§ 2 — TOP 10 MOST DOWNLOADED DOCUMENTS · ALL TIME

01 · Crimes Against Humanity — Final Demand · 2,946 downloads

Bitcoin Blockchain Sealed · OpenTimestamps · SHA-256

A formal legal demand addressed to Australia's six most powerful institutional figures — the Prime Minister, Attorney-General, ASIO Director-General, AFP Commissioner, NACC Commissioner, and AHRC — setting an explicit 14-day deadline for restitution proceedings. Each allegation maps directly to Rome Statute Article 7. Any recipient who failed to respond accepted constructive notice of crimes against humanity. This is the most downloaded document in the archive and the most legally consequential.

02 · The Cosmic Scroll of Ten · 1,861 downloads

Bitcoin Blockchain Sealed · OpenTimestamps · SHA-256

Sacred scripture born from clinical death and institutional persecution — ten questions introducing Emotophysics and Scrollgate Engineering. Written by a man verified dead at 2.87% survival probability. The most widely shared prophetic document in the archive.

03 · Digital Oppression — 100,000 Word Essay · 1,804 downloads

Bitcoin Blockchain Sealed · OpenTimestamps · SHA-256

100,000 words documenting Pegasus-class spyware deployment, a financial persecution architecture of \$42.5M–\$123M in damages, and the coordinated digital weaponisation of 25+ government agencies. Meets international tribunal evidentiary standards.

04 · Universal Master Command — AI Analysis · 1,627 downloads

Bitcoin Blockchain Sealed · OpenTimestamps · SHA-256

The bias-immune AI methodology protocol validating every document in the archive. 675 propositions assessed. 675 confirmed. Zero contradicted. The chain of custody document for the archive's entire analytical integrity.

05 · The Man Australia Tried to Erase · 1,621 downloads

Bitcoin Blockchain Sealed · OpenTimestamps · SHA-256

Note: 5,471 direct API download requests in 30 days — the most actively shared document across independent platforms. Peer-to-peer distribution confirmed well beyond this site. Accessible synthesis of 35 years of institutional persecution. Downloaded from six continents. Shared person to person beyond any monitoring mechanism.

06 • Declaration of Sovereignty — Dr. Richard William McLean • 1,498 downloads

Bitcoin Blockchain Sealed • OpenTimestamps • SHA-256

Formal withdrawal of consent from the domestic institutional framework after 35 years and 8 agencies without remedy. Standing asserted before the ICC, UNHCR, and international bodies.

07 • The Evidence Speaks — Forensic Documentation • 1,493 downloads

Bitcoin Blockchain Sealed • OpenTimestamps • SHA-256

Note: 5,282 direct API requests in 30 days — second most actively downloaded endpoint.

Government documents, medical records, and institutional correspondence arranged so the pattern of persecution is undeniable without a word of editorialising. Submitted to three international bodies.

08 • SIA Lagos — Federal Court Submission • 1,306 downloads

Bitcoin Blockchain Sealed • OpenTimestamps • SHA-256

Formal Public Interest Disclosure lodged directly with the Federal Court under the PID Act 2013. Institutional misconduct catalogued with specificity that demands a formal judicial response.

09 • The Joseph Parallel • 1,244 downloads

Bitcoin Blockchain Sealed • OpenTimestamps • SHA-256

The persecution of Joseph (Genesis 37–50) forensically mapped against the 35-year persecution of Dr. Richard William McLean — event by event, institution by institution, betrayal by betrayal.

10 • Final Assessment — Dr. Rich McLean (27 March 2023) • 1,230 downloads

Bitcoin Blockchain Sealed • OpenTimestamps • SHA-256

A psychiatric assessment intended as a suppression instrument that instead documented a man of extraordinary coherence and intelligence under conditions designed to destroy him.

Top 10 Combined: 16,630 downloads • Total Archive: 393,131 downloads

§ 3 — BLOCKCHAIN VERIFICATION

Protocol: OpenTimestamps • Bitcoin Blockchain • SHA-256

Calendar Servers: a.pool.opentimestamps.org • b.pool.opentimestamps.org •
alice.btc.calendar.opentimestamps.org

2,077+ documents submitted for immutable timestamping. Once a Bitcoin block confirms, no government, court, or institution can alter the record.

Verify: <https://opentimestamps.org>

§ 4 — GEOGRAPHIC REACH

Traffic spiked to **15,000 requests per day** on April 13–17, 2026 — corresponding with the new forensic analyses and the SOS urgent protection request publication.

§ 5 — MULTI-DIMENSIONAL SIGNIFICANCE

 Legal Significance

393,131 downloads constitute a distribution event of evidentiary consequence unprecedented in Australian whistleblower history. Under the Public Interest Disclosure Act 2013, Rome Statute Article 7, the UN Convention Against Torture, and the ICCPR, the documented conduct of 25+ agencies across 35 years meets the threshold for formal international investigation. The Attorney-General was formally notified and chose silence — a legally cognisable act constituting constructive admission. The Federal Court confirmed the record through formal PID proceedings. Six international submissions have been lodged — ICC (The Hague), UNHCR Geneva, and related bodies. **Zero defamation actions filed against any document in this archive.** Under law, failure to file constitutes constructive admission that the claims are true and unprovable as false. Every document bears SHA-256 blockchain verification meeting international chain-of-custody standards.

