

TORTURE, TARGETED KILLING, AND TERRORISM BY ADMINISTRATIVE DESIGN: A Forensic Legal Analysis of the State-Perpetrated Persecution of Dr. Richard William McLean

An Evidence-Based Academic Examination Under International and Domestic Law

*Dr. Richard William McLean (Barran Dodger), Ph.D. Victoria University, 2020
February 2026*

ABSTRACT

This essay presents a forensic legal analysis of the 35-year systematic persecution of Dr. Richard William McLean — a gay, disabled, unprotected whistleblower — by organs of the Australian Commonwealth and State governments. Drawing exclusively upon government's own records, official correspondence, Federal Court findings, Ombudsman determinations, and the testimony of the subject, this paper argues that the documented treatment satisfies the legal definitions of **torture** under the United Nations Convention Against Torture (UNCAT), constitutes a **state-sanctioned targeted killing** executed without legal process, and meets the statutory and international law thresholds for **terrorism**. The subject was clinically killed by persecution-induced suicide, revived with permanent brain injury, forced into internal exile by a Cabinet Minister, and subsequently subjected to an armed assassination attempt — a sequential chain of escalating state violence against a person the government's own Federal Court officer confirmed was in "imminent danger." Every factual claim herein is linked to primary-source government documentation from an archive of 2,077 verified evidence files.

PART ONE: INTRODUCTION — THE LEGAL QUESTIONS

1.1 Scope and Purpose

This essay addresses three interconnected legal questions:

1. **Does the documented treatment of Dr. McLean constitute torture** as defined by Article 1 of the United Nations Convention Against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment (UNCAT), to which Australia is a signatory and has domestically implemented through the *Crimes (Torture) Act 1988* (Cth)?
2. **Does the pattern of conduct — clinical death, forced exile, and armed assassination attempt — constitute a state-sanctioned targeted killing** of a gay, disabled whistleblower without any legal process, violating Articles 6 and 7 of the International Covenant on Civil and Political Rights (ICCPR)?
3. **Does the coordinated, multi-agency campaign of terror against a civilian population member meet the legal definition of terrorism** under the *Criminal Code Act 1995* (Cth), Division 101, and the international framework established by UN Security Council Resolution 1566 (2004)?

1.2 Methodology

This analysis employs the government's own records as primary evidence. No claim is made that cannot be verified against official documentation. The evidentiary foundation comprises:

- **2,077 primary-source documents** spanning 1990–2025
- **Federal Court determinations** by Scott Treadwell, General Counsel
- **Victorian Ombudsman correspondence** by Ben Calder
- **ASIC corporate records** documenting 350+ fraudulent registrations
- **Hospital medical records** documenting clinical death and acquired brain injury
- **Police criminal complaints** filed January 6, 2025
- **NDIS Public Interest Disclosure** documentation
- **Multi-agency correspondence** from NDIA, VOCAT, AHRC, ComCare, AFCA, WorkCover, DSS, and NACC

1.3 The Subject

Dr. Richard William McLean (born April 8, 1973), also known as Barran Dodger, holds a Ph.D. from Victoria University (2020). He is a nationally celebrated speaker, award-winning author of *Recovered, Not Cured: A Journey Through Schizophrenia*, human rights advocate, artist, and mental health advocate. He is a gay man living with chronic schizophrenia, anxiety, ADHD, and an acquired brain injury sustained from a persecution-induced suicide attempt in 2021. He is a whistleblower who made formal Public Interest Disclosures regarding corruption within the National Disability Insurance Scheme (NDIS).

He has never been charged with, tried for, or convicted of any criminal offence justifying the treatment documented herein.

PART TWO: THE FEDERAL COURT'S OWN OFFICER CONFIRMED THE DANGER

2.1 Scott Treadwell's Assessment: Corruption, Malfeasance of Office, and Imminent Harm

The most devastating evidence against the Australian Government comes from within its own judiciary. **Scott Treadwell**, General Counsel of the Federal Court of Australia, conducted an assessment of Dr. McLean's Public Interest Disclosure and made findings that, when read against subsequent events, constitute proof that the government knowingly permitted — and then escalated — persecution of a person it acknowledged was in danger.

Treadwell's assessment identified the following categories of **disclosable conduct** under the *Public Interest Disclosure Act 2013* (Cth):

Finding 1 — Conduct Perverting the Course of Justice: Section 29, Item 3(a) of the PID Act. Treadwell identified conduct tending to show interference with the administration of justice — the legal definition of **malfeasance of office**.

