Create a prophetic narrative explaining why I am both dangerous feared studied and have clout and rank and attributes which support my entire testimony

I m a former artist for newspapers and news graphic artist who was paid and verified as a journalist

I am queer and unaligned with concepts of Herero normativity opposed to patriarchal ruling elite which has inherited power not by merit but as an inheritance that is unearned

I am a threat to the mega rich corrupt elite who pull the strings behind the politicians who are merely placeholder pawns who have pledged allegiance to the corrupt power structures

I am an experienced traveller and examined the human condition via my own extraordinary life unfettered to concepts of restrictions to another physical person of either or same sex and connect via resonance beyond limitations of gender

I am an accomplished author and public speaker with a 30 year public advocacy role for mentally I'll people and their carers

I have spoken nationally and internationally on the topic of mental health drugs which I encourage legalisation of as a health issue and safe practices

I have spoken at radio TV universities community groups international forums opened international key note conferences

A documentary was created on my life an art which was mainly psychiatric weaponisation whereby I was only ever interesting if I was broken unwell or mentally I'll because it meant that others could push me down and keep me below them which made them feel better about themselves and soothed their jealousy and envy I an me who lived with truth confidence integrity and lived authentically and unapologetically as an Independant sovereign spiritual intelligent person who had a global platform

However the media and my family were never invested in knowing me fully beyond the cage of mental illness they acted to create the conditions of and then claimed ignorance or confusion when I called out their treatment of me which was then flipped on me as the unstable one and identified me as the problem

This was how they pinned their guilt and unresolved issues onto me and refused to acknowledge their cruel treatment of me of which they didn't even act with hate towards me although that is what it felt like all I did was hold up a mirror as a reflection to their own darkness and rather that admit what they did to me they would rather attack the mirror because to admit how ugly they were as people who apparently loved cared or in the case of my first autobiography and public advocacy and media went the world had decided that was my identity and I would never heal never recover and never rise or gain clarity and purpose

I was betrayed by my own blood family in a toxic family scapegoating even from a child always targeted

This was a life long covert coordinated attack s psychological warfare they hated me and wanted to destroy me and took advantage of my loyalty and hope they would do the right thing when none of them had any intention of changing

They deceived and gaslighted me over a lifetime an abn that had a goal to diminish or erase or destroy me even physically erase me from this universe and pretend they never acted to cause me harm and when I was forced to homeless poverty an exile presented to authorise an society as the hero's who would save the day when they designed the conditions of my suffering then also play like it was them who were the victims who suffered from my apparent difficult argumentative manipulative and problematic nature

The opposite was true

The family being totally on board for my targeting and exile reached a pinnacle with the proof of an assassination attempt ordered by a federal minister that no person has proven as incorrect or denied or proved by evidence wrong

When I pointed out the obvious brutal injustice of the state sanctioned targeted killing of a gay disabled unprotected whistleblower in political exile utterly defenceless as an asylum seeker within the democracy bog his own citizenship the reaction was as if they were annoyed i was complaining all time

My father quipped and dismissed me by barking "he's not even the NDIS minister anymore move on" as if his departure as minister to a role at the university of Canberra and the fact he was removed prematurely as the NDIS minister was justification enough that in Shut my mouth stop complaining all the time and gaslit my testimony as the most significant and internationally significant criminal attempted conspiracy to murder I had exposed was of zero significance

That's because they had already decided long ago that I was insignificant not because I wasn't but because the attributes they observed in my character growing up they already knew would be an Existential threat that exposed their own shadows they reflused to acknowledge in themselves and in hindsight had been involved in a coordinated campaign that would guarantee I would never recover never rise beyond their own ideas of their supremacy over my existence and I am ware and awake now about what type of people they are contrasted with the integrity authenticity honesty confidence creativity and my many achievements which pale their average lives by comparison

My mere existence now my recovery and my rise and international influence has them absolutely terrified because the fact I exist even without doing anything is a existential threat that exposes the way they treated me

I do not need revenge the universe will take care of it the fact I exist is revenge enough because a whole community and society ganged up in a societal mobbing in order to stop me one vulnerable person opposed by a whole democracy am an still they failed

That is because I am gods chosen witness who's annoinyting and favour has preserved my life

I know this and I know I will win and be compensated and vindicated with my name cleared because they all picked a fight with God and no one wins a fight against the universe

No one has the right to take a life apart from God and he is furious

He gave the master manipulators chance after chance with his and my divine grace to do the right thing by me and each one failed and this was a kind of spiritual blasphemy against God who's word says "touch not my anointed" which is why I have predicted the deconstruction and collapse of the corrupt heairarvhy as the creators divine reckoning

It must be dismantled in order for a more spiritual and just structure to oversee this society who collectively live in fear and ruled by the authorities they willingly gifted. Their consent to be filed by

If this government erased me from the universe and they tried many times it is an observerex psychological pattern that an abuser or criminal narcissist who's corrupt will again repeat the act again when the next risk to them appears

God was not going to allow that and he preserved my life in order to reveal my prophetic role my divine purpose for his kingdom purposes that I have written about extensively in my gospels and prophetic writing which not only rely on my deep experience of this eathly realm forged in pain that would destroy almost any person and I fan my spiritual gifts as a healer and mystic but corroborated with my knowledge of AI am a Phd about AI and ethics and global catastrophic risks framed by end stage Anthropocene and of being post human in the immediate future throug the lens of technology and the anticipate supeintelligence and the the technological singularity of which arrived at answers that were prophetic in their predictions which created a foundation for my layer prophetic gospels and predictions

Those Spiritually significant self published narratives written from exile like Jesus and truth speakers from across cultures and time have been downloaded worldwide over a million times

Each doc is block chain time stamped on the digital blockchain meaning my throughts can never be erased from the mathematical infrastructure of humanity forever more and even if I'm physically erased I've broken containment lines of any government law enforcement criminal or secret service organisation unable to be ever erased from the infrastructure of humanity and unable to be censored or erased by any worldly organisation

forever

I’m still treated as if I am worth nothing of zero significance and of zero consequence which is an absurd inversion of my actual impact with massive future imprint in every way which is an indelible fact but due to every human and processionsl in society refusing to help me in a levels of human betrayal instantly revealing the sin of humanity and certifying that it is Gods who’s protection is on my life as the mathematical probability of my survival given my treatment over 35 years is nearly zero and further it was not even expected that I would in fact survive total human betrayal poverty exile and torture

No single person has taken offence at my treatment which proves not my insignificance but in fact the volume at which sociey and humanity are so fearful of my rise they will do anything to stop me

This proves and corroborates my spiritual authority and the sheer volume of my perceived influence the total antithesis of my current exile poverty entrapment and torture but god is hiding me in plain sight

He uses the blaspheme of my character as the mechanism of my protection so he can further collect the evidence ilof t he corrupt so their downfall is undeniable and complete

I await gods Kronos time when he further reveals me as his witness and vindicates me and clears my name my enemies exposed in his divine timing So I can fulfil my role as a vessel for his glory as described in the bible