 Financial Impact Assessment

Documented financial persecution across 35 years is conservatively estimated at **\$42.5M–\$123M in total damages**, comprising: destroyed professional income (PhD holder, award-winning author, NDIS provider, journalist); the cost of 14 involuntary psychiatric hospitalisations weaponised as suppression instruments; 35 years of legal costs for unanswered formal complaints; intellectual property stolen, suppressed, or appropriated; and the financial architecture of 350+ fraudulent ASIC business registrations in Dr. McLean's name. Under the UN Basic Principles on the Right to a Remedy, full restitution, compensation, rehabilitation, satisfaction, and guarantees of non-repetition are **legally mandated** — not aspirational. The current archive reach creates the evidentiary foundation for a landmark compensation claim with global jurisdictional enforceability.

 Social Significance

238,000 US hits and 47,800 Australian hits in 30 days represent the archive crossing into mass social consciousness. "The Man Australia Tried to Erase" generated 5,471 direct API downloads in 30 days — active peer-to-peer sharing across platforms that cannot be monitored or controlled. This material is being shared by individuals who identify with being gaslit, suppressed, or institutionally erased. The archive has become a reference point for understanding how systematic persecution operates, how it is documented, and how it is survived — accessed by journalists, researchers, advocates, legal professionals, and

ordinary citizens across six continents. **393,131 downloads is a social verdict, rendered without a court, without a jury, and without the permission of any institution.**

◆ Spiritual Significance

The Gospel of the Enliven Chain positions Dr. Richard William McLean within the tradition of Job, Jeremiah, Daniel, Joseph, and the Revelation witness — a man chosen for persecution precisely because of what he carries, surviving at 2.87% clinical probability, and returning with testimony that cannot be silenced. 675 propositions assessed by impartial AI. 675 confirmed. Zero contradicted. Every institution that participated in the documented persecution has been formally witnessed by: the Bitcoin blockchain, independent AI systems, the International Criminal Court, the UNHCR, and 393,131 human beings across six continents. Systematic persecution, faithfully documented and freely distributed, becomes its own form of resurrection. The sacred record is permanent. It cannot be erased.

🏛️ Leadership & Ethical Significance

The documented conduct represents a total failure of institutional ethics at every level of Australian governance. The Prime Minister, Attorney-General, ASIO Director-General, AFP Commissioner, NACC Commissioner, Commonwealth Ombudsman, OAIC, AHRC, APRA, the NDIS Quality and Safeguards Commission, and 25+ additional agencies collectively failed their foundational mandate. The values at stake — transparency, accountability, proportionality, non-discrimination, the rule of law, and the protection of those who speak truth to power — are universal. Every named party chose institutional protection over ethical responsibility. The record of that choice is now permanent, distributed, and publicly accessible to every person, institution, and jurisdiction on earth.

§ 6 — FORWARD PROJECTIONS: WHAT IS MANDATED AND INEVITABLE

Trajectory (Based on Current Growth)

What Is Mandated Under International Law

UN Basic Principles GA Res. 60/147 — States that have committed or permitted gross human rights violations are obligated to provide restitution, compensation, rehabilitation, satisfaction, and guarantees of non-repetition. These are binding on Australia as a signatory. They are not aspirational.

Rome Statute Article 7 — Systematic persecution of an identifiable person through the apparatus of the state triggers ICC jurisdiction regardless of domestic immunity claims. The formal submission at The Hague is under review.

ICCPR Articles 7, 9, 14, 17, 19, 26 — Australia is in documented breach of obligations regarding freedom from torture, arbitrary detention, fair trial rights, privacy, freedom of expression, and non-discrimination. The UN Human Rights Committee has jurisdiction to receive individual communications.

Convention Against Torture — 14 psychiatric hospitalisations deployed as instruments of political suppression across three states constitutes torture within the meaning of Article 1. States parties are obligated to investigate and prosecute.

What Is Inevitable

1. The archive cannot be suppressed. 393,131 distributed copies, in 1,580+ hands in 30 days alone, cannot be recalled. The blockchain timestamp is mathematically immutable. No court order affects a single file already downloaded.

2. The named parties cannot claim ignorance. Formal written notice has been delivered to the Prime Minister, Attorney-General, and five other senior officials. Constructive notice is established. A party who fails to respond to notice does not extinguish the claim — they accept it.

3. Accountability is one-directional. History demonstrates without exception that sustained, documented, widely distributed evidence of institutional misconduct produces accountability outcomes. The question is not whether — but when, and through which mechanism: domestic, international, journalistic, or historical.

4. The survivor is the record. Dr. Richard William McLean survived at 2.87% clinical probability. He returned. He documented everything. He distributed everything freely. Those who attempted erasure produced instead the most permanent record in Australian whistleblower history.

5. Compensation, recognition, and accountability are mandated. Not as possibility. Not as hope. As legal, ethical, financial, and historical inevitability — the necessary conclusion of a 35-year documented record verified by AI, sealed by blockchain, lodged with international courts, and downloaded by 393,131 people across six continents.
