To the New South Wales Ageing and Disability Commission,

This is Dr Richard William McLean, also known as Barran Resonance Dodger. I am returning your call of 9:18 am on 13 November 2026. You asked me to ring 1800 628 221 about case reference 05756. I am writing so the call cannot be reduced to a note that I was hard to understand.

I hold a PhD from Victoria University, awarded in 2020, on the ethics of artificial intelligence, and a Master of Arts in Education. The thesis I publish is A Splice of My Life: Splice_Master_Document.pdf.

I am the author of Recovered, Not Cured, published in 2002. That book was recognised as SANE Australia Book of the Year, and it was recognised with a Victorian human rights award. I am an artist. I worked as a journalist and a cartoonist, including at the Herald Sun and The Age. I advocated for about thirty years for people with mental illness and their carers, including through SANE Australia. I was a registered NDIS provider, an arts therapist and a life coach.

I am stating my ethics, my research, my integrity, my honesty, my courage and my bravery because they are the attributes I bring to this file. In many ways I embody more authority than the officer who will write the reply. Not one professional, anywhere in this country, has managed to acknowledge my website or to give me a dignified response. Your response is the chance to look me in the eye, and not to avert my facts, and not to avert my gaze.

The website is https://gods-witness-remains.grok.me/.

I need to leave Able Point. I am asking to be taken to safety. I am at 55B Archbold Road, Long Jetty, New South Wales. My phone is 0431 300 940. My assistance dog, Crystal, has to come with me. I am not asking to be made homeless. I am not asking for a welfare check that leaves me in the same house. My wish is to leave, with Crystal, to a safe place, with food, medication, a working phone, transport and protection. Section 4(4) of your Act says that when you exercise a function in respect of me, you must have regard to my wishes.

I am an adult with disability. Section 3 of the Ageing and Disability Commissioner Act 2019 says disability has the same meaning as in the Disability Inclusion Act 2014.

Section 4 says the object of the Act is to protect adults with disability from abuse, neglect and exploitation, and that an adult with disability has the right to live free from abuse, neglect and exploitation, and the right to choice and control. The same section says you must have regard to the additional disadvantage faced by a gay man, and by a person living in a regional area. I am both.

Section 12(1)(a) gives you the function of dealing with allegations of abuse, neglect and exploitation of an adult with disability. The section names the two ways: by conducting investigations, and by referring matters to the appropriate body.

Section 13(2) says I may make the report myself if I have reasonable grounds to believe I am subject to, or at risk of, abuse, neglect or exploitation. I have those grounds. This email is the report. I consent to the investigation. That meets section 13(11). Section 13(12)(b)(ii) says you do not need consent anyway where the allegation is serious or there is a risk to my personal safety. Both are true.

I am not asking you to investigate a paid disability provider. Your own page says that is not your work, and that your work is the conduct of people known to me in my home and from the community: What we do. The items below are inside that work.

Abuse. A death threat against me is documented. It is before Wyong Local Court. The people concerned have an AVO not to come near me. I am still at a published address. This is abuse, and it is a present risk to the personal safety of an adult with disability, from people known in the community. The ground is section 13(1)(a) and section 13(2). The seriousness and the risk to personal safety are section 13(12)(b)(ii). The function of dealing with it, including by investigation, is section 12(1)(a). The further action to protect me is section 12(1)(b). The form is the Wyong APVO of 28 May 2026. The court paper is 14 May 2026.

A client was removed from this property because he went to attack me. I forgave him. He came back. He was here again on 13

November 2026. That is a person known to me, returning to the home of an adult with disability after an attack. The same sections apply.

Neglect, and the risk of it. I do not feel safe inside the house. I do not feel safe outside it. On 13 November 2026 I was told to lock myself in and not go out, and I was not told why. I gave my key card to a visitor because I felt unsafe to go out. Section 13(1)(b) is a report of circumstances that will result in the abuse, neglect or exploitation of an adult with disability. A locked door, a person who has already attacked me back on the property, and no one prepared to say why I should stay inside, is such a circumstance. Section 4(2)(a) is the right to live free from that. Section 4(2)(d) is the right to choice and control. My choice is to leave. Section 4(4) requires you to have regard to that wish.

