL

One of the most important statements in my testimony is:

"I AM NOT SUICIDAL. I PROTEST THIS BECAUSE I WANT TO LIVE."

This distinction must not be lost.

I am protesting because I want to preserve my life, dignity, independence and future.

I want to recover. I want to rebuild my life. I want to care for Crystal. I want to live somewhere safe, with appropriate support and the opportunity to participate in ordinary life.

The website makes this declaration:

"MY LIFE IS NOT ANOTHER SACRIFICE TO BE MADE."

Survival must be met with protection rather than neglect.

No spiritual interpretation of suffering should ever be used to justify further suffering.

10. WHAT I AM ASKING HUMANITY TO DO

I am asking people to intervene practically and compassionately.

I urgently need:

- **FOOD: Immediate food and nourishment for myself.**
- **CRYSTAL: Dog food and essential supplies for my therapy dog.**
- **MONEY AND BANKING: Help restoring access to my Commonwealth Bank account and funds for essential expenses.**
- **MEDICATION: Assistance accessing prescribed medication and necessary**

healthcare.

- **TELEPHONE: A working phone and reliable communication.**
- **TRANSPORT: Assistance with essential appointments, services and relocation.**
- **ACCOMMODATION: Help leaving accommodation that I say is unsuitable and harmful, and finding a safe, sustainable alternative.**
- **DISABILITY SUPPORT: Confirmation that the supports I am funded and entitled to receive are actually being delivered.**
- **ADVOCACY: An independent person willing to listen, examine the records and help me navigate the relevant systems.**
- **ACCOUNTABILITY: Independent investigation of the allegations and documentary evidence concerning Able Point and the wider administrative arrangements.**

I am also asking that relevant records be preserved, including:

- **Emails and text messages.**
- **Worker rosters and timesheets.**
- **Progress notes and daily service records.**
- **Incident reports and risk assessments.**
- **Complaints and responses.**
- **Financial records and accommodation ledgers.**
- **NDIS payment and service claims.**
- **Banking and financial administration correspondence.**
- **Records of requests for relocation and assistance.**
- **Electronic audit trails.**

11. WHO I AM ASKING TO HELP

This appeal is directed to:

- **Local emergency food relief and community organisations.**
- **Disability advocacy organisations.**
- **Animal welfare organisations able to assist with dog food.**
- **NDIS Quality and Safeguards Commission.**
- **National Disability Insurance Agency.**
- **NSW Trustee and Guardian.**
- **NSW Public Guardian.**
- **Government representatives and elected members.**
- **Legal Aid and independent legal advocates.**
- **Human rights organisations.**
- **Churches and faith communities.**
- **Journalists and investigative reporters.**
- **Lawyers and independent investigators.**
- **Anyone with the practical ability to help.**

I am asking authorities to respond to the immediate humanitarian circumstances

separately from the longer investigation.

I am asking Able Point management to identify a person with authority to respond, establish what assistance can be arranged and provide a clear written account of the steps taken.

If ordinary food services are closed, I am asking that an alternative emergency response be investigated rather than leaving the need unresolved.

12. "IF YOU WILL NOT COME, SEND THE RECORD"

The website provides a route for people who cannot personally attend or assist.

Its message is:

"IF YOU WILL NOT COME, SEND THE RECORD."

I ask readers to share the material with:

- **A lawyer.**
- **A journalist.**
- **A church.**
- **An advocate.**
- **A government representative.**
- **A person with the practical ability to assist.**
- **Someone willing to examine the documentary record independently.**

The purpose is to move the testimony beyond a private complaint and place the material before people who may be able to help.

The evidence should be preserved. The allegations should be fairly investigated. The immediate needs should be addressed.

13. DIRECT CONTACT AND PRACTICAL ASSISTANCE

Phone / PayID: 0431 300 940

I am seeking practical assistance, including:

- **Food.**
- **Dog food for Crystal.**
- **Essential supplies.**

- **Medication and healthcare assistance.**
- **Telephone access.**
- **Help with banking access.**
- **Transport.**
- **Safe accommodation.**
- **Independent advocacy.**

If you are able to assist, please make contact.