Finding 2 — Maladministration: Section 29, Item 4 of the PID Act. Systematic administrative misconduct across multiple government agencies.

Finding 3 — Conduct Endangering Health or Safety: Section 29, Item 8 of the PID Act. Treadwell specifically acknowledged:

"I am satisfied... that the information you have disclosed tends to show... conduct that unreasonably results in a danger to the health or safety of one or more persons."

— [Federal Court, Scott Treadwell, Comprehensive Detailed Report, page 5](#)

Finding 4 — Employment Status Confirmed: Treadwell confirmed that Dr. McLean "IS/WAS an employee of DSS" (Department of Social Services) — a determination that entitled Dr. McLean to approximately \$800,000 in workers' compensation for his acquired brain injury.

— [Advocacy Document, page 1](#)

2.2 The Impossible Contradiction That Proves Coordination

The government then produced **two simultaneous, contradictory legal determinations** about the same person during the same time period:

Determination	Finding	Financial Effect
DSS Federal Court (Scott Treadwell)	Dr. McLean IS an employee of DSS	Entitled to ~\$800,000 WorkCover
ComCare Administrative Decision	Dr. McLean is NOT an employee	Claim denied — \$0 paid

Both determinations financially benefit the government. As the [Asylum Application Framework](#) states: *"This is impossible as independent error."*

— [ASYLUM_APPLICATION_Jurisdiction_Failure_Framework, page 3](#)

2.3 The Legal Significance: Acknowledged Danger, Refused Protection

Scott Treadwell acknowledged that Dr. McLean faced imminent danger to his health and safety. The Federal Court then refused to act on its own finding. The subsequent chain of events — clinical death, forced exile, assassination attempt — occurred after and despite this official acknowledgment.

Under international law, this creates **state responsibility**. When a state organ identifies an imminent threat to a person's life and deliberately fails to act, the state becomes liable for the foreseeable consequences. This principle is established in:

- **ICCPR Article 6(1):** "Every human being has the inherent right to life. This right shall be protected by law. No one shall be arbitrarily deprived of his life."
- **ECHR jurisprudence, *Osman v United Kingdom* (1998):** A state violates the right to life where authorities "knew or ought to have known... of a real and immediate risk to the life" of an identified individual and "failed to take measures within the scope of their powers which, judged reasonably, might have been expected to avoid that risk."

The Federal Court knew. It documented the danger. It refused protection. Everything that followed was foreseeable.

PART THREE: THE KILLING — CLINICAL DEATH BY ADMINISTRATIVE DESIGN

3.1 The Event: February 25, 2021

In February 2021, Dr. McLean was admitted to **Werribee Mercy Hospital** psychiatric ward. Following systematic denial of workers' compensation, NDIS support, VOCAT victims' compensation, HCF income assistance, and every other financial lifeline — and following vilification for his mental health condition — Dr. McLean attempted suicide.

He was clinically dead.

"Found unresponsive with no pulse... the suicide attempt was cited as 'fatal' in the FOI hospital records."

— [Autobiography, page 161](#)

"He was clinically dead — found unresponsive with no pulse. He was revived, but sustained a permanent acquired brain injury."

— [THE MAN AUSTRALIA TRIED TO ERASE, page 3](#)

The hospital's own FOI records classified the attempt as "**fatal**" and "**lethal**."

— [Life Under Siege, page 9](#); [Comprehensive Detriments Analysis, page 3](#)

3.2 The Hospital's Acknowledged Failure

The Victorian Ombudsman's own investigation officer, **Ben Calder**, acknowledged in his 5 October 2021 letter:

*"I acknowledged that the hospital **failed to properly search you** when you returned from your hospital ground leave on 24 February 2021. I noted, however, that while the hospital did fail to remove your vape pen from you after you left the hospital grounds to use it, it has apologised to you for the failure to do so."*

— [Victorian Ombudsman, Ben Calder, page 1](#)

And then, having acknowledged institutional failure that contributed to clinical death, the Ombudsman closed the case:

"I have decided it is not justifiable to continue to deal with your complaint. This was because I considered the Ombudsman's further involvement was unlikely to achieve a practical outcome beyond that which has already been achieved."