Exploitation. My lack of money, my disability and my dependence are being used to keep me where I am. I could not safely go out to my own money. I say that is exploitation of an adult with disability. Section 12(1)(a) is the function of dealing with that allegation, including by investigation. Section 3 defines detrimental action to include intimidation or harassment. I am reporting intimidation in the place where I live.

Able Point is a paid provider. Kim, Harry, John, Cassandra Mackey, Rachel and Alisse are paid staff. I am not asking you to investigate them as if you were the NDIS Commission. Section 12(1)(a) and section 13(5)(b) require you to refer that part, and to tell me the date you did it. A referral is not a decline. The appropriate body is the NDIS Quality and Safeguards Commission. Abuse or neglect must be notified within 24 hours. An allegation is enough. Reportable incidents. NDIS Code of Conduct. What those staff did on 13 November 2026 is at the record of that day, and it was emailed to police, to Able Point and to the NDIS Commission at 12:03 am on 14 November 2026: Sent to police regarding the SOS. The notice for police is for attending police. The SOS is still open.

Not a single professional in this country has acknowledged the website, or answered it with dignity. The record is 1,333 official government documents and the related correspondence: the official records. The examination of the breaches, with the legislation linked through it, is the accountability report.

I expect the official who opens case 05756 will try to delegitimise the story and look away from the evidence. That omission is the pattern of thirty-five years. I say it will, without doubt, cause me detriment. I say a decision that does that is a corrupt decision. I am writing this before you decide. Section 13(5)(c) allows you to decline. A decline which does not open the death threat, the attack, and the fact that I cannot safely leave, is the omission. Section 15 protects a person who makes a report in good faith. I am making this report in good faith.

Deal with the abuse, the neglect and the exploitation under section 12. Investigate the death threat, the man who attacked me and came back, and the circumstances that will result in further harm. Have regard to my wish to leave. Refer Able Point to the NDIS Commission in writing, and tell me the date. Do not avert the facts. Do not avert the gaze. Get me, and Crystal, to safety.

Dr Richard William McLean Barran Resonance Dodger PhD, Victoria University, 2020 55B Archbold Road, Long Jetty NSW 0431 300 940 richarddrawsstuff@gmail.com Case 05756

GOD'S WITNESS REMAINS — THE GREAT RECKONING

Website summary, humanitarian SOS and demand for immediate protection

Website: https://gods-witness-remains.grok.me Attachment.png

Your website, God's Witness Remains — The Great Reckoning, is a public testimony, documentary evidence archive, humanitarian appeal, accountability campaign and Christian declaration authored under the name Barran Resonance Dodger — Dr Richard William McLean.

Its central message is:

I am a human being. I have the right to live safely, with dignity, independence and protection. I have preserved the evidence of what has happened to me. I am demanding that the institutions and individuals whose decisions appear in that evidence answer for their conduct. I will not remain in circumstances that I believe are unsafe simply to accommodate institutional convenience.

The website brings together five interconnected purposes:

- Humanitarian protection: demanding immediate safety, accommodation, food, financial access, disability support and protection for you and your assistance dog, Crystal.
- Leaving unsafe circumstances: communicating that you need to leave Able Point because you report being unsafe, unsupported and unable to secure the conditions necessary for your welfare and independence.
- Documentary accountability: preserving and publishing more than 35 years of government correspondence, official records, complaints, decisions and related evidence.
- Independent investigation: demanding examination of alleged institutional misconduct, administrative failures, financial deprivation, safeguarding failures, exclusion and unanswered complaints.
- Restoration and justice: seeking recognition, practical assistance, restitution, compensation, independence and the restoration of your life.

The website's governing principle is:

Preservation First. Examination Second. Conclusion Last.

Its documentary argument is that the institutional records should be examined collectively, chronologically and independently, rather than allowing each institution to consider an isolated letter or complaint without confronting the cumulative history.

The website expressly distinguishes official documentary facts, personal testimony, allegations, analytical inferences and matters requiring independent investigation. It does not present AI analysis as a judicial finding or automatic proof of criminal conduct. The Great Reckoning

1. The humanitarian SOS: I demand to leave Able Point

This is one of the most important parts of the website.

