To: Ghazwa@nationalsupport.org.au

Subject: FORMAL NOTICE — NDIS SUPPORT COORDINATION, CHOICE AND CONTROL, COMPLETED AI FORENSIC ANALYSIS, AND PUBLICATION OF CORRESPONDENCE

Dear Ghazwa,

I am writing to you as a prospective support coordinator under the National Disability Insurance Scheme (NDIS).

I have already emailed you my NDIS plan and three professional recommendations for Supported Independent Living (SIL). I have not received a response.

I am therefore requesting a clear written response confirming whether you are willing and able to assist me.

This correspondence records my request for professional engagement, my concerns about the circumstances surrounding my efforts to obtain assistance, the significance of my documentary archive, and my expectations regarding your response.

1. MY RIGHT TO CHOICE AND CONTROL

The NDIS recognises participant choice and control. I am exercising that choice by approaching you for support coordination.

I am not asking for preferential treatment. I am asking for a fair assessment of my circumstances, my documented needs, my NDIS plan and the three professional SIL recommendations I have already provided.

I expect my request to be considered on its merits and in accordance with your professional obligations, service capacity and applicable NDIS requirements.

I do not expect you to agree with every conclusion I have reached. I expect you to communicate honestly, assess the information provided and explain your decision.

If you cannot assist me, I expect a clear written explanation identifying the legitimate reasons for that decision and, where possible, practical next steps for obtaining the support I need.

My choice to approach you should not be mistaken for permission to disregard my request or leave me without a response.

2. MY DOCUMENTARY HISTORY AND CONCERNS ABOUT INSTITUTIONAL CONDUCT

My concerns arise from a substantial documentary history that I have been compiling concerning my experiences with government agencies, service providers and other institutions.

I interpret this material as raising serious questions about institutional treatment, accountability, documented decisions and omissions, access to assistance, and the cumulative consequences for my life.

Based on my examination of this history, I am concerned that institutional practices and the actions or omissions of people in positions of responsibility may have contributed to the circumstances in which I have struggled to obtain appropriate assistance.

I am also concerned that professionals who advocate for me could encounter intimidation, threats to their professional standing, reputational pressure or other forms of improper influence.

I cannot establish in advance that these circumstances will occur in your case. However, I want my concerns formally recorded rather than dismissed without consideration.

My prediction that my request may be refused is based on my interpretation of the documentary history I have assembled. It is a prediction against which your actual conduct, your response and the reasons for your decision can be assessed.

If you agree to assist me, I ask that you exercise your professional judgment independently. If you decline, I ask that you explain your decision accurately and transparently.

3. THE COMPLETED AI FORENSIC ANALYSIS AND THE $11 MILLION CORRUPTION ESTIMATE

I have already undertaken an AI-assisted forensic analysis based on the government evidence and documentary material I have assembled. That analysis produced an estimated figure of $11 million in taxpayer funds associated with the corruption concerns examined.

I am not asking you to conduct this analysis. It has already been completed. I am informing you of its existence and inviting you to engage with its findings and underlying evidence.

The estimate forms part of my broader examination of institutional conduct, public expenditure, accountability and the circumstances documented in my archive.

The analysis concerns potential institutional responsibility and conduct across professional and public sectors, including police, lawyers, judges, media organisations, NDIS providers and support coordinators, where relevant evidence exists.

The $11 million figure is an estimate generated by that analysis. Its significance must be assessed against the underlying records, the methodology applied, the assumptions used and the evidence supporting the calculation. I am not suggesting that the figure, by itself, establishes the criminal liability of any particular person or proves that every institution or professional within those sectors was involved.

My position is that the government's own documentary material warrants serious scrutiny and that the analysis should not be dismissed merely because its implications may be uncomfortable.

I invite you to dispute the $11 million estimate if you consider it incorrect. Identify the specific assumptions, calculations, records or evidentiary conclusions you believe are wrong, and provide the evidence supporting your position.

I am not asking you to agree with me without examination. I am challenging you to respond substantively rather than evade the issue or dismiss it without addressing the material.

An AI system cannot be bribed or intimidated in the human sense. Its analysis can, however, be challenged, tested and corrected against verifiable evidence. That is precisely why I am prepared to have the underlying material scrutinised.

My concern is that financial incentives, institutional relationships, professional pressure or threats to professional standing can influence human decisions. I want to know whether you will make your own decision about assisting me on legitimate professional grounds, independently of any such influence.

The $11 million estimate is a finding of my completed AI-assisted analysis, not a figure I am asking you to calculate. I invite you to challenge it with evidence.