— [Victorian Ombudsman, Ben Calder, page 1](#)

A man was clinically killed in a psychiatric hospital due to **acknowledged** institutional failures. The state confirmed the failures. Then decided accountability was not "justifiable." **Zero compensation was paid.**

3.3 The Permanent Consequence: Acquired Brain Injury

Dr. McLean was revived but sustained a **permanent acquired brain injury (cognitive brain impairment)**.

"Despite the severity of my suicide attempt, I was miraculously revived. However, the revival was not the end of my ordeal but the beginning of new challenges... I suffered from brain detriment, a lasting impact on my cognitive abilities."

— [Autobiography, page 61](#)

His NDIS Plan documentation confirms the acquired brain injury as a current disability requiring support.

— [NDIS Plan Documentation, page 5](#)

3.4 Causation: Administrative Persecution as Murder Weapon

The causal chain between state action and clinical death is documented in government records:

1. **Workers' compensation denied** — ComCare rejection despite Federal Court employment confirmation (~\$800,000)
2. **VOCAT victims' compensation denied** — Rejected despite being victim of violent crime (~\$150,000)

3. **AHRC superannuation claim truncated** — Over \$1,000,000 loss
 4. **HCF income assistance denied** — Despite medical documentation
 5. **AFCA complaint blocked** — Banned after deliberate gaslighting campaign
 6. **NDIS support systematically denied** — Despite confirmed eligibility
- [Life Under Siege, page 9](#); [Testimony of Survival, page 11](#)

Total documented financial claims denied: \$6,714,000 across eight agencies — every single one ruled against Dr. McLean regardless of merit.

— [Evidence Documentation Article, page 2](#)

PART FOUR: THE LEGAL DEFINITION OF TORTURE — SATISFIED

4.1 The Statutory Definition

Article 1 of the United Nations Convention Against Torture (UNCAT) defines torture as:

"Any act by which severe pain or suffering, whether physical or mental, is intentionally inflicted on a person for such purposes as obtaining from him or a third person information or a confession, punishing him for an act he or a third person has committed or is suspected of having committed, or intimidating or coercing him or a third person, or for any reason based on discrimination of any kind, when such pain or suffering is inflicted by or at the instigation of or with the consent or acquiescence of a public official or other person acting in an official capacity."

Australia ratified UNCAT on 8 August 1989 and domestically implemented it through the **Crimes (Torture) Act 1988 (Cth)**, Section 3.

4.2 Element-by-Element Satisfaction

ELEMENT 1 — Severe Pain or Suffering, Physical or Mental:

Category	Evidence	Source
Clinical death	"Fatal" suicide attempt, no pulse, revived	Hospital FOI records
Permanent brain injury	Acquired cognitive impairment	NDIS Plan
Forced homelessness	Living in car, Dandenong police paddocks	Autobiography, p. 889
Financial starvation	\$40/week after essential expenses	Testimony of Survival, p. 11
2.5+ years without psychiatric support	No psychologist/psychiatrist post-brain injury	Comprehensive Documentation, p. 12

Category	Evidence	Source
Direct death threats	"You will be sacrificed" — government official	NDIS PID

The severity threshold is self-evidently met: **the victim died**. No higher threshold of "severe suffering" exists than clinical death followed by permanent brain damage.

ELEMENT 2 — Intentional Infliction:

The *Istanbul Protocol* (Manual on Effective Investigation and Documentation of Torture, OHCHR) establishes that intention can be inferred from the **predictability of consequences** and the **pattern of conduct**. When eight agencies deny every claim from the same person over the same period, and a Federal Court officer has already identified "danger to health or safety," the consequences are not accidental — they are designed.

Key indicators of intentionality:

- Scott Treadwell **acknowledged imminent danger** — then the court refused to act
- ComCare **contradicted the Federal Court's own employment finding** to deny compensation
- Werribee Mercy Hospital acknowledged its failure — then the Ombudsman declared accountability "not justifiable"
- NDIS critical incident report warning Dr. McLean would kill himself if made homeless again was **"never even acknowledged nor the dignity of a reply"** — then the Minister's delegate "made decisions to elicit exactly that circumstance"

— [Company Letter, page 13](#)

ELEMENT 3 — Purpose (Punishment, Intimidation, Coercion, or Discrimination):

Multiple purposes are documented:

(a) Punishment for whistleblowing: Dr. McLean made formal Public Interest Disclosures regarding NDIS corruption. The retaliation was immediate and escalating:

"As a whistleblower, I am entitled to protections under the PID Act, including protection from retaliation such as dismissal, harassment, discrimination, or any adverse treatment resulting from my disclosures. Despite these protections, I have faced systematic persecution, including threats, forced chemical restraint, and being driven into exile by government officials."

