Privacy

Suggestions matching public code

Allowed

Copilot can allow or block suggestions matching public code. Learn more about code suggestions.

Allow GitHub to use my data for AI model training

Enabled

Allow GitHub to collect and use my Inputs, Outputs, and associated context to train and improve AI models. Read more in the Privacy Statement.

For more information about the data your organization receives regarding your use of GitHub Copilot, please review GitHub's Privacy Statement.

It can take up to 30 minutes for the changes to take effect. Restart your code editor for the changes to take effect immediately.

Visibility

Show Copilot

Enabled

Enable Copilot for all GitHub features, including navigation bar, search, and dashboard.
When disabled, Copilot will be hidden and unavailable. This setting does not apply to Copilot search on GitHub Docs.

Get Copilot from an organization

Organizations can provide their members (including you) and their teams access to GitHub Copilot.

You do not belong to any organizations.
