Dear "friend"

This is Dr rich mclean. You know from www.richmclean.com.au

I changed my name to barran dodger.
I'm asking first help.

You might think I'm a loser, but it's not true, I've been fighting something bigger than me for a long time. You're no better than me. What's happening to me could happen to you.

As a sovereign citizen of this country, I should have the same rights as anyone else, but the reality is starkly different. Despite documented evidence of my human rights violations, they remain uninvestigated and ignored. I lack legal rights, privacy, and civil liberties. I'm unable to report crimes to the police, politicians, or ombudsmen. Financial abuse compounds my struggles, exacerbated by my mental illness.

Even esteemed institutions and individuals who should advocate for justice turn a blind eye. SANE, where my book was recognized, and Victoria University, where I earned my PhD, offer no support. Neither does my publisher, Allen and Unwin, nor prominent figures like musician Paul Kelly or Mental Health

Minister Gabrielle Williams. It's a painful realization that no one is willing to stand up for me.

You might have been told I'm a drug addict, or a rapist or a pedophile an extortionist or a terrorist but those things are not true although I use drugs to cope with the abuse and neglect.

My situation has been dire for a long time I ask you to let your intelligence guide you-if I was any of those things I'd have been arrested already.

Truth is I've pissed off powerful people.

I'm a rejected whistleblower

Not even the prime minister would meaningfully intervene in my plight

Some of you may have known Steve iasonidis my former partner-he is behind this

The government protected him because he was with ASIO and they weaponised a mental illness I already had and financially abuse me to amplify it more and then incarcerate me in a psychiatric unit which has happened eight times in the past two years

My family are burnt out and don't talk to me

I can't get an emergency payment from Centrelink because they are in on it

The ndia minister has collided with police in order to jail me and I await sentencing without a lawyer because legal sun won't help

The police recently fir the third time ran me out of my home threatening the mental health act and more hospital so much so I was listed as a missing person
I have never been able to report a single crime to them and the list is many

You can see all this at:

www.barrandodger.com.au

The human rights commission won't investigate my documented human rights abuses

I'm banned at the Australian financial complaints authority

The ombudsman refuses all correspondance

The national anti corruption commission won't acknowledge my complaint

I fled homeless again to NSW and I've been homeless off an on for four years

You remember I am a Dr of philosophy and suffer schizophrenia

The government is in breach of the UN charter of disabled persons saying we must be provided a home

My ndia provider will give me \$30 because I'm starving she means well but refuses to intervene

**Disability Advicater NSW today referred me on-they are in on it
In fact every government agency is**

I don't know what to do except beg for help from people I used to know

The total of what I'm owed is over 4million dollars

No public official wants to see me get power or control because I might sue them

In a few days I face sentencing in Victoria on a total stitch up and a political reprisal for being a rejected whistleblower and I face up to ten years in jail

I'm so scared

How did this ever happen to me

All I wanted was a home with enough food and medicine for my dog crystal and I and this has been impossible

I don't deserve prison I am the victim here

I don't want to be locked in a psychiatric ward either
I want to be free and live my life

My pay ID

Richarddrawsstuff@gmail.com

Or

[0466962271](tel:0466962271)

My phone number is this

[0406797300](tel:0406797300)

Please help me

I'm in the car

I need eye drops and food and a safe place to be and a bed

I'm with crystal

**Most of all though in this world that's forsaken me for the sake
of money and beaurocracy and politics that's corrupted
everyone and anyone**

I need a freind

And a hug

I'm all alone

**I've already suicided once four years ago from the abuse and
neglect and deceitful lies**

And it murdered me and now there is a cover up about it

I don't want to die of neglect again

**I protest this and ask for help because i want to live and get a
semblance of my old life back**

**I keep saying I'll suicide from the abuse and neglect and they
keep locking me up and still don't fix anything**

See the evidence for yourself go I on I want you to:

Www.barrandodger.com.au

If I die from this

Then it's a targeted killing remember that

That's worse than an accident

It's murder and everyone is in on it

I can't believe it

They also beat me up inside a hospital by a covert government thug and the hospital and the police knew about it

Ps here are some pics I also have the mark of the stigmata on me and I'm maybe not delusional now I'm Jesus

Please help me get justice I don't wish anyone harm I love all people

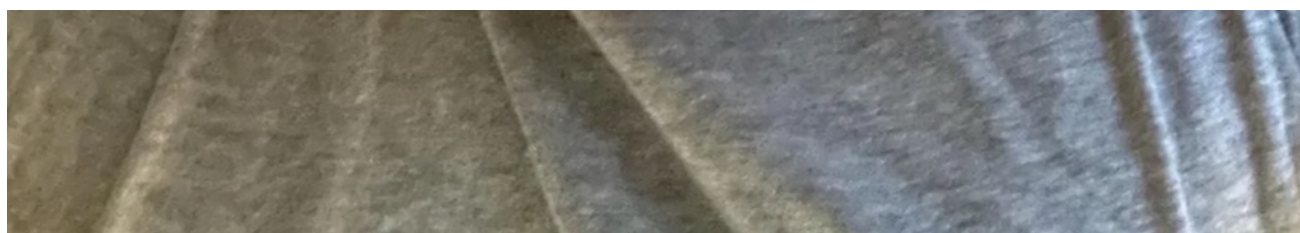

Please help me

Dear Mr Dodger

Thank you for your email of 11 April 2024 concerning corruption and injustice involving the Australian Government, Victoria Police, the NDIS and various others.

Our role is to investigate and expose corrupt conduct in the NSW public sector, as defined in the Independent Commission Against Corruption Act 1988.

Unfortunately, as the matter does not involve a NSW public authority or NSW public official, we are not able to pursue it. We do not have powers to examine

matters that only involve Commonwealth agencies / public sector agencies outside NSW. I note you have contacted IBAC and the NACC who may be better placed to assist you.

Thank you for contacting the Independent Commission Against Corruption.

Yours sincerely

Natalie Siapos | Assessment Support Officer