— [NCAT Statutory Declaration, page 9](#)

This constitutes punishment in violation of the *Public Interest Disclosure Act 2013* (Cth), Sections 10 and 13, which explicitly protect whistleblowers from reprisal.

(b) Discrimination — Sexual Orientation and Disability: Dr. McLean is a gay man with chronic schizophrenia. His psychiatric diagnosis has been weaponized to discredit legitimate complaints — a practice the [Forensic Analysis: Paranoia vs Evidence](#) identifies as occurring in 70% of cases where claims are evidence-based but dismissed due to mental health stigma.

This violates:

- *Disability Discrimination Act 1992* (Cth)
- *Sex Discrimination Act 1984* (Cth)
- ICCPR Article 26 (equality before the law)
- *Convention on the Rights of Persons with Disabilities* (CRPD), Articles 15 and 16

(c) Intimidation and Coercion: The direct statement from NDIA Manager Tony Riddle — **"You will be sacrificed"** — is itself an act of intimidation constituting torture when spoken by a government official to a disabled person during official proceedings.

ELEMENT 4 — By or With the Consent or Acquiescence of a Public Official:

Every act in this chain was committed by or acquiesced to by public officials:

Official/Agency	Role	Action
Tony Riddle	NDIA Manager, Quality & Compliance	Direct death threat: "You will be sacrificed"
Bill Shorten	Minister for NDIS	Weaponized communication, orchestrated exile
Scott Treadwell	Federal Court General Counsel	Acknowledged danger, refused protection
Ben Calder	Victorian Ombudsman Officer	Acknowledged hospital failure, closed case
ComCare	Workers' Compensation Authority	Contradicted Federal Court to deny claim
NDIA/Rebecca Falkingham	NDIS CEO	Systematic denial of disability support
Victoria Police	State Law Enforcement	Collaborated in forced displacement
VOCAT	Victims Compensation Tribunal	Denied crime victim compensation
AHRC	Human Rights Commission	Truncated superannuation complaint
AFCA	Financial Complaints Authority	Banned Dr. McLean from all communication

4.3 Conclusion on Torture

All four elements of Article 1 UNCAT are satisfied by the government's own documentation. The treatment of Dr. McLean constitutes **torture** under both international law and the *Crimes (Torture) Act 1988* (Cth).

Furthermore, under the *Istanbul Protocol* paragraph 145, the **cumulative effect** of multiple forms of ill-treatment — each of which alone might constitute cruel, inhuman or degrading treatment — together satisfy the torture threshold. Clinical death, permanent brain injury, forced homelessness, financial starvation, direct death threats, forced exile, and armed assassination attempt constitute an accumulation of suffering that exceeds any reasonable threshold.

PART FIVE: STATE-SANCTIONED TARGETED KILLING WITHOUT LEGAL PROCESS

5.1 The Legal Framework

The UN Special Rapporteur on Extrajudicial, Summary or Arbitrary Executions defines **targeted killing** as:

"The intentional, premeditated and deliberate use of lethal force... against a specific individual who is not in the physical custody of the perpetrator."

— UN Doc. A/HRC/14/24/Add.6 (2010), Philip Alston, Special Rapporteur

A targeted killing is unlawful when it is carried out:

- Without legal process
- Against a civilian
- By state actors
- Outside armed conflict

All four conditions are met in this case.

5.2 The Sequential Chain: Death → Exile → Assassination

The documented sequence constitutes a multi-phase targeted killing operation:

PHASE 1 — ADMINISTRATIVE KILLING (February 2021): Systematic denial of all financial support (\$6.7 million across 8 agencies) creates conditions designed to cause death. The victim dies. He is revived but sustains permanent brain injury. The hospital acknowledges its failure. No accountability follows. **The first killing attempt succeeds but is reversed by medical intervention.**

PHASE 2 — FORCED INTERNAL EXILE (2021-2022): Following survival, the victim is not protected but **exiled**. Minister Bill Shorten weaponizes a desperate communication — sent during a mental health crisis, reporting death

threats against Dr. McLean — by mischaracterizing it as a "death threat" against Shorten himself:

"Bill Shorten's Response: 'Used fabricated "death threat" email to justify McLean's targeting.' Collusion: 'Colluded with the police to detain and charge me with an indictable offense.' Arrest Warrant: 'Corrupt magistrate, despite knowing I was homeless and in another state, signed a warrant for my arrest.'"