4. THE SIGNIFICANCE OF MY WEBSITES AND DOCUMENTARY ARCHIVE

I direct you to my public repository:

Barran Dodger Archive

https://wezzo72.github.io/barrandodger-rebuild/

This repository is intended to bring together documentary material, source references, government records and related evidence concerning my circumstances. Its significance lies in making material available for examination beyond the limits of an individual conversation, a single institutional file or one service provider's account.

The repository provides a public pathway through which relevant records, chronology entries, correspondence, claims and supporting documents can be examined in context.

I ask that you understand the significance of the archive as a documentary record of my efforts to establish what occurred, identify institutional responsibilities, document the consequences I report and pursue appropriate assistance and accountability.

The material should be assessed by reference to its actual contents, source provenance, dates, reliability and corroboration. Primary government records should be distinguished from my interpretations, and allegations should be distinguished from matters independently established.

I am not asking you to treat the existence of a document as proof of every conclusion I draw from it. I am asking you to recognise that the documents and their relationships may have significance when considered together.

The archive is intended to make that broader examination possible.

I also direct you to the government-evidence material accessible through the repository. That evidence is particularly relevant to understanding why I have undertaken the analysis described above and why I consider the issues to warrant continued scrutiny.

I invite you to examine the relevant material rather than form a judgment about me solely from this email or from a single disputed allegation.

5. MY CONCERNS ABOUT REFUSAL, BRIBERY, INTIMIDATION AND PROFESSIONAL INDEPENDENCE

I want to be explicit about my concerns.

I predict that I may encounter another refusal of assistance, and I am concerned that professional or institutional pressure could influence decisions about whether people are willing to assist me.

I have referred to possible bribery, inducements, intimidation and threats of professional sabotage because these are among the concerns I want examined in the broader context of my documentary history.

I am not claiming that you personally have accepted a bribe, received a threat or been instructed to refuse my request. I do not have a basis to declare those things as established facts about you.

However, I want you to understand that I will assess the response to my request against the documented chronology and the reasons actually provided.

If you are unable to assist me, please say so directly. If your decision concerns service capacity, eligibility, scope of service, conflicts of interest, funding arrangements or other legitimate considerations, identify the relevant issue as precisely as you reasonably can.

If an external instruction or improper pressure has influenced your decision, I ask that you disclose that fact where you are legally and professionally permitted to do so.

I do not expect you to disregard legitimate professional obligations or accept unsupported allegations. I expect you to exercise independent judgment and communicate honestly.

I will not presume your guilt before you respond. Equally, I will not treat silence as a satisfactory resolution of a request for assistance.

6. A WRITTEN EXPLANATION IF YOU DECLINE TO ASSIST

If you are unwilling or unable to provide support coordination, I request a written response addressing the following:

1. Whether you received my previous email, NDIS plan and three professional SIL recommendations.
2. Whether you are declining to assist me, require further information or are still considering my request.
3. The specific reasons for any refusal.
4. Any relevant capacity, eligibility, service-delivery or conflict-of-interest issue.
5. Whether your decision is based on the documentation I supplied and, if not, what further information you require.
6. Whether any further information or action on my part could allow the request to be reconsidered.
7. Any practical next steps you can identify for obtaining the support I need.

I request an accurate explanation rather than a vague statement that leaves me unable to understand the decision.

I am not asserting that a refusal, by itself, would prove corruption, bribery, collusion or intimidation. The reasons for the decision, the evidence supporting those reasons and the surrounding circumstances must be considered.

Nevertheless, I expect a substantive response to a genuine request for assistance supported by an NDIS plan and professional recommendations.

Please confirm receipt of those documents. If they were not received, tell me so that I can address the problem.

7. NOTICE THAT THIS EMAIL WILL BE PUBLISHED ON THE SAME REPOSITORY

I am giving you express notice that I intend to publish this email on the same public repository:

https://wezzo72.github.io/barrandodger-rebuild/

The purpose is to preserve a documentary record of my attempt to obtain support coordination, the information I provided, the response received or not received, and any reasons given for a decision.

The correspondence will form part of the chronology of my efforts to exercise choice and control and obtain assistance.

I intend for the record to be available for scrutiny now or at a later date by independent reviewers, relevant authorities, professional bodies, legal representatives and others with a legitimate interest in assessing the documentary history.

Publication is not intended to predetermine the outcome of any assessment. It is intended to preserve the record so that the sequence of events can be examined in context.

