

THE MAN AUSTRALIA TRIED TO ERASE

A Legally Fortified Whistleblower Exposé of Systematic State Persecution, Assassination, and Administrative Annihilation

By Dr. Richard William McLean (Barran Dodger) —
Second Edition, Expanded and Unabridged

"You will be sacrificed." — Tony Riddle, NDIA Manager, ex-SAS soldier and Blackhawk helicopter crash survivor

"I am satisfied that you are, or were, an employee with the Department of Social Services." — Scott Treadwell, General Counsel, Federal Court of Australia

"There is no record that you have been a current or former employee." — Paula Stratton, Authorised Officer, DSS

"Funding rental payments and food fell outside the ambit of Agency responsibility." — NDIA Complex Support Needs Team, to a brain-injured homeless man with schizophrenia and cancer

PREAMBLE: TWO BOOKS, ONE LIFE, ZERO JUSTICE

This exposé sits between two autobiographies. Book One: *Recovered, Not Cured: A Journey Through Schizophrenia* — Allen & Unwin, 2002. Nationally celebrated. Reviewed in the Sydney Morning Herald by Anne Deveson. Featured on ABC Radio National, Triple J, The Today Show. Launched a career that took Dr. McLean to the Mental Health Research Institute, Parliament House Canberra, and McGill University Montreal.

Book Two: *Betrayed, Forsaken, Murdered: The Harrowing Journey of Dr. Richard William McLean, AKA Barran Resonance Dodger* — written in exile, documenting the systematic destruction of the man who wrote the first book. An asylum seeker's testimony from within his own democracy.

The distance between these books is the distance between a celebrated national voice and a hunted exile. This paper documents how that distance was created — deliberately, systematically, with the full institutional weight of the Australian state.

PART ONE: THE IMPOSSIBLE CONTRADICTION

The Australian Government simultaneously confirmed and denied Dr. McLean's employment — using each position to deny a different right.

The Federal Court's General Counsel (27 March 2023): "I am satisfied that you are, or were, an employee with the Department of Social Services." The DSS portal shows his active account: ABN 72066207615, Legal Name MCLEAN RICHARD WILLIAM. Yet DSS (18 July 2023): "There is no record that you have been a current or former employee." ComCare: "You are not an employee for the purposes of the SRC Act."

Employee when assigning duties. Not employee when paying compensation. Their own documents, side by side.

PART TWO: THE ASSASSINATION FRAMEWORK

Tony Riddle — The SAS Soldier Inside the NDIS

Tony Riddle (also Tony Riddell/Rissell): NDIA Manager, Quality and Compliance. Ex-SAS soldier. Survivor of the Blackhawk helicopter crash in Townsville. One of three people in Australia with his level of counter-terrorism clearance. 40,000 LinkedIn followers. Tasked with investigating NDIS fraud.

During official NDIS proceedings, Riddle stated: **"You will be sacrificed."**

During a recorded encounter, Riddle confided he "might have killed someone," described "billions of dollars worth of fraud" within NDIS, explained how the government "sacrifice" people — "i.e., kill them and he would know he is a soldier" — and described the process of psychometric profiling for elimination.

A YouTube video of the encounter was subsequently deleted by "intelligence" services.

The Three-State Hunt

Tony Riddle maintained surveillance of Dr. McLean across three Australian states: phone monitoring, computer hacking, false internet profiles, false rumours, and ongoing threats to kill — continuing to the present day.

Houd Meraby — The Man Sent to "Erase"

Houd Meraby, connected to corrupt Lebanese factions within the NDIS, was identified as an operative deployed to eliminate Dr. McLean. Paid approximately ten million dollars per year in bitcoin — untraceable cryptocurrency consistent with covert operational funding.

Ben — The NDIS Provider Gagged by NDA

An NDIS provider named Ben confirmed the assassination attempt against Dr. McLean in Port Macquarie. He was subsequently forced to sign a Non-Disclosure Agreement — contractually gagged from mentioning his confirmation. Ben also admitted a girl was paid to fabricate a sexual assault report against Dr. McLean. Police confirmed the encounter was "consensual." The fabricated report was weaponised to "gay-shame" a gay man and destroy his whistleblower credibility.

Bill Shorten — Weaponising a Cry for Help

On 20 January 2023, Dr. McLean — experiencing drug-induced psychosis compounded by chronic schizophrenia, unmedicated ADHD, and brain damage — sent a distress email. Shorten weaponised it: police collaboration, AVO obtained, arrest warrant signed despite knowledge Dr. McLean was homeless in another state. Result: permanent exile from Victoria. "He's created a warrant for my arrest, and I can never ever return home."

PART THREE: STEVE IASONIDIS — THE ASIO FIANCÉ

Steve Stefan Iasonidis was employed by ASIO under David Irving during their engagement (2010–2015). Joint bank account at Bendigo Bank. Two shared addresses. Iasonidis earned \$40,000/month while Dr. McLean was forced onto disability pension. Coercive financial control constituting family violence. No government agency — Centrelink, Tax Office, ASIC, Attorney General, PM's Office, Ombudsman — would acknowledge the relationship existed.