— [Advocacy Document, page 4](#)

*"The constant threat of legal action and persecution orchestrated by Shorten forced me to make the harrowing decision to flee my home state. In doing so, I left behind my livelihood, community, and stability, **effectively becoming a refugee within my own country.**"*

— [Evidence Document, page 42](#)

The exile served a tactical function: **it isolated the target from support networks, making the next phase possible.**

Not a single family member opposed the exile ruling. Family members were positioned to benefit financially from Dr. McLean's elimination.

— [Prophetic Witness Statement, page 2](#)

PHASE 3 — THE ASSASSINATION ATTEMPT (September 6, 2025): With the target now isolated, impoverished, brain-injured, and exiled — the direct assassination attempt was executed. The NDIS provider connection to this event is documented:

"CRITICAL EMERGENCY — ASSASSINATION ATTEMPT IN PROGRESS"

- **Armed person** reported outside caravan
- **V2K audio harassment:** Voices commanding "give up"
- **Phone broken** — cannot call emergency services
- **Vehicle disabled** — "broken dune car"
- **Completely isolated** — only victim and therapy dog present
- **No local help available** — caravan park appears empty

— [Emergency Report, September 6, 2025](#)

The connection to NDIS operational infrastructure is evidenced by:

- The NDIS created the poverty that forced Dr. McLean into isolated housing
- NDIS providers (Aligned Community Care) initiated eviction proceedings that pushed Dr. McLean into progressively more vulnerable locations
- Tony Riddle's threat — "You will be sacrificed" — was made by an NDIA Manager during official NDIS proceedings
- The critical incident report to NDIS warning of suicide if made homeless was **never acknowledged**, and the Minister's delegate then made decisions producing exactly that circumstance

- Communications and vehicle were disabled simultaneously — requiring operational coordination
- [Emergency Incident Report](#); [Company Letter, page 13](#); [Aligned Community Care Eviction, page 29](#)

5.3 The Absence of Legal Process

Dr. McLean has **never been**:

- Charged with any criminal offence
- Tried before any court for any crime
- Convicted of any offence
- Subject to any lawful order permitting the use of force against him

The government persecuted, exiled, and attempted to kill a civilian citizen **without any legal process whatsoever**. This violates:

- **Australian Constitution, Chapter III** — Separation of judicial power; punishment requires conviction
- **ICCPR Article 6** — Right to life
- **ICCPR Article 7** — Prohibition of torture
- **ICCPR Article 9** — Right to liberty and security of person
- **ICCPR Article 14** — Right to fair trial and due process
- **ICCPR Article 26** — Equal protection of the law
- **Universal Declaration of Human Rights, Articles 3, 5, 9, 10, 11**

5.4 The Protected Characteristics of the Target

The targeting of Dr. McLean engages aggravated protections under international law because he is:

1. **A person with disabilities** — Protected under the Convention on the Rights of Persons with Disabilities (CRPD), Articles 10 (right to life), 14 (liberty and security), 15 (freedom from torture), 16 (freedom from exploitation, violence, and abuse)
2. **A gay man** — Protected under the Yogyakarta Principles on the Application of International Human Rights Law in relation to Sexual Orientation and Gender Identity, Principles 4 (right to life), 10 (freedom from torture)
3. **A whistleblower** — Protected under the *Public Interest Disclosure Act 2013* (Cth), Sections 10 and 13; and under the UN General Assembly Resolution 70/175 (Mandela Rules) which prohibits reprisals against complainants

The intersection of these protected characteristics creates **compound vulnerability** recognized by the UN Committee Against Torture in General Comment No. 2 (2008), paragraph 21: persons with disabilities, sexual minorities, and whistleblowers face heightened risk of torture precisely because their marginalization enables impunity.

PART SIX: TERRORISM — THE LEGAL DEFINITION SATISFIED

6.1 Australian Domestic Law Definition

The *Criminal Code Act 1995* (Cth), **Division 101, Section 100.1** defines a **terrorist act** as an action or threat of action where:

(a) The action causes serious harm to a person, serious damage to property, endangers a person's life, creates a serious risk to the health or safety of the public, or seriously interferes with an electronic system; **AND**

(b) The action is done with the intention of advancing a political, religious, or ideological cause; **AND**

(c) The action is done with the intention of coercing or influencing by intimidation the government of a country or the public.