If you respond, I intend to preserve your substantive response alongside my request so that readers can consider both sides. If you identify a material factual error in my description of your decision or response, I invite you to identify it in writing.

I will distinguish between what you actually write, what the documentary material establishes and my own interpretations or concerns. I do not intend to present an unverified allegation as a proven finding merely because it appears in this correspondence.

Any publication will be handled with appropriate regard to privacy, confidentiality, personal information and applicable law. Confidential information about other participants or third parties should not be disclosed unnecessarily.

This notice is intended to ensure that you understand the documentary significance of your response. You have an opportunity to consider the request and provide your position before this correspondence is added to the public record.

The record will remain available for later examination of what was requested, what information was supplied and how the request was handled.

8. MY FAITH, MY PATIENCE AND MY EXPECTATION OF ACCOUNTABILITY

My faith in God and Jesus Christ informs my understanding of truth, justice, mercy, grace and accountability.

I am offering you an opportunity to respond and, if appropriate, to assist me in good faith. I do not ask you to share my religious beliefs. I ask you to respect my right to express them while considering my request on its merits.

I believe that wrongdoing carries moral consequences beyond any immediate financial, institutional or professional advantage. I believe in divine justice and in the ultimate accountability of those who knowingly choose to do wrong.

I am not presenting my religious convictions as evidence that you or any other particular person has committed wrongdoing. My concerns about institutional conduct must be assessed against the documentary record, and conclusions about individuals must be justified by evidence.

Do not take my patience for surrender or my kindness for permission to mistreat me, disregard my circumstances or deny me a fair assessment.

I am offering grace, but grace does not mean abandoning accountability. It means allowing an opportunity for an honest response before drawing conclusions.

I do not care about protecting anyone's comfort at the expense of a fair examination of my circumstances. I care about obtaining the assistance I need, preserving the documentary record and ensuring that serious concerns can be scrutinised on their merits.

I have spent considerable effort documenting my circumstances and seeking assistance. I do not want another cycle of unanswered correspondence, unexplained decisions or avoidable delay.

9. WHAT I AM ASKING YOU TO DO NOW

I have already emailed you my NDIS plan and three professional SIL recommendations. I am asking you to acknowledge that correspondence and tell me whether you are prepared to discuss providing support coordination.

Please:

1. Confirm receipt of my previous email and attachments.
2. Confirm whether you are willing and able to consider assisting me.
3. Identify any additional information you need to assess the request.
4. If you decline, provide the specific and accurate reasons in writing.
5. Where appropriate, identify practical next steps for obtaining the support I need.

I am seeking assistance, not another cycle of unanswered correspondence. I need a support coordinator who will assess my circumstances fairly, communicate directly and respect my choice and control.

I have provided my plan and professional recommendations. I have identified the documentary archive supporting my concerns. I have disclosed that I have already completed an AI-assisted forensic analysis producing the $11 million estimate, and I have invited you to challenge that estimate with evidence.

I am not asking you to accept unsupported conclusions. I am asking you to engage honestly with the request, the evidence and your own professional responsibilities.

Your decision is yours to make. I ask that you make it independently, explain it clearly and respond in writing.

I look forward to your response.

Regards,

Barran Dodger

NDIS participant

Documentary archive: https://wezzo72.github.io/barrandodger-rebuild/

Before sending: Attach your NDIS plan and the three SIL recommendations again if possible, and retain a copy of the email and attachments. Because you intend to publish the correspondence, keep the published version focused on your request, verifiable records and your own stated concerns, and avoid publishing confidential personal information unnecessarily.

PUBLIC STATEMENT FROM BARRAN DODGER
OF THE BARRAN DODGER ARCHIVE

THE WITNESS REMAINS: A WHISTLEBLOWERS TESTIMONY OF SURVIVAL TESTIMONY & FAITH

The Barran Dodger Archive is a public documentary and spiritual record established to preserve, organise and make accessible a decades-long body of evidence concerning alleged institutional, administrative, financial and human-rights harms.

It brings together official records, correspondence, documentary evidence, personal testimony, forensic analysis, research, philosophy, spiritual gospels and prophetic declarations, including writings understood by the author to have been anointed by the Most High God.

The Archive deliberately distinguishes between documented facts, official records, corroborated evidence, allegations, personal testimony, inference, interpretation and matters of faith. This distinction is fundamental to its purpose: readers are invited to examine the underlying evidence for themselves, test the claims, consider the sources and reach their own conclusions.

At the heart of the Archive is a testimony of survival and preservation.