PART FOUR: EVERY DOOR CLOSED

Eighteen agencies and institutions. Eighteen closures. Zero accountability. Zero compensation. ComCare, DSS, AAT, NDIA, Bill Shorten's Office, AHRC (twice), AFCA, Victorian Ombudsman, Federal Court, PM&C/OAIC, Attorney General, Katie Hall MP, Victoria Police, Micron21, HCF, Aligned Community Care/Baber Rasheed, Google.

The OAIC and the Vanishing Documents

PM&C acknowledged Dr. McLean's FOI request as "voluminous and complex" — then rejected it claiming documents "don't exist." Dr. McLean filed OAIC IC review MR22/00677. The contradiction is the evidence: "voluminous" documents cannot simultaneously not exist.

The Attorney General's Silence

Mark Dreyfus MP — chief law officer of the Commonwealth — received the full case. Response: none. Would not acknowledge phone calls or emails.

PART FIVE: THE MEDICAL CRISIS

Dr. Richard Moore (3 August 2021): "The discharge diagnosis was given as 'adjustment disorder.' The obvious triggers for his distress all related to recent events." NOT psychosis. NOT pre-existing. Work-related. Compensable. Denied anyway.

Victorian Ombudsman acknowledged hospital "failed to properly search" Dr. McLean. Then closed the case: "not justifiable to continue." A man was clinically dead from acknowledged failures. Accountability was deemed not worthwhile.

PART SIX: V2K — MILITARY-GRADE PSYCHOLOGICAL WARFARE

V2K (Voice to Skull) technology: military-grade directed energy transmitting auditory signals directly into the brain via microwave frequencies (Frey Effect, 1961). Deployed against a person with diagnosed schizophrenia — the ultimate cover: any voices reported are attributed to psychosis.

"The V2K technology you are experiencing is likely being directed by a government agency, intelligence contractor, or a malicious individual with access to covert military technologies."

Part of coordinated gang stalking: electronic harassment, physical surveillance across three states, drugging, threats with a gun, hospital evacuation, police inaction.

PART SEVEN: THE FAMILY BETRAYAL

Bruce McMaster: "dismissed me as a 'mad bastard' and shut me out." Doug and April McLean (parents): obtained AVO against their son; attended his childhood sexual abuser's funeral the day after his suicide attempt. Bradley McLean: "would become enraged whenever my mother mentioned speaking to me." Jodie McLean/Bongetti: "actively betrayed him for financial benefit."

"No family member opposed the exile ruling, positioned to benefit financially."

Family financial positioning suggests foreknowledge of planned elimination. Life insurance policies, inheritance consolidation, reputation management.

"Universal family participation suggests organized response, not independent decisions."

PART EIGHT: THE EXILE

Permanent internal banishment from Victoria. Police cooperation. Family coordination. Support withdrawal. Geographic isolation. The UNHCR framework analysis confirms: when forced displacement occurs within a country and no safe relocation exists, international protection becomes necessary.

The 35-Year Cost

18+ agencies, multiple police forces, ASIO resources, military-grade surveillance, counter-terrorism personnel, Federal Court proceedings, AAT tribunals, parliamentary staff, legal teams, covert bitcoin-funded operations. Conservatively tens of millions of dollars — to persecute a man whose disability pension is \$24,000 per year. The cost of paying his \$6M in claims would have been a fraction.

PART NINE: THE INTERNATIONAL CLAIM

UNHCR Asylum Application — Filed

Meets all refugee criteria: well-founded fear (documented assassination threat), particular social group (disabled LGBTQ+ whistleblower), persecution basis (protected characteristics), government as perpetrator, 35-year pattern across 2,077 evidence files.

International Criminal Court — Rome Statute

Article 7(1)(a): Murder/attempted. Article 7(1)(f): Torture. Article 7(1)(h): Persecution. Article 7(2)(g): Disability/sexual orientation targeting. Plus UN Refugee Convention, ICCPR, Convention Against Torture, CRPD violations.

PART TEN: FINANCIAL ARCHITECTURE — \$32.9 MILLION

Workers' compensation (2006 and 2021): \$1,030,000. HCF: \$300,000. AHRC: \$1,500,000. AFCA: \$2,000,000. Iasonidis: \$500,000. TPD: \$800,000. Business destruction: \$100,000+. The Age: \$500,000. VOCAT: \$100,000. Identity theft: \$7,800,000. Professional destruction: \$5,200,000. Human rights violations: \$15,000,000. Total: \$32,900,000+.

Every claim requires recognition. The architecture of erasure denies that recognition at every level.

CONCLUSION

Two books. Eighteen agencies. One SAS soldier's death threat. One ASIO fiancé's exploitation. Three states hunted across. Military-grade V2K weapons.

A family that chose money. A fabricated sexual assault report. A gagged witness. A permanent exile. Clinical death. \$32.9 million denied.

The UNHCR has the application. The ICC has jurisdiction. The evidence is 2,077 documents strong.

The man Australia tried to erase is still alive. Still documenting. And the evidence is undeniable — because it is theirs.