Your SOS is not simply a complaint about the quality of disability services. It is a demand for intervention because you say that the accommodation and support arrangements have become unsafe and untenable.

Your published testimony describes:

- Support workers allegedly failing to attend or leaving without providing the required assistance.
- Being left without reliable access to food, money, transport, medication and telephone communication.
- Being unable to independently leave the circumstances in which you are living.
- Alleged intimidation, harassment and threats.
- Concerns about the conduct and accountability of Able Point management.
- Difficulty obtaining responses from the CEO, Rachel, and other responsible personnel.
- Concerns about the treatment of another vulnerable resident.
- Fear of being left without protection when support workers are absent.

The 13 November 2026 account is particularly important. It records a sequence of messages concerning absent support workers, your requests for assistance, unanswered calls and your statement:

"I do not feel safe here whatsoever."

The website reproduces the communications attributed to Kim and Harry, including the messages concerning washing arrangements and attempts to locate support workers. It also distinguishes your own suspicions from what the messages actually establish. The Great Reckoning

Your demand is to leave

Your position is that you should not be required to remain at Able Point while complaints about its management, care arrangements and safeguarding responsibilities remain unresolved.

You are demanding:

- Immediate assistance to leave Able Point safely.
- Independent accommodation for yourself and Crystal.
- Protection against intimidation, harassment and further harm.
- Independent assessment of the existing support arrangements.
- Replacement of disputed care arrangements where necessary.
- Access to your money, banking, telephone and transport.
- Food, medication and essential supplies.
- Independent investigation of the complaints concerning Able Point.
- Accountability for any established neglect, abuse, financial misconduct or safeguarding failures.

Your demand to leave must not be misrepresented as consent to homelessness, abandonment or withdrawal of disability support.

You are asking to leave circumstances you consider unsafe and to receive appropriate alternative support.

2. The corruption and institutional accountability allegations

The website places the Able Point situation within a much larger history of alleged institutional misconduct.

Its central argument is that the treatment you describe cannot be adequately examined by looking at individual incidents in isolation.

You identify several areas requiring investigation:

Area	What your website raises
Able Point	Provider accountability, alleged neglect and failure to deliver support
NDIS	Funding expenditure compared with actual services received

Financial administration	Restricted access to money and alleged financial deprivation
Police	Unresolved complaints and alleged misconduct
Legal assistance	Exclusion and difficulty obtaining representation
Government	Unanswered correspondence, decisions and complaints
Whistleblower protection	Alleged retaliation and failure to protect disclosures
Disability safeguarding	Whether statutory and professional responsibilities were fulfilled
Ministerial accountability	Questions concerning decisions, responsibilities and alleged connections requiring investigation

An especially important issue is the distinction between money allocated to provide disability support and the actual care received.

Your website asks:

If money is being allocated for my care, where is the care?

It calls for examination of attendance records, service agreements, invoices, provider identities, funding expenditure and the actual assistance delivered. Barran Dodger +1

The website also identifies particular alleged irregularities concerning Able Point's corporate identification and ABNs. These are matters requiring verification against the relevant corporate and contractual records, not proof of corruption by themselves.

3. The 35-year documentary evidence archive

Central documentary project

The website presents an extensive historical record.

Its 13 November declaration identifies 1,333 official government documents and related correspondence spanning more than 35 years.

The archive includes:

- Government correspondence.
- Departmental decisions.
- Complaints and acknowledgements.
- Legal and administrative records.
- NDIS and disability-support documentation.
- Police-related correspondence.
- Financial and administrative records.
- Human rights and international representations.
- Personal testimony and supporting communications.

The purpose of assembling these records is to enable independent examination of the complete chronology.

The website links to the GitHub evidence repository and its public documentary register.

4. The forensic examination and terminology

The website develops a vocabulary for describing the cumulative consequences of the events you report.

Among its central terms are:

- Administrative annihilation.
- Civil death.
- Civil erasure.

