Yes, I am reporting a Commonwealth crime

Hi I am the victim of a malicious conspiracy to maim me financially and I have been publicly shamed and my reputation destroyed. I am bankrupt and squatting. I recently (March) suicided in Werribee mercy hospital where I was illegally incarcerated. The FOI from the hospital says the suicide attempt was quote 'fatal'. I should be dead so: I am reporting my own death because I was found with no observable pulse and unresponsive. I want you to a) acknowledge this happened b) examine why on earth there is a malicious conspiracy to maim me again and I have been banned from complaining to Werribee mercy, the office of the information commissioner HCC and the mental health complaints commissioner. Additionally, I have been banned from AHPRA, banned from my insurer HCF and banned from making complaints to banks and additionally being held to ransom by AFCA where I have a million dollars of overdue determinations but they have threatened that if I do so much as email them or call them they will drop them all. I'm banned from 2 clinics and the mental health unit that was supposed to look after me. I saw me with a psychiatrist only twice - once three months after hospital and once seven months after - to officially kick me out. This is illegal and like all the rest is a systemic conscious and malicious attempt that I may again for the fourth time lucky end my life. I can't even go to the police. I bet you will do sweet FA so I may kill someone (might be me). I'm hungry. I may kill again. I've never hurt anyone except myself. I'm not suicidal. Report that to the police - and also I will give you the FOI saying I died and then evidence of the cover-up with the intent of killing me again. Investigate it. A systemic conscious malicious conspiracy to pervert the course of justice is at stake. I also deal pounds of heroin to survive. What do you want me to do pick money off my tree in the back yard? I have millions of dollars in compensation waiting in income assist, workcover, litigation, conciliation - but they all want me dead. It is illegal to die when you are under care in a hospital - only then for it to be covered up and me shamed, vilified, identified, victimised, gaslighted, ignored and blacklisted. Imagine that was you. You'd probably f&^%ing kill someone.