What the author believes was subjected to attempts at silencing, erasure, exclusion or institutional disappearance has nevertheless survived in records, documents, testimony, memory, faith and public disclosure.

The central declaration is simple:

THE WITNESS REMAINS.

The Archive therefore represents both an evidentiary record and a spiritual testimony. The author understands his survival through a faith-based conviction that the Most High God protected, preserved and gave purpose to what human institutions could not erase.

The spiritual writings and prophetic declarations within the Archive are presented as matters of faith and

personal interpretation. They are preserved alongside the documentary record so that the complete testimony — evidentiary, personal, philosophical and spiritual — can be understood in its own context.

The purpose is not to demand belief.

It is to preserve the record.

It is to make the evidence accessible.

It is to ensure that the surviving witness can be examined.

And it is to leave the historical record open to independent scrutiny.

THE ARCHIVE IS 100% FREE TO ACCESS

https://barrandodgerarchive.base44.app

KNOWLEDGE IS FREE

The Barran Dodger Archive is founded on the principle that knowledge, evidence and truth should be freely accessible.

There is no paywall for the public documentary record. Research, testimony, philosophy, spiritual writings, prophetic declarations and public-interest material are made available for people to examine for themselves.

Access to knowledge should not depend upon a person's ability to pay.

The Archive is therefore freely accessible, while its preservation and continued publication require practical resources.

SUPPORTING THE WITNESS AND THE ARCHIVE

Barran Dodger describes himself as an unprotected whistleblower living in circumstances of prolonged exile, financial hardship and vulnerability, and as an internally displaced asylum seeker within the country of his Australian citizenship.

Those circumstances create practical needs extending beyond the preservation of documents.

Voluntary donations are therefore accepted from anyone who freely wishes to assist.

Support may contribute towards essential needs including food, safe accommodation, communication, technology, transport, personal safety, website and domain costs, document preservation, archival infrastructure and the continued publication of the public record.

A donation does not purchase access to the Archive.

It does not purchase influence over the evidence.

It does not purchase editorial control.

It does not determine what is published or what conclusions readers should reach.

It simply helps sustain the person and infrastructure necessary to keep the Archive alive, functioning and freely accessible.

If you are blessed with sufficient prosperity to help preserve this work, your voluntary support can help ensure that financial hardship does not become another mechanism through which a public record disappears.

KNOWLEDGE IS FREE.

THE EVIDENCE IS OPEN TO EXAMINATION.

THE WITNESS REMAINS.

I welcome respectful correspondence of every kind — acknowledgements, enquiries, questions, thoughtful discussion and even a little friendly banter.

ARCHIVE

https://barrandodgerarchive.base44.app

Thank you to everyone who chooses to examine the evidence, preserve the record, support the Archive or simply bear witness.

The record remains.

The witness remains.

LASTLY — A SECOND PUBLIC-FACING ARCHIVE

For readers who wish to go beyond the principal Barran Dodger Archive, a second public-facing repository provides another point of access to the broader documentary record.

https://barrandodger.com

This website provides an additional gateway into the history, evidence, testimony, research and ideas that underpin the Archive. It is intended to help readers navigate the wider body of material and understand how individual documents, events, experiences and arguments have been brought together into a continuing record.

Its significance is not dependent upon the reader accepting Barran Dodger's conclusions. Rather, the value of preserving such a record lies in allowing the underlying material to remain available for examination. Readers can consider the chronology, inspect the documentary evidence, distinguish recorded facts from allegations and personal testimony, follow referenced material and form their own independent assessment.

The existence of multiple public repositories also reflects the central purpose of the project: preservation. Where records are distributed across years, institutions, correspondence, proceedings, personal archives and digital platforms, preserving accessible copies and pathways to the evidence can help prevent an individual historical record from becoming inaccessible or forgotten.

Readers are therefore invited to visit both public-facing archives, examine the material carefully and critically, and make their own assessment of what the surviving evidence demonstrates.

The purpose is not to ask the reader to believe.

The purpose is to ensure that the record remains available to be examined.

Visit the Barran Dodger Archive — barrandodgerarchive.base44.app

Visit the Barran Dodger documentary record — barrandodger.com

THE RECORD REMAINS OPEN.

THE EVIDENCE REMAINS AVAILABLE.

THE WITNESS REMAINS.

