THE SILENT STORM — A PROPHETIC TESTAMENT***

Subject: URGENT HUMANITARIAN TESTIMONY & REQUEST FOR REVIEW — Dr Barran Resonance Dodger (Richard William McLean)

Dear colleagues,

I am writing to formally submit the attached document, "The Silent Storm — A Prophetic Testament: When They Asked What Happened to Him, No."

This document is part of a time-sensitive, evidence-based record of my experience as a disabled, gay, internally displaced Australian citizen who is currently living in conditions of homelessness, medical vulnerability, institutional breakdown, and escalating personal risk.

I am sending this to you because your organisations represent oversight, public interest, human rights protection, legal advocacy, and journalistic accountability.

You are the sectors entrusted with responding to situations where an individual reports harm, displacement, and systemic neglect.

WHY THIS DOCUMENT MATTERS

The attached document serves as:

1. A Time-Stamped Account of Systemic Harm

It records a multi-year pattern of:

- loss of housing
- institutional abandonment
- deterioration of medical and disability support
- escalating distress
- unaddressed vulnerabilities
- internal displacement within my own country

This testimony is the only surviving record of what happened as the systems around me failed.

2. Documentation of Humanitarian Distress and Risk

My circumstances currently involve:

- homelessness
- loss of safety
- loss of medical stability
- poverty
- psychological strain
- disability-related vulnerability
- sexual-orientation-based exposure to exploitation
- the absence of any functioning support network

This creates an objectively identifiable humanitarian risk profile.

3. Evidence of Systemic Breakdown

The narrative is not a legal allegation — it is a lived record.

It demonstrates how administrative failures, gaps in care, and repeated neglect compound into severe harm.

This pattern itself is a recognised form of evidence by human-rights bodies.

4. A Safeguarding Signal

By sending this document, I am:

- creating a verified record,
- notifying appropriate oversight bodies,
- requesting external scrutiny,

- and ensuring that my situation is known to multiple independent organisations.

This is a protective measure.

It ensures I am not erased silently.

YOUR LEGAL & ETHICAL OBLIGATIONS AS RECIPIENTS

I do not ask for anything outside your mandates.

I only ask that you uphold the minimum duties that apply to you under law, policy, and ethics:

A. UN Bodies & Special Rapporteurs

- Register the communication
- Log the testimony
- Assess whether it falls within your mandate
- Handle the document confidentially
- Consider escalation where risk is evident

B. Human-Rights NGOs (Amnesty, HRW, Redress, IRCT, HRLC, ASRC)

- Triage the communication
- Recognise the humanitarian risk
- Review within intake systems
- Provide signposting or pathways if possible

C. Journalists & Media Organisations (Guardian, ABC, Nine, VICE, Al Jazeera)

- Treat the material respectfully
- Assess its public-interest value
- Protect vulnerable sources
- Maintain privacy and accuracy
- Consider internal escalation if it signals risk

D. Legal Firms (Gordon Legal, Maurice Blackburn, Shine, Marque Lawyers)

- Keep the information private
- Conduct a professional review

- Provide a clear yes/no regarding representation
- Avoid discrimination

E. Academic / Refugee Sector

- Log the communication
 - Consider the policy and displacement implications
 - Recognise the indicators of internal displacement within a democracy
-

WHAT I AM ASKING FOR

I am not asking for special treatment.

I am not asking for anyone to endorse any interpretation.

I am simply asking for:

- **Your acknowledgement of receipt**
- **Your professional or ethical review**
- **Any appropriate next steps within your mandate**

My circumstances involve immediate vulnerability, a lack of safety, and a breakdown in all domestic support structures.

Your organisation is among the few sectors capable of recognising, documenting, or responding to this type of humanitarian deterioration.

CLOSING STATEMENT

I am submitting this testimony because all other pathways have failed.

You are receiving it because you represent the final remaining frameworks of oversight, ethics, public interest, and international recognition.

Thank you for your time, your consideration, and your adherence to the responsibilities inherent in your roles.

Sincerely,

Dr Barran Resonance Dodger

(Richard William McLean)

Australia

If you'd like, I can also create:

- a shorter version
- a media-only version
- a UN-specific version
- a legal-only version
- a combined version with a subject line and email-ready text

Just tell me which one.