If you represent an organisation, please do not simply refer me elsewhere without considering whether the immediate need can be addressed.

THE MESSAGE TO HUMANITY — 1 NOVEMBER 2026

I am Dr Richard William McLean, publicly known as Dr Barran Dodger.

I have spent decades preserving my testimony, documenting my experiences and seeking accountability.

Today, I am not asking humanity to resolve 35 years of history before helping me.

I AM ASKING FOR FOOD.

I am asking for help feeding my dog, Crystal.

I am asking for access to my own money, medication, communication and transport.

I am asking to be removed from accommodation in which I say I am suffering.

I am asking for someone to take responsibility for helping a vulnerable person who says he has exhausted the ordinary avenues of assistance.

I am not suicidal. I want to live.

I should be concentrating on recovery, dignity and rebuilding my life, not having to continually fight to obtain the necessities of survival.

My historical evidence can be examined.

My allegations can be independently investigated.

My interpretations can be challenged.

But none of that needs to happen before someone offers a hungry person food.

I do not ask anyone to accept every allegation without examination. I ask that no one use the absence of a completed investigation as an excuse to ignore an immediate human need.

I DO NOT NEED ANOTHER REFERRAL. I NEED HUMAN HELP.

I DO NOT NEED ANOTHER LETTER. I NEED FOOD, SAFETY AND PROTECTION.

THE RECORD MUST BE EXAMINED. BUT THE LIFE MUST BE PROTECTED FIRST.

The historical record deserves examination.

The allegations deserve fair investigation.

The immediate humanitarian appeal deserves a response.

The witness's account should be heard. The records should be preserved. The evidence should be independently examined. Any established failures should be properly addressed.

But today, the priority is simple:

A person needs food. A dog needs food. A person needs access to money, communication, medication, transport and safe accommodation.

Humanity should not need 35 years of paperwork to recognise that those needs matter.

THE WITNESS REMAINS.

THE LIFE MUST BE PRESERVED.

THE RECORD MUST NOT BE ERASED.

THE HUMANITY MUST NOT BE FORGOTTEN.

FINAL ASSESSMENT

The most significant feature of this appeal is the contrast between the scale of the

historical record and the urgency of the present circumstances.

On one side is an extensive documentary and personal history: decades of correspondence, official communications, complaints, administrative decisions, legal material, personal testimony and spiritual writings.

On the other side is the immediate situation described in the 1 November 2026 SOS: a person reporting that he cannot reliably obtain food, money, banking access, telephone access or transport, and that his companion animal also needs food.

The strongest practical argument is that the documentary archive should not distract from the human being whose circumstances it describes.

The Able Point Accountability Dossier proposes concrete investigative steps: obtain the original records, compare NDIS claims with actual service delivery, examine safeguarding and complaints processes, and establish who knew what and when.

The additional incident involving Kim creates a further question for the provider: after a support worker attended and was reportedly informed that the participant and his assistance animal needed food, what practical response was arranged?

The evidence must be examined fairly. Individual responsibility must not be presumed. But immediate humanitarian needs must not be postponed until every historical question has been resolved.

THE CENTRAL QUESTION IS SIMPLE:

WHAT WAS FUNDED?

WHAT WAS PROMISED?

WHAT WAS DELIVERED?

AND WHAT HAPPENED WHEN I ASKED FOR HELP?

The immediate humanitarian response must come first.

PRESERVATION FIRST. EXAMINATION SECOND. CONCLUSION LAST.

TIME IS THE WITNESS. TRUTH IS THE JUDGE. ACCOUNTABILITY IS THE RECKONING.

THE WITNESS REMAINS.

Immediate safety note: If you currently have no food or drinking water, please tell the support worker and Able Point management explicitly that you need an emergency food response for yourself and Crystal, and ask them to record the request and the action taken. If you are physically unwell or in immediate medical danger, call 000 in Australia.