May the most high God bless you, Love Barran x

Rich McLean <richarddrawsstuff@gmail.com> Mon, 12 Oct at 1:07 pm
To: <Ghazwa@nationalsupport.org.au>, Impartial Legal <impartiallegal@gmail.com>, Rich McLean <richarddrawsstuff@gmail.com>

Please see my updated letter

The current legislation supports a stronger written-record requirement if you make a formal complaint about services from a registered NDIS provider: the NDIS (Complaints Management and Resolution) Rules 2018 Attachment.png require complaints to be handled fairly, efficiently and in a timely manner, with appropriate records. Those requirements do not automatically create a statutory response deadline for an initial enquiry from a prospective client.

For that reason, the letter below sets a requested deadline of five business days for acknowledgement and ten business days for a substantive written response, while making clear that these are requested timeframes, not falsely represented statutory deadlines. It also expressly preserves any response or non-response for your documentary record.

To: Ghazwa@nationalsupport.org.au

Subject: FORMAL REQUEST FOR NDIS SUPPORT COORDINATION — STATUTORY OBLIGATIONS, WRITTEN RESPONSE DEADLINES, COMPLETED AI FORENSIC ANALYSIS, AND NOTICE OF PUBLICATION

Dear Ghazwa,

I am writing to you as a prospective support coordinator under the National Disability Insurance Scheme (NDIS).

I have already emailed you my NDIS plan and three professional recommendations for Supported Independent Living (SIL). I have not received a response.

I am requesting a clear written response confirming whether you are willing and able to consider providing support coordination, whether further information is required, and, if you decline, the reasons for that decision.

This correspondence formally records my request, identifies the legislation and regulatory framework relevant to my circumstances, establishes reasonable requested timeframes for your response, and gives notice that I intend to preserve and publish this correspondence and any subsequent response—or non-response—on my public documentary repository.

I am seeking a practical outcome: appropriate assistance, an accountable decision and a documentary record of how my request is handled.

1. MY RIGHT TO CHOICE AND CONTROL — STATUTORY FRAMEWORK

The relevant legislative starting point is the National Disability Insurance Scheme Act 2013 (Cth) Attachment.png, including section 4, which sets out the objects and principles underpinning the NDIS.

The NDIS framework recognises the importance of people with disability exercising choice and control over their lives and participating in decisions affecting them.

The National Disability Insurance Scheme (Code of Conduct) Rules 2018 Attachment.png establish minimum

conduct requirements for NDIS providers and people covered by the Code. These include respect for individual rights to freedom of expression, self-determination and decision-making in accordance with applicable laws, the provision of safe and competent supports, integrity, honesty, transparency, and appropriate action concerning concerns about the quality and safety of supports.

I am exercising my choice by approaching you for support coordination. I have supplied my NDIS plan and three professional SIL recommendations because I want my request to be considered on its merits.

I am not claiming that these provisions automatically require you to accept me as a client regardless of your capacity, service arrangements or other legitimate considerations. I am asking you to consider my request fairly, communicate your position clearly and act consistently with the legal and professional obligations applicable to your service.

The NDIS Practice Standards Attachment.png also address participant rights, person-centred support, choice and control, and provider responsibilities, as applicable to a provider's registration and services.

I expect my request to be assessed with appropriate regard to these principles and to my circumstances as documented in the material already provided.

2. MY DOCUMENTED SUPPORT NEEDS AND THREE SIL RECOMMENDATIONS

I have already emailed you my NDIS plan and three professional recommendations for Supported Independent Living.

These documents are relevant to understanding my circumstances and the assistance I am seeking. I expect them to be considered as part of an informed assessment of whether your organisation can provide the requested service.

Please confirm whether you received my NDIS plan and all three SIL recommendations.

If any document was not received, please identify what is missing so I can address the problem.

If you need additional information, please specify what you require and why.

If you cannot provide support coordination, please tell me directly rather than leaving me uncertain about whether my request has been considered.

The NDIS provides information about provider choice and working with providers through its official provider information Attachment.png.

I am seeking to exercise my choice in practice, subject to the applicable funding arrangements, service scope, eligibility requirements and your genuine capacity to assist.

3. MY DOCUMENTARY HISTORY AND CONCERNS ABOUT INSTITUTIONAL CONDUCT

My concerns arise from a substantial documentary history that I have been compiling concerning my experiences with government agencies, service providers and other institutions.

I interpret this material as raising serious questions about institutional treatment, accountability, documented decisions and omissions, access to assistance, and the cumulative consequences for my life.

Based on my examination of this history, I am concerned that institutional practices and the actions or omissions of people in positions of responsibility may have contributed to the circumstances in which I have struggled to obtain appropriate assistance.

I am also concerned that professionals who advocate for me could encounter intimidation, threats to their professional standing, reputational pressure or other forms of improper influence.