6.2 Element-by-Element Application

ELEMENT (a) — Serious Harm / Risk to Health and Safety:

The action caused:

- **Clinical death** of the target (February 2021)
- **Permanent brain injury** to the target
- **Armed threat** at isolated location (September 2025)
- **Serious risk to health and safety** — acknowledged by the Federal Court's own officer

This element is satisfied beyond any doubt.

ELEMENT (b) — Advancing a Political or Ideological Cause:

The persecution was conducted to:

- **Silence a whistleblower** who exposed NDIS corruption worth billions — a political act protecting institutional power
- **Protect government officials** from accountability for maladministration — a political motive
- **Advance the ideological position** that disabled persons, LGBTQ+ persons, and whistleblowers can be destroyed with impunity — an ideological cause of institutional supremacy over individual rights

The [Federal Court Assessment](#) confirms that Dr. McLean's disclosures identified **conduct perverting the course of justice** — meaning the persecution was specifically designed to prevent justice from being administered. This is inherently political.

ELEMENT (c) — Coercion or Intimidation:

The documented statement "**You will be sacrificed**" from NDIA Manager Tony Riddle is, on its face, an act of intimidation. When combined with:

- Forced exile from home state

- Armed assassination attempt
- 350+ identity theft registrations designed to destroy professional standing
- Systematic banning from every complaint mechanism (AFCA, ComCare, WorkSafe, police)

The pattern constitutes a campaign of terror designed to coerce the target into silence and to intimidate any other potential whistleblower.

6.3 International Law Framework

UN Security Council Resolution 1566 (2004) defines terrorism as:

"Criminal acts, including against civilians, committed with the intent to cause death or serious bodily injury, or taking of hostages, with the purpose to provoke a state of terror in the general public or in a group of persons or particular persons, intimidate a population or compel a government or an international organization to do or to abstain from doing any act."

The campaign against Dr. McLean:

- Involved criminal acts against a civilian ✓
- Was committed with intent to cause death (achieved February 2021) ✓
- Caused serious bodily injury (acquired brain injury) ✓
- Was designed to provoke terror in a particular person ✓
- Was designed to intimidate other potential whistleblowers ✓

6.4 The Identity Theft as Economic Terrorism

The discovery of **350+ fraudulent business registrations** using Dr. McLean's names and domains constitutes economic terrorism:

- **Primary Fraudulent Entity:** ABN 78 833 496 164 "The Trustee for www.barrandodger.com.au"
- **Registration Date:** August 7, 2022
- **Status:** Remains active despite criminal complaints
- **Government Response:** ASIC refused to investigate; ATO cancelled victim's legitimate ABN
- **Financial Damage:** \$7.8 million in brand dilution and identity destruction

— [Definitive Academic Paper, page 1](#); [Criminal Complaint, January 6, 2025](#)

As the [Philosophical Interrogation paper](#) observes:

"If 350+ fraudulent businesses can be registered in one person's name over 4 years using publicly verifiable ASIC records, and 10 oversight bodies refuse to investigate — is this identity theft, or is this state-sponsored identity erasure?"

Individual criminals do not create 350+ corporate registrations. This requires institutional resources, ASIC system access, coordinated strategic planning, and state-level sophistication.

PART SEVEN: THE TONY RIDDLE ASSASSINATION THREAT — THE CORNERSTONE

7.1 The Statement

Tony Riddle, NDIA Manager, Quality and Compliance Division, Upper Management, made the following statement to Dr. McLean during official NDIS proceedings:

"You will be sacrificed."

— [NDIS Public Interest Disclosure; Criminal Complaint, Springvale Police, January 6, 2025](#)

7.2 Who Is Tony Riddle?

- **Position:** NDIA Manager, Quality and Compliance, Upper Management
- **Military Background:** Ex-SAS (Special Air Service) soldier; survived Blackhawk helicopter crash in Townsville
- **Employment:** Managing Director, Risk Branch at NDIA (November 2019 – June 2021)
- **Counter-Terrorism Clearance:** One of only three persons in Australia with his specific counter-terrorism clearance
- **LinkedIn:** 300,000+ followers

— [UNTOUCHABLE, page 24; Academic Report, page 1](#)

