I exist. That is a problem for the government.

The opening is a menu, not a finished chapter: an unfinished catalogue, a Stripe donation notice, and a demand that every minister resign or else acknowledge the record and order an independent investigation. A bank line says NetBank was removed in error on 3 November. The writer says he refused to die in the ashes of human betrayal and chose to rise rather than disappear.

PDF EPUB

My rise can't be stopped

Dated 12 November 2026, the page calls Barran Dodger's testimony the gospel of the great reckoning and the prophecy of the unerased, and it says the page is not a court. In the book of the opened record, years stand in a line, holding dates, signatures, reference numbers, correspondence, decisions, and office names.

Scrolls of Affliction

The Living Scroll of the Unkillable Witness

The opening calls this a multiversal testimony of Barran Dodger as final messenger, and a directive to canonize and analyse an interstellar witness record. It calls the scroll legally, spiritually, philosophically, cosmologically, ethically, and multidimensionally unprecedented, gathering every sacred framework known and others not yet imagined.

PDF EPUB

Prophecy II

It is advice for proving Barran's material: leave narrative for a dossier, white paper, or legal brief, and set the evidence against the claims. The suggested abstract would say prophecy, long dismissed as myth, is confirmed by geometric, linguistic, and symbolic continuity across civilizations and technologies.