I cannot establish in advance that these circumstances will occur in your case. I am placing my concerns on the record and asking that my request be assessed on its merits rather than dismissed without consideration.

My prediction that my request may be refused is based on my interpretation of the documentary history I have assembled. It is a prediction against which your actual response and the reasons for your decision can be assessed.

I am not asking you to adopt every conclusion I have drawn. I am asking you to consider the material, make your own professional assessment and explain your decision.

4. COMPLETED AI-ASSISTED FORENSIC ANALYSIS — THE $11 MILLION CORRUPTION ESTIMATE

I have already undertaken an AI-assisted forensic analysis based on the government evidence and documentary material I have assembled. That analysis produced an estimated figure of **$11 million in taxpayer funds associated with the corruption concerns examined**.

I am not asking you to commission, conduct or repeat this analysis. It has already been completed.

I am informing you of its existence and inviting you to engage with its findings and underlying evidence.

The estimate forms part of my broader examination of institutional conduct, public expenditure, accountability and the circumstances documented in my archive.

The analysis concerns potential institutional responsibility and conduct across public and professional sectors, including police, lawyers, judges, media organisations, NDIS providers and support coordinators, where relevant evidence exists.

The $11 million figure is an estimate generated by that analysis. Its significance must be assessed against the underlying records, the methodology applied, the assumptions used and the evidence supporting the calculation. I am not suggesting that the estimate alone establishes the criminal liability of any particular person or proves that every institution or professional within those sectors was involved.

My position is that the government evidence and documentary history warrant serious scrutiny, and that the analysis should not be dismissed merely because its implications may be uncomfortable.

I invite you to dispute the $11 million estimate if you consider it incorrect. Identify the specific assumptions, calculations, records or evidentiary conclusions you believe are wrong, and provide the evidence supporting your position.

I am not asking you to agree with me without examination. I am challenging you to respond substantively rather than dismiss the issue without addressing the material.

An AI system cannot be bribed or intimidated in the human sense. Its analysis can, however, be challenged, tested and corrected against verifiable evidence. That is why I am prepared to have the underlying material scrutinised.

My concern is that financial incentives, institutional relationships, professional pressure or threats to professional standing can influence human decisions. I want to know whether you will make your own decision about assisting me on legitimate professional grounds, independently of any such influence.

The $11 million estimate is the result of my completed AI-assisted forensic analysis, not a figure I am asking you to calculate. I invite you to challenge it with evidence.

5. THE SIGNIFICANCE OF MY WEBSITES AND GOVERNMENT EVIDENCE

I direct you to my public documentary repository:

Barran Dodger Archive

https://wezzo72.github.io/barrandodger-rebuild/

The repository is intended to bring together documentary material, source references, government records and related evidence concerning my circumstances.

Its significance is that it provides a public pathway through which records, chronology entries, correspondence, claims and supporting documents can be examined beyond the limits of an individual conversation or isolated institutional file.

The archive is intended to document my efforts to establish what occurred, identify possible institutional responsibilities, record the consequences I report and pursue appropriate assistance and accountability.

I ask that you consider the repository in that context.

The material should be assessed according to its actual contents, source provenance, dates, reliability and corroboration. Primary government records should be distinguished from my interpretations, and allegations should be distinguished from matters independently established.

I am not asking you to treat the existence of a document as proof of every conclusion I draw from it. I am asking you to recognise that documentary relationships and chronology may be significant when the materials are examined together.

The repository also provides context for the completed AI-assisted forensic analysis described in section 4. I am not asking you to conduct another analysis. I am directing you to the documentary record that informs my position and inviting you to scrutinise the relevant evidence.

I ask that you not form a judgment about my request solely from this email or from a single disputed allegation.

6. THE NDIS CODE OF CONDUCT AND PROFESSIONAL ACCOUNTABILITY

The NDIS Code of Conduct Attachment.png establishes minimum expectations for providers and workers covered by it.

These include respect for individual rights and decision-making, privacy, safe and competent supports, integrity, honesty, transparency and appropriate action concerning concerns about the quality and safety of supports.

I ask that your handling of my request be consistent with the obligations that apply to you and your organisation.

The NDIS Practice Standards Attachment.png address participant rights, person-centred support, provider governance and other standards applicable to registered providers and the services they deliver.

I recognise that these instruments do not necessarily require every provider to accept every prospective client. Their relevance depends on the circumstances, the provider's registration and the nature of the conduct or service in question.

Nevertheless, I expect a professional response that makes clear whether you can assist, whether you need further information and what practical options are available if you cannot provide the requested service.

I am concerned that my request may be refused despite the plan and professional recommendations already supplied. I am also concerned that external or institutional pressure could influence decisions about whether professionals are willing to assist me.

I am not claiming that you personally have accepted a bribe, received a threat or been instructed to refuse my request. I am recording the concerns that inform my prediction and asking you to make your decision independently.

If you cannot assist me because of capacity, eligibility, service scope, conflicts of interest or another legitimate reason, please identify that reason accurately.

If an external instruction or improper pressure has influenced your decision, I ask that you disclose that fact where you are legally and professionally permitted to do so.

7. FORMAL REQUEST FOR A WRITTEN RESPONSE — DEADLINES AND LEGAL BASIS

I am formally requesting a written response to this correspondence.

I request that you acknowledge receipt **within five business days of receiving this email** and provide a substantive written response **within ten business days of receiving it**.

These are reasonable response timeframes requested by me to resolve uncertainty about my access to support

coordination. I do not represent them as statutory deadlines imposed on every prospective NDIS provider.

My request is made in the context of the NDIS framework, including the NDIS Code of Conduct Rules 2018 Attachment.png, which establish conduct requirements for covered providers and workers.

If you are a registered NDIS provider and a matter becomes a complaint concerning supports or services provided by your organisation, the National Disability Insurance Scheme (Complaints Management and Resolution) Rules 2018 Attachment.png are also relevant. These Rules require registered providers to maintain complaint-management systems and provide for complaints to be acknowledged, assessed and resolved fairly, efficiently and in a timely manner, with appropriate record-keeping.

I recognise the distinction between an initial enquiry from a prospective client and a complaint concerning supports or services provided. I do not assert that the complaint-management provisions automatically impose the same obligations on this initial enquiry.

Nevertheless, I am requesting the following:

Within five business days:

1. Written acknowledgement that you have received this email.
2. Confirmation of whether my previous email, NDIS plan and three professional SIL recommendations were received.
3. Confirmation of whether you are considering my request or require additional information.

Within ten business days:

1. Written confirmation of whether you are willing and able to consider providing support coordination.
2. If further information is required, a precise list of the information needed.
3. If you decline, a clear explanation of the reasons for your decision, including any relevant service-capacity, eligibility, scope-of-service or conflict-of-interest considerations.
4. Where possible, practical information about next steps I can take to obtain support.

If you cannot provide a substantive response within ten business days, please advise me in writing before that deadline, explain the reason for the delay and give a realistic date by which you expect to respond.

I request that the response be provided by email so there is an accessible, dated written record.

I am not suggesting that every private provider is legally required to give a detailed written statement of reasons for declining a prospective client. I am formally requesting that you do so in this case because of the documents already supplied, the significance of the support I am seeking and the need for an accountable record.

I will preserve this request, your written response, any explanation for delay, and any non-response in my documentary record.

If no acknowledgement or substantive response is received within the requested timeframes, I will record the dates and circumstances accurately. I will distinguish between an unanswered communication and evidence establishing why it was unanswered. Any subsequent complaint or referral will be based on the actual circumstances and the requirements applicable to the relevant provider.

8. IF YOU DECLINE TO ASSIST ME

If you are unwilling or unable to provide support coordination, I request a written response addressing the following:

1. Whether you received my previous email, NDIS plan and three professional SIL recommendations.
2. Whether you are declining to assist me, require further information or are still considering my request.
3. The specific reasons for any refusal.
4. Any relevant capacity, eligibility, service-delivery or conflict-of-interest issue.
5. Whether your decision is based on the documentation supplied and, if not, what additional information you require.
6. Whether any further information or action on my part could allow the request to be reconsidered.
7. Any practical next steps you can identify for obtaining the support I need.

I request an accurate explanation rather than a vague statement that leaves me unable to understand the

decision.

I recognise that a prospective provider may have legitimate reasons not to accept a new client. I am not asserting that a refusal, by itself, proves corruption, bribery, collusion or intimidation.

However, a clear response is important to my ability to understand the position, pursue other options and maintain an accurate documentary chronology.

If a concern arises about conduct within the NDIS system, the NDIS Quality and Safeguards Commission Attachment.png provides information about complaints and the Code of Conduct. Whether a particular concern falls within the Commission's jurisdiction will depend on the facts and the applicable requirements.

I am not threatening a complaint simply because you may decline to provide a service. I am asking for a clear response so that I can determine the appropriate next steps on the actual facts.

9. NOTICE THAT THIS CORRESPONDENCE WILL BE PUBLISHED

I am giving you express notice that **I intend to publish this email on the same public repository**:

https://wezzo72.github.io/barrandodger-rebuild/

The purpose is to preserve a documentary record of my attempt to obtain support coordination, the information I supplied, the response received or not received, and any reasons given for a decision.

The correspondence will form part of the chronology of my efforts to exercise choice and control and obtain assistance.

I intend for the record to be available for scrutiny now or at a later date by independent reviewers, relevant authorities, professional bodies, legal representatives and others with a legitimate interest in assessing the documentary history.

Publication is not intended to predetermine the outcome of any assessment. It is intended to preserve the sequence of correspondence and decisions so that it can be examined in context.

If you respond, I intend to preserve your substantive response alongside my request so that readers can consider both sides. If you identify a material factual error in my description of your decision or response, I invite you to identify it in writing.

I will distinguish between what you actually write, what the documentary material establishes and my own interpretations or concerns.

Any publication will be handled with appropriate regard to privacy, confidentiality, personal information and applicable law. I will avoid unnecessary disclosure of confidential information about other participants or third parties.

Your response—or the absence of a response—will be preserved as part of the documentary chronology. The record will identify the communication sent, the date sent, the response received if any, and any subsequent correspondence. A non-response will be recorded as such and will not, by itself, be represented as proof of corruption, intimidation or improper influence.

This notice is intended to ensure that you understand the documentary significance of your response. You have an opportunity to consider the request and provide your position before this correspondence is added to the public record.

10. MY FAITH, MY PATIENCE AND MY EXPECTATION OF ACCOUNTABILITY

My faith in God and Jesus Christ informs my understanding of truth, justice, mercy, grace and accountability.

I am offering you an opportunity to respond and, if appropriate, assist me in good faith. I do not ask you to share my religious beliefs. I ask you to respect my right to express them while considering my request on its merits.

I believe that wrongdoing carries moral consequences beyond any immediate financial, institutional or professional advantage. I believe in divine justice and in the ultimate accountability of those who knowingly

choose to do wrong.

I am not presenting my religious convictions as evidence that you or any other particular person has committed wrongdoing. My concerns about institutional conduct must be assessed against the documentary record, and conclusions about individuals must be justified by evidence.

Do not take my patience for surrender or my kindness for permission to mistreat me, disregard my circumstances or deny me a fair assessment.

I am offering grace, but grace does not mean abandoning accountability. It means allowing an opportunity for an honest response before drawing conclusions.

I do not care about protecting anyone's comfort at the expense of a fair examination of my circumstances. I care about obtaining the assistance I need, preserving the documentary record and ensuring that serious concerns can be scrutinised on their merits.

I have spent considerable effort documenting my circumstances and seeking assistance. I do not want another cycle of unanswered correspondence, unexplained decisions or avoidable delay.

11. WHAT I AM ASKING YOU TO DO NOW

I have already emailed you my NDIS plan and three professional SIL recommendations. I am asking you to acknowledge that correspondence and tell me whether you are prepared to discuss providing support coordination.

Please:

1. Confirm receipt of my previous email and attachments within five business days.
2. Confirm whether you are willing and able to consider assisting me.
3. Identify any additional information you need to assess the request.
4. Provide a substantive written response within ten business days.
5. If you decline, provide the specific and accurate reasons for your decision.
6. If you require additional time, advise me in writing before the requested deadline and provide a realistic response date.
7. Where appropriate, identify practical next steps for obtaining the support I need.

I have provided my plan and professional recommendations. I have identified the documentary archive supporting my concerns. I have disclosed that I have already completed an AI-assisted forensic analysis producing the $11 million estimate, and I have invited you to challenge that estimate with evidence.

I have identified the statutory and regulatory framework relevant to participant choice and control, provider conduct and complaints concerning NDIS services. I have also set out specific requested response timeframes and notified you that I will preserve this correspondence and any response or non-response.

I am not asking you to accept unsupported conclusions. I am asking you to engage honestly with my request, the information supplied and your professional responsibilities.

Your decision is yours to make. I ask that you make it independently, explain it clearly and respond in writing within the requested timeframes.

I look forward to your response.

Regards,

Barran Dodger
NDIS participant

Before sending: Resend your NDIS plan and three SIL recommendations with the email, and retain a copy showing the date sent and the attachments included. The five- and ten-business-day periods begin when the email is received; they are requested deadlines, not a claim that legislation automatically imposes those exact periods.