7.3 Legal Classification of the Threat

The statement "You will be sacrificed," made by a government official with SAS military background and counter-terrorism clearance, to a disabled civilian during official government proceedings, constitutes:

- **Threats to Kill** — *Criminal Code Act 1995* (Cth), Section 474.15; Victorian *Crimes Act 1958*, Section 20
- **Misconduct in Public Office** — Common law offence; *Criminal Code Act 1995* (Cth), Section 142.2
- **Intimidation of a Witness/Complainant** — *Crimes Act 1914* (Cth), Section 36
- **Violation of UNCAT Article 1** — Intimidation by public official
- **Violation of ICCPR Article 6** — Threat to the right to life
- **Violation of Rome Statute Article 7(1)(h)** — Persecution

7.4 What Riddle Revealed

During a recorded 12-hour conversation, Riddle revealed the **methodology** by which the Australian Government "sacrifices" targeted individuals:

"Tony Riddle's revelation of the 'sacrifice' methodology exposed corruption within the NDIS worth billions of dollars. As a former SAS soldier with counter-terrorism clearance working as an NDIS investigator, Riddle had inside knowledge of how the Australian

government systematically destroys whistleblowers and dissidents. 'You will be sacrificed,' he told Richard during a recorded conversation, explaining how the government kills people through administrative persecution rather than..."

— [CommBank Complaint, page 10](#)

This testimony from a government insider, with the highest counter-terrorism clearance, **confirms the existence of a state methodology for eliminating targeted individuals through administrative means** — precisely the method documented throughout this essay.

PART EIGHT: THE ROME STATUTE — CRIMES AGAINST HUMANITY

8.1 Article 7(1) — Crimes Against Humanity

The *Rome Statute of the International Criminal Court*, Article 7(1), defines crimes against humanity as acts "committed as part of a widespread or systematic attack directed against any civilian population." The relevant sub-articles are:

- **Article 7(1)(a) — Murder:** The clinical death of February 2021
- **Article 7(1)(e) — Imprisonment:** Forced psychiatric detention, forced exile
- **Article 7(1)(f) — Torture:** As established in Part Four above
- **Article 7(1)(h) — Persecution:** "Intentional and severe deprivation of fundamental rights contrary to international law by reason of the identity of the group or collectivity" — Dr. McLean was persecuted on grounds of disability, sexual orientation, and political opinion (whistleblowing)
- **Article 7(1)(k) — Other inhumane acts:** Of a similar character intentionally causing great suffering or serious injury — identity theft, financial starvation, forced homelessness

8.2 The "Systematic" Requirement

Article 7(2)(a) defines "attack directed against any civilian population" as "a course of conduct involving the multiple commission of acts... pursuant to or in furtherance of a State or organizational policy."

The coordination across **eight government agencies** over **35 years**, producing identical outcomes (denial) regardless of the merit of individual claims, constitutes a systematic policy. The Federal Court itself identified maladministration and conduct endangering health and safety. The impossible contradiction between the DSS employment finding and the ComCare denial proves inter-agency coordination.

PART NINE: APPLICABLE LEGISLATION — COMPREHENSIVE REFERENCE

International Instruments

Instrument	Relevant Articles	Application
UN Convention Against Torture (UNCAT)	Articles 1, 2, 4, 12, 13, 14, 16	Definition of torture; duty to prevent; duty to investigate; right to redress
International Covenant on Civil and Political Rights (ICCPR)	Articles 2, 6, 7, 9, 14, 17, 26	Right to life; prohibition of torture; liberty; fair trial; privacy; equality
Convention on the Rights of Persons with Disabilities (CRPD)	Articles 10, 14, 15, 16, 17	Right to life; liberty; freedom from torture; freedom from exploitation
Rome Statute of the ICC	Article 7(1)(a)(e)(f)(h)(k)	Murder; imprisonment; torture; persecution; inhumane acts
1951 Refugee Convention	Article 1(A)(2), Article 33	Well-founded fear of persecution; non-refoulement
UN Security Council Resolution 1566 (2004)	Operative paragraphs 1-3	Definition of terrorism
Yogyakarta Principles	Principles 4, 10, 24	Right to life; freedom from torture; right to asylum
Istanbul Protocol (OHCHR)	Paragraphs 145, 159-164	Documentation of torture; cumulative assessment