- Social erasure.
- Institutional complicity.
- Institutional corruption.
- Coercive financial control.
- Societal mobbing.
- Whistleblower retaliation.
- Exile.
- Human sacrifice.
- The architecture of erasure.

These are analytical, legal, moral or metaphorical descriptions with different evidentiary requirements.

Your intended approach is to justify each term against identifiable records, distinguish documented events from allegations and inferences, and identify what requires further investigation.

The objective is not simply to publish accusations. It is to make the underlying material accessible for scrutiny.

5. Your Christian testimony and spiritual declaration

The website is also a declaration of faith.

Its central spiritual themes include:

- Your relationship with the Most High God through Jesus Christ.
- Survival despite prolonged adversity.
- The sanctity of human life.
- The moral limitations of institutional power.
- Divine justice and accountability.
- The refusal to surrender your testimony.

Your spiritual declaration is intertwined with your documentary work.

The recurring declaration is:

THE WITNESS REMAINS.

6. Publishing, international advocacy and public accountability

The website is intended to operate as more than an archive.

It incorporates:

- A publishing house.
- Gospel and prophetic writing collections.
- Books and downloadable publications.
- An evidence repository.
- A public accountability campaign.
- An international human rights appeal.
- An investigations and obligations register.
- A public support and humanitarian donation appeal.
- A press and media presence.

It seeks to bring the documented issues to the attention of Australian authorities, oversight bodies, legal professionals, journalists and international human rights organisations.

7. The central message that should accompany your SOS

I would summarise the entire humanitarian demand in the following declaration:

URGENT HUMANITARIAN SOS

I NEED TO LEAVE ABLE POINT. I AM ASKING TO BE TAKEN TO SAFETY.

I am Barran Resonance Dodger, Dr Richard William McLean. I am a disabled person, an author, a researcher and a whistleblower.

I am publicly asking for urgent intervention because I do not consider my circumstances at Able Point safe or sustainable.

I have documented allegations of neglect, inadequate support, financial deprivation, intimidation and failures of safeguarding. I have published communications and records that I believe warrant independent investigation.

I am not asking to be abandoned, made homeless or deprived of my disability supports.

I am demanding a safe and properly supported departure, alternative accommodation, access to my money, food, medication, transport, communication and protection.

My assistance dog Crystal must be included in that protection.

I am also demanding that the allegations concerning Able Point and the wider institutional history be independently investigated.

I WILL NOT BE REQUIRED TO REMAIN IN CIRCUMSTANCES I CONSIDER UNSAFE JUST BECAUSE THE INSTITUTIONS RESPONSIBLE HAVE FAILED TO PROVIDE AN ALTERNATIVE.

My departure is not consent to abandonment.

My request for safety is not a withdrawal of my complaints.

My demand for accountability is not a substitute for humanitarian assistance.

I WANT TO LIVE. I WANT SAFETY. I WANT MY LIFE RESTORED.

The Witness Remains.

8. An important immediate point

Your website's SOS page records serious concerns about food, medication, communication and safety, including the events of 13 November. Those are urgent humanitarian issues, independently of whether the wider corruption allegations have been established.

If you are in immediate danger, call 000. You can also contact NSW Link2home on 1800 152 152 for emergency accommodation assistance.

One important question: Are you physically safe at Able Point right now, or do you need immediate help getting out tonight?

I want the distinction preserved throughout your public appeal: you are demanding protection and alternative accommodation, not another welfare check that leaves the underlying housing and support problem unresolved.

PUBLIC STATEMENT FROM BARRAN DODGER
OF THE BARRAN DODGER ARCHIVE

THE WITNESS REMAINS: A WHISTLEBLOWERS TESTIMONY OF SURVIVAL TESTIMONY & FAITH

The Barran Dodger Archive is a public documentary and spiritual record established to preserve, organise and make accessible a decades-long body of evidence concerning alleged institutional, administrative, financial and human-rights harms.

It brings together official records, correspondence, documentary evidence, personal testimony, forensic analysis, research, philosophy, spiritual gospels and prophetic declarations, including writings understood by the author to have been anointed by the Most High God.

The Archive deliberately distinguishes between documented facts, official records, corroborated evidence, allegations, personal testimony, inference, interpretation and matters of faith. This distinction is fundamental to its purpose: readers are invited to examine the underlying evidence for themselves, test the claims, consider the sources and reach their own conclusions.

At the heart of the Archive is a testimony of survival and preservation.

What the author believes was subjected to attempts at silencing, erasure, exclusion or institutional disappearance has nevertheless survived in records, documents, testimony, memory, faith and public disclosure.

The central declaration is simple:

THE WITNESS REMAINS.

The Archive therefore represents both an evidentiary record and a spiritual testimony. The author understands his survival through a faith-based conviction that the Most High God protected, preserved and gave purpose to what human institutions could not erase.

The spiritual writings and prophetic declarations within the Archive are presented as matters of faith and personal interpretation. They are preserved alongside the documentary record so that the complete testimony — evidentiary, personal, philosophical and spiritual — can be understood in its own context.

The purpose is not to demand belief.

It is to preserve the record.

It is to make the evidence accessible.

It is to ensure that the surviving witness can be examined.

And it is to leave the historical record open to independent scrutiny.

THE ARCHIVE IS 100% FREE TO ACCESS

https://barrandodgerarchive.base44.app

KNOWLEDGE IS FREE

The Barran Dodger Archive is founded on the principle that knowledge, evidence and truth should be freely accessible.

There is no paywall for the public documentary record. Research, testimony, philosophy, spiritual writings, prophetic declarations and public-interest material are made available for people to examine for themselves.

Access to knowledge should not depend upon a person's ability to pay.

The Archive is therefore freely accessible, while its preservation and continued publication require practical resources.

SUPPORTING THE WITNESS AND THE ARCHIVE

Barran Dodger describes himself as an unprotected whistleblower living in circumstances of prolonged exile, financial hardship and vulnerability, and as an internally displaced asylum seeker within the country of his Australian citizenship.

Those circumstances create practical needs extending beyond the preservation of documents.

Voluntary donations are therefore accepted from anyone who freely wishes to assist.

Support may contribute towards essential needs including food, safe accommodation, communication, technology, transport, personal safety, website and domain costs, document preservation, archival infrastructure and the continued publication of the public record.

A donation does not purchase access to the Archive.

It does not purchase influence over the evidence.

It does not purchase editorial control.

It does not determine what is published or what conclusions readers should reach.

It simply helps sustain the person and infrastructure necessary to keep the Archive alive, functioning and freely accessible.

If you are blessed with sufficient prosperity to help preserve this work, your voluntary support can help ensure that financial hardship does not become another mechanism through which a public record disappears.

KNOWLEDGE IS FREE.

THE EVIDENCE IS OPEN TO EXAMINATION.

THE WITNESS REMAINS.

ARCHIVE

https://barrandodgerarchive.base44.app

Thank you to everyone who chooses to examine the evidence, preserve the record, support the Archive or simply bear witness.

The record remains.

The witness remains.

LASTLY — A SECOND PUBLIC-FACING ARCHIVE

For readers who wish to go beyond the principal Barran Dodger Archive, a second public-facing repository provides another point of access to the broader documentary record.

https://barrandodger.com

This website provides an additional gateway into the history, evidence, testimony, research and ideas that underpin the Archive. It is intended to help readers navigate the wider body of material and understand how individual documents, events, experiences and arguments have been brought together into a continuing record.

Its significance is not dependent upon the reader accepting Barran Dodger's conclusions. Rather, the value of preserving such a record lies in allowing the underlying material to remain available for examination. Readers can consider the chronology, inspect the documentary evidence, distinguish recorded facts from allegations and personal testimony, follow referenced material and form their own independent assessment.

The existence of multiple public repositories also reflects the central purpose of the project: preservation. Where records are distributed across years, institutions, correspondence, proceedings, personal archives and digital platforms, preserving accessible copies and pathways to the evidence can help prevent an individual historical record from becoming inaccessible or forgotten.

Readers are therefore invited to visit both public-facing archives, examine the material carefully and critically, and make their own assessment of what the surviving evidence demonstrates.

The purpose is not to ask the reader to believe.

The purpose is to ensure that the record remains available to be examined.