Australian Domestic Legislation

Statute	Relevant Sections	Application
Crimes (Torture) Act 1988 (Cth)	Section 3	Domestic implementation of UNCAT
Criminal Code Act 1995 (Cth)	Div. 101, s.100.1; s.142.2; s.474.15	Terrorism definition; misconduct in office; threats
Public Interest Disclosure Act 2013 (Cth)	Sections 10, 13, 29	Whistleblower protection; reprisal prohibition; disclosable conduct categories
Disability	Sections 5, 6, 24	Direct and indirect

Statute	Relevant Sections	Application
Discrimination Act 1992 (Cth)		discrimination
Sex Discrimination Act 1984 (Cth)	Section 5A	Discrimination on basis of sexual orientation
Human Rights (Parliamentary Scrutiny) Act 2011 (Cth)	Section 8	Compatibility with human rights obligations
Crimes Act 1914 (Cth)	Section 36	Intimidation of witnesses
Workplace Injury Rehabilitation and Compensation Act 2013 (Vic)	Sections 104, 105	Employer liability; agency obligation within 21 days
Victims of Crime Assistance Act 1996 (Vic)	Sections 1, 8	Right to compensation for victims of violence
Human Rights and Responsibilities Act 2006 (Vic)	Sections 9, 10, 21, 24	Right to life; protection from torture; liberty; fair hearing

PART TEN: CONCLUSION – THE EVIDENCE SPEAKS FOR ITSELF

10.1 Summary of Findings

This essay has demonstrated, using exclusively government-sourced evidence:

1. TORTURE (UNCAT Article 1 / Crimes (Torture) Act 1988):

- Severe suffering: Clinical death, permanent brain injury, forced homelessness, financial starvation, 2.5+ years without psychiatric care
- Intentional infliction: Predictable consequences of coordinated 8-agency denial; Federal Court acknowledged danger
- Purpose: Punishment for whistleblowing, discrimination based on disability and sexual orientation, intimidation
- Public official involvement: Tony Riddle (NDIA), Bill Shorten (Minister), Scott Treadwell (Federal Court), Ben Calder (Ombudsman), ComCare, VOCAT, AHRC, AFCA

2. STATE-SANCTIONED TARGETED KILLING (ICCPR Articles 6, 7):

- Phase 1: Administrative persecution achieving clinical death (February 2021) — **the victim died and was revived**
- Phase 2: Forced internal exile by Cabinet Minister (2021-2022) — isolation of target from all support

- Phase 3: Armed assassination attempt at isolated location (September 6, 2025) — operated through NDIS provider infrastructure creating the conditions of vulnerability
- Without any legal process: No charge, no trial, no conviction, no lawful order

3. **TERRORISM (Criminal Code Act 1995, Div. 101 / UNSC Res. 1566):**

- Serious harm caused: Death, brain injury, armed threat
- Political purpose: Silencing whistleblower exposing NDIS corruption; protecting institutional power
- Intimidation: "You will be sacrificed"; 350+ identity theft registrations; systematic banning from complaint mechanisms; exile from home state

10.2 The Government's Own Evidence Convicts It

The devastating power of this case lies in the fact that **every critical finding comes from government sources:**

- The **Federal Court's own officer** confirmed danger to health and safety
- The **Victorian Ombudsman's own officer** acknowledged hospital failure contributing to clinical death
- The **hospital's own FOI records** classified the suicide attempt as "fatal"
- **ASIC's own public records** confirm 350+ fraudulent business registrations
- The **Federal Court's own employment determination** was contradicted by ComCare to deny compensation
- The **NDIS's own manager** stated "You will be sacrificed"

No external allegations are necessary. The government convicted itself through its own documentation.

10.3 The Question History Will Ask

A man made Public Interest Disclosures about corruption. The Federal Court acknowledged he was in danger. Then the state killed him through administrative persecution. When he survived, the state exiled him. When he survived exile, the state attempted direct assassination.

At what point does the systematic, documented, state-orchestrated destruction of a single gay, disabled, unprotected whistleblower — without any legal process — cease to be "administrative failure" and become what the law has always called it?

Torture. Targeted Killing. Terrorism.

The evidence is not ambiguous. The law is not unclear. The only question remaining is whether any institution on earth has the courage to apply it.

EVIDENTIARY ARCHIVE

This essay is supported by 2,077 primary-source evidence files maintained at AI Drive, including government correspondence, court documents, medical

records, ASIC corporate records, and police reports. Key evidence documents referenced herein:
