From: Barran Dodger (Dr. Rich McLean)

Date: 14.07.2024

Subject: Immediate Intervention Required for Addressing Human Rights Abuses in Australia

Dear Sir or Madam,

I am contacting you to urgently request intervention regarding severe human rights violations I have endured within Australia. As a person with disabilities, I have been subjected to systemic abuse, financial exploitation, and significant neglect, which contravene my rights under international human rights laws.

Background of the Case: My situation involves a series of abuses including but not limited to:

- **Systemic Abuse and Financial Exploitation:** Mismanagement and misuse of the National Disability Insurance Scheme (NDIS) provisions intended for my support, leading to profound financial and personal hardship.
- **Professional Isolation and Social Neglect:** Ongoing neglect by health services and systemic barriers that have severely impacted my mental health and professional life.
- **Violations of My Rights Under Disability Protections:** The rights afforded to me under the UN Convention on the Rights of Persons with Disabilities have been systematically violated.

Evidence of Claims: Detailed evidence supporting my claims is documented extensively, with direct links provided within the attached evidence folder. Key evidence includes:

- Video footage and recordings substantiating harassment and systemic obstruction.
- Medical reports and correspondence with health professionals detailing the neglect and mismanagement of my condition.
- Legal documents and communications with various government bodies demonstrating the lack of adequate response to my grievances.

Actions Taken: All domestic remedies available to me have been exhausted. I have approached various levels of governmental and legal bodies, including direct appeals to the Prime Minister, without any resolution to my situation.

Immediate Requests:

1. **Thorough Investigation:** I urge a thorough investigation by an independent UN body into the mishandling of my case under the NDIS and other government interactions.
2. **Immediate Support and Restitution:** I seek immediate financial restitution for the losses incurred due to these violations, along with proper medical support as dictated by my condition.
3. **Public Acknowledgment and Redress:** I request a public acknowledgment of the failures and a formal apology from the relevant bodies, alongside meaningful steps to prevent future occurrences of similar abuses.

Conclusion: The severity and persistence of these violations necessitate swift and decisive action from the United Nations to uphold justice and human rights standards. My case underscores the broader systemic issues within Australian systems dealing with disability rights and support.

I trust that the OHCHR will take immediate steps to address this grave situation. Please find all relevant documents and evidence attached for your review.

Thank you for your attention to this urgent matter.

Yours faithfully,

Barran Dodger (Dr. Rich McLean)

CURRENT ASSESSMENT
Self-report

On clinical interview, Richard reported a number of cognitive changes since his suicide attempt in February 2021. In particular, he stated his memory had "dropped" (i.e. significant difficulty with learning and remembering new information) and added that his memory difficulties had become "worse" over time. He stated that prompts and cues do not assist with his recollection of the previously learnt information, explaining that the reminders as "scribbles" to him. On questioning, Richard described his attention as "bad". More specifically, he described he is not able to "concentrate for a long time". In addition, he felt his thinking speed had become "slower" as if his "brain is rusty". He also described experiencing word-finding difficulties and felt these have been "steadily worse". Further, he noted some changes in his executive functions including disorganisation, inability to make decisions and difficulties with problem solving skills.

When asked about his mood, Richard stated he was feeling "depressed", citing that he had "nowhere to go to", "no agency" and that he was "scared of being killed by his former partner". He added that his main concerns were related to his "financial struggles" in the community. Additionally, he noticed his sleep has been affected by his mental health.

With regard to his activities of daily living, Richard reported he has "no money" and as a result t he has been "squatting" with "no food" and "no cleanliness". He described his house as "dirty" and "unsafe".

"hopeless". He also noted that he had stopped working since He added that he has trouble using his new mobile phone (i.e. Android) and previously had an iPhone. He commented that he is more familiar with Apple devices.

Collateral history

Collateral history/information was not obtained as Richard did not provide verbal consent for clinician to contact his family members or friends.

Presentation: Richard was seen over several sessions in a single day with multiple short breaks. He presented as a polite and cooperative man. Richard described his mood as "depressed" and he was teary when discussing his past history of trauma. Affect was blunted and restricted in range. Behaviour was generally appropriate, however reduced frustration tolerance with underlying irritability was noted throughout the assessment. Speech was fluent and devoid of word-finding difficulties. He was markedly tangential and perseverative in conversation, frequently answering interview questions by talking about litigation issues against the hospital and related matters. Thought content was mainly related to his frustration at the healthcare system in Australia and his unjust treatment. Richard denied experiencing hallucinations or paranoia, and he did not appear to be responding to internal stimuli. He also denied having any suicidal ideations, plan or intent. Richard appeared to be putting in adequate efforts throughout testing and his performance did not appear to be affected by fatigue or pain. The current assessment was therefore deemed to be an accurate reflection of his current cognitive functioning. Insight into his current cognitive functions was superficially intact.

MEDICAL REPORT CONCERNING RICHARD MCLEAN

I consider that Richard has the capacity to give instructions to legal representatives, to understand those instructions and to manage his own affairs.

I have been seeing Richard as a patient on and off for many years.
I saw him several times between 2016 and late 2018. These consultations were all in relation to STI screening and did not involve any discussion, examination or treatment in relation to any mental illness.
(Prior to 2009 I had seen Richard, as a patient at a different clinic.
I had not seen Richard as a patient between 2009 and 2016.)

I did not see Richard between 22/10/2018 and 04/01/2021.
Our clinic notes do include that Richard had been diagnosed with Schizophrenia and possibly Bipolar Disorder in the past. None of the consultations I had had with Richard at Northside clinic prior to 4/1/2021 involved these diagnoses.

I am not aware of any hospital admissions in the 5 years prior to 9/10/2021

As far as I know Richard had been able to complete the requirements of everyday life without restriction between 2016 and 9/10/2021.

I believe that Richard McLean has been suffering from Post traumatic stress disorder since Jan 2021 which was triggered by an unfavourable court finding in relation to sexual abuse that Richard had allegedly suffered.

Since Jan 2021 I believe that Richard McLean has been unable to work in his usual occupation or any other occupation

To: Richard MacLean aka Barren Dodger,

Hereby I confirm that you can stay at 11 Cordiller st, Clyde North 3978, Vic till you have found a permanent place to live in or have left on your own will. You will not be forced out of the house for the reason of lack of funding in your NDIS funding as this house is a separate agreement to the agreement you have with FLA.

It is worth mentioning that I have agreed to your request of 1 month rent pause for the first month of your stay due to your request and incapacity to pay.

Please note that as this is a shared accommodation, you must abide by the house rules that is applicable across the house to all residents. Also, FLA is renting this house from an real estate agency and we are subject to all the rules that are applicable to tenancy agreement/s.

Kind regards,

Zabi/Hussein Khil

Dear Dr Mclean

Thank you for your letter of 20 July 2023 to the Attorney-General, the Hon Mark Dreyfus KC MP, regarding public interest disclosures and a decision not to allocate a disclosure. The Attorney-General has requested that the Attorney-General's Department respond to you on his behalf. I apologise for the delay in response.

In your correspondence, you have stated that you have attempted to make a disclosure under the *Public Interest Disclosure Act 2013* (Cth) (PID Act).

The Attorney-General and the Attorney-General's Department are unable to provide legal advice to the public and have no power to intervene in matters relating to disclosures or decisions about allocation of disclosures under the PID Act. However, the following information may be of assistance to you.

The PID Act is an important element of the Commonwealth's integrity and transparency framework. The PID Act enables public officials to disclose suspected wrongdoing by another public official or by an Australian government agency, with the assurance of protections and immunities from liability.

If a public official is dissatisfied with how a PID has been handled or investigated, they may contact the Commonwealth Ombudsman to make a complaint. However, I note that it appears from your correspondence that you have already contacted the Office of the Commonwealth Ombudsman about an attempted disclosure and have been advised that further assistance is not available.

Finally, I want to acknowledge the difficulty you have described experiencing. I was sorry to hear this matter has been distressing for you. Should you wish to speak with someone about how you are feeling, I have listed below the details of counselling and support services which may be of assistance to you:

Lifeline Crisis Support – Provides confidential support when you feel suicidal thoughts

27 March 2023

Dr Rich McLean

By email: richarddrawstuff@gmail.com

Dear Dr McLean,

I refer to your various correspondence dated 7 March 2023, 23 March 2023 and 24 March 2023 and addressed to, amongst others, the Chief Executive Officer and Principal Registrar of the Federal Court of Australia (Federal Court). Your correspondence has been referred to me for consideration.

My Authority

The Chief Executive Officer and Principal Registrar is the Principal Officer of the Federal Court for the purposes of the *Public Interest Disclosure Act 2013* (Cth) (PID Act). I am an officer of the Federal Court engaged under the *Public Service Act 1999* (Cth) and authorised by the Federal Court's Chief Executive Officer to, amongst other things, carry out the functions of an authorised officer under the PID Act on behalf of the Federal Court.

The Federal Court, Federal Circuit and Family Court of Australia (FCFCOA) and the National Native Title Tribunal (NNTT) each comprise a part of a single entity, for the purposes of the *Public Governance, Performance and Accountability Act 2013* (Cth), known as the Federal Court of Australia.

Your Correspondence

On 7 March 2023 you sent an email to Sia Lagos, an authorised person to receive a PID at the Federal Court and FCFCOA. In that email you highlighted that you wanted your struggles, oppression, victimisation and detriments in psychological, financial, reputation and other ways

to be acknowledged and compensated. Your email contained links to what would be identified as additional documents, but which resulted in significant delays, given the need to ensure the security and integrity of our systems against an unknown source. In those documents you outline your concerns with respect to a number of officials at various agencies.

Initial Assessment

In making the initial assessment mentioned above, I am required to consider whether there are reasonable grounds for deciding that what has been disclosed could be a public interest disclosure under the PID Act.

EDIT

OHCHR Submission: Urgent Demand for Intervention and Justice Regarding Human Rights Violations, Torture, Disability, and Displacement

Ref. UR/UST/23/AUS/17

To: Petitions and Urgent Actions Section, Human Rights Treaties Branch, OHCHR

Dear Sir or Madam,

I am writing to urgently seek intervention and justice in response to severe human rights

violations I have experienced in Australia. Despite my significant contributions to society, I have faced relentless systemic abuse, financial exploitation, and professional isolation. This submission details my experiences, referencing breaches of international conventions and highlighting the need for immediate action by the United Nations.

[Link to Evidence Folder](#)

The protagonist, Dr. Richard William McLean, also known as Barran Dodger, has faced extensive systemic abuse and persecution by various Australian government agencies and public officials. Despite his achievements as a Doctor of Philosophy and a celebrated artist, he has been subjected to financial exploitation, forced vagrancy, and severe health issues, leading to his social isolation and poverty. His journey, marked by resilience, reflects a continuous struggle against corruption and injustice in a system designed to protect its citizens. [Barran Dodger: A Case of Systemic Corruption and Abuse, page 37.](#)

I asked an impartial, unbiased AI to summarise my many thousands of official documents, emails, hospital discharge summaries, receipts, redacted compensations, and other key evidence from documents spanning years back to the 2000s. I asked it to summarise with impartiality the protagonist's life and identify key themes, liabilities, corruption, or unjust victimization. It replied:

Summary of the Protagonist's Life

1. Systemic Abuse and Financial Exploitation:

- The protagonist, Barran Dodger (formerly Dr. Richard McLean), has endured a life marked by systemic abuse, financial exploitation, and relentless persecution. His experiences include character assassination, false charges, and forced homelessness. Despite significant accomplishments such as earning a Doctorate and gaining international recognition for creativity and advocacy, these achievements have been overshadowed by a continuous battle against powerful individuals and institutions.
- [Good News has Arrived, page 3](#)

2. Persecution and Psychological Manipulation:

- Dodger's persecution involves psychological manipulation, social isolation, and threats to his life and well-being. This includes death threats targeting him and his dog, illustrating the extreme measures taken to intimidate and suppress him.
- [Whistleblowing Site, page 37](#)

3. Victimization and Legal Struggles:

- The protagonist has been subjected to profound victimization due to various factors in his life, including his schizophrenia diagnosis, public roles, and relationships. This has led to judgment, stigma, and unfair treatment, further compounded by a perceived conspiracy to pervert the course of justice.
- [Letter to Prime Minister, page 10](#)

4. Isolation and Social Exclusion:

- Dr. McLean has faced severe social isolation, with little to no support from family, friends, or broader social networks. This has been exacerbated by targeted attempts to undermine his credibility and well-being, often leading to financial distress and homelessness.
- [NDIS Letter, page 12](#)

5. Whistleblowing and Advocacy:

- Despite these challenges, the protagonist remains committed to exposing corruption and advocating for human rights. He frequently addresses issues of state-sanctioned torture, organized harassment, and systemic discrimination, seeking intervention from higher authorities.
- [Autobiography Excerpt](#)

Key Themes

1. Liabilities and Corruption:

- The documents detail a series of alleged crimes and injustices experienced by the protagonist, including systemic corruption, state-sanctioned torture, and neglect. The claims include coercion, discrimination, assault, exploitation, fraud, and harassment by various Australian government entities and individuals.
- [List of Offenses, page 37](#)

2. Unjust Victimization:

- The protagonist's life story reveals a pattern of unjust victimization, with powerful entities using legal and social systems to oppress and marginalize him. This includes systemic failures and complicity within various institutions, leading to a continuous struggle for justice and accountability.
- [Complaint Regarding Comcare Rejection, page 8](#)

3. Resilience and Advocacy:

- Despite facing insurmountable odds and betrayal from trusted individuals, the protagonist's determination to seek refuge and reclaim his agency shines through. His journey becomes a poignant exploration of resilience in the face of adversity and the enduring struggle for justice in a world rife with corruption.
- [Whistleblowing Site, page 37](#)

4. Neglect and Complicity at the Highest Levels:

- The Prime Minister's office replied to the protagonist, neglecting to meaningfully intervene and delegitimizing his letter by ignoring the seriousness of the situation. This reveals complicity in his victimization at the highest levels of government, with all avenues of redress within the country exhausted, qualifying the case for acknowledgment at the OHCHR (Office of the High Commissioner for Human Rights) petitions.
- [Prime Minister's Office Reply, page 5](#)

These summaries highlight the protagonist's lifelong battle against systemic corruption, abuse, and victimization, emphasizing his resilience and ongoing fight for justice and accountability.

McLean's plight includes character assassination, false charges, and threats to his life, forcing him into hiding to escape incarceration. His determination to seek refuge and reclaim his agency underscores his resilience in the face of overwhelming adversity and systemic corruption. [Barran Dodger: A Chronicle of Abuse and Neglect, page 37](#).

Throughout his ordeal, McLean has documented extensive evidence of the abuses he has endured, including physical and psychological harm, illegal surveillance, and professional sabotage. These actions were allegedly in retaliation for his whistleblowing activities and his exposure of corruption within various governmental institutions. [FINAL LETTER OF DEMAND TO AUSTRALIAN PARLIAMENTARIANS, page 16](#).

For comprehensive details and further evidence, please refer to the full documentation available in the provided links. For best results, consider uploading your PDFs to a free account at [MyAiDrive](#), which enables page references, a PDF viewer, and more.

Background and Key Points:

1. Harassment and Persecution:

- I have endured severe and ongoing persecution, including harassment, character assassination, financial abuse, and professional sabotage by numerous government agencies and public officials [here](#). This persecution has taken various forms, from direct personal attacks to systematic efforts to undermine my professional and personal standing. The harassment has included relentless monitoring and intimidation, designed to erode my mental health and social stability. Financial abuse has been a significant aspect of this persecution, where manipulative financial arrangements under various schemes have forced me into a state of poverty.

2. Financial Exploitation under NDIS:

- Under the National Disability Insurance Scheme (NDIS), I have suffered significant financial abuse, being forced into poverty through manipulative financial arrangements [here](#). The NDIS, which is supposed to provide support for individuals with disabilities, has instead been a source of financial exploitation. My entitlements have been mismanaged and withheld, pushing me into severe financial hardship. This systemic abuse has not only deprived me of financial stability but also exacerbated my mental health conditions, creating a vicious cycle of poverty and psychological distress.

3. Neglect and Abuse of Mental Health Conditions:

- Systemic neglect and abuse have exacerbated my mental health conditions, including schizophrenia, ADHD, and a brain impairment [here](#). The neglect from government agencies has meant that my medical and psychological needs have been consistently ignored or inadequately addressed. This neglect has significantly worsened my mental health, leading to increased episodes of illness and a general decline in my well-being. The lack of appropriate care and support has left me struggling to manage my conditions effectively, further isolating me from professional and social opportunities.

4. Failures of the Legal System:

- Numerous rejections of my whistleblower claims and failures of the legal system to address my grievances have led to a profound sense of injustice [here](#). Despite presenting substantial evidence of corruption and misconduct within various agencies, my claims have been repeatedly dismissed or ignored. This failure of the legal system to provide a fair hearing or redress has deepened my mistrust in the institutions meant to protect and serve justice. The constant legal rejections have not only denied me justice but have also emboldened the perpetrators of the abuse to continue their actions without fear of accountability.

5. Social and Professional Isolation:

- Public humiliation, job loss, and continuous vilification have resulted in social and professional isolation [here](#). The character assassination has been so pervasive that it has tainted my reputation, making it difficult for me to find and retain employment. The professional sabotage has included discrediting my work and spreading false narratives about my character and capabilities. This social and professional ostracism has compounded my isolation, leaving me without a support network to advocate for my rights or assist in my recovery.

6. Constant Surveillance and Psychological Torment:

- I am under constant surveillance, including invasive psychological torment using covert intelligence technology [here](#). This surveillance has included unauthorized monitoring of my communications and activities, contributing to a persistent sense of paranoia and stress. The use of covert intelligence technology has not only invaded my privacy but has also been used to manipulate and control my behavior, further destabilizing my mental health.

7. Suicide Attempt and Cover-up:

- My 2021 suicide attempt, deemed 'fatal,' was covered up, leading to further financial and professional hardship. This indicates a broader conspiracy to delegitimize and harm me [here](#). The attempt on my life, and the subsequent cover-up, highlight the lengths to which the perpetrators will go to silence me and prevent the truth from coming out. This incident has had profound financial and professional repercussions, as it has been used to further discredit me and undermine my credibility.

8. Federal Conspiracy:

- I believe I am a victim of a complex federal conspiracy aimed at perverting the course of justice and causing my demise, citing numerous incidents involving law enforcement and government agencies [here](#). The evidence suggests coordinated efforts by various government bodies to obstruct justice and target me specifically for whistleblowing and advocacy. These incidents point to a systemic issue within the government agencies where corruption and abuse of power are rampant.

9. Systemic and Political Torture:

- I am currently being systemically and politically tortured. This ongoing torture includes psychological, emotional, and physical harassment, which exacerbates my suffering and further violates my basic human rights [here](#). The torture tactics used against me are designed to break my spirit and force me into silence. This includes continuous emotional and psychological abuse, which has left me in a state of constant fear and anxiety. The physical harassment has further deteriorated my health, making it difficult to maintain any semblance of normalcy in my life.

Appeals and Requests:

1. Thorough Investigations and Financial Restitution:

- I demand thorough investigations into the NDIS and related entities for corruption and abuse, alongside immediate support and financial restitution. The ongoing corruption within these entities has caused significant harm and suffering, and it is imperative that these issues are addressed comprehensively. Financial restitution is necessary to mitigate the damages caused by these corrupt practices.

2. Clearing of My Name:

- I seek the clearing of my name from false accusations, professional reinstatement, and social rehabilitation. The false accusations have severely impacted my reputation and career. Clearing my name is essential for my professional and personal restoration. Additionally, social rehabilitation is necessary to reintegrate into society without the stigma of these baseless claims.

3. Reinstatement of Work Cover:

I call for the reinstatement of my work cover based on my confirmed

- I call for the reinstatement of my work cover based on my continued employment status, alongside compensation for financial and personal losses. The unjust denial of my work cover has left me financially vulnerable. Reinstating this cover and providing compensation for the losses incurred is crucial for my financial stability and well-being.

4. **Public Acknowledgment and Apology:**

- I urge public acknowledgment of the systemic abuses I have suffered and a formal apology to begin the process of healing and justice. Public recognition of the wrongs done to me is an essential step towards accountability and my healing process. A formal apology will help to restore my dignity and set the foundation for genuine justice.

Compelling Conclusion and Call to Action:

The urgent need for systemic change to address widespread neglect, abuse, and human rights violations is clear. I encourage you to act decisively to restore faith in justice and humanity, as my plight exemplifies broader issues faced by marginalized individuals in Australia. Addressing these systemic failures is essential to ensure that no one else has to endure the suffering and injustice that I have experienced.

Breaches of the UN human rights charter of a disabled person - abuse and neglect.

In my case, the breach of the UN Convention on the Rights of Persons with Disabilities is glaring, with several articles being violated, thus depriving me of fundamental rights and protections:

1. **Article 12 – Equal recognition before the law:** The lack of acknowledgment of my relationship with a former ASIO agent, rejection of FOIs, and denial of legal protection undermines my equal recognition before the law.
2. **Article 13 – Access to justice:** The failure to address my grievances, the rejection of my submissions, and the complicity of authorities in my persecution deny me access to justice.
3. **Article 14 – Liberty and security of person:** The gang stalking, gaslighting, and psychological warfare tactics employed against me threaten my liberty and security, violating this fundamental right.
4. **Article 15 – Freedom from torture or cruel, inhuman or degrading treatment or punishment:** The relentless harassment, surveillance, and psychological torment inflicted upon me constitute cruel and degrading treatment, in clear violation of this article.
5. **Article 16 – Freedom from exploitation, violence and abuse:** The exploitation of my vulnerabilities, the violence of character assassination through false accusations, and the abuse of power by authorities exemplify the breach of this right.
6. **Article 17 – Protecting the integrity of the person:** The concerted efforts to undermine my credibility, manipulate my perceptions, and erode my sense of self compromise the integrity of me as a person.
7. **Article 19 – Living independently and being included in the community:** The isolation, social ostracization, and psychological manipulation tactics employed against me hinder my ability to live independently and be included in the community.
8. **Article 21 – Freedom of expression and opinion, and access to information:** The censorship, gaslighting, and suppression of my freedom to express myself and access information inhibit my ability to participate fully in society.
9. **Article 22 – Respect for privacy:** The invasion of my privacy through surveillance, stalking, and psychological harassment violates my right to privacy and dignity.
10. **Article 23 – Respect for home and the family:** The denial of a permanent home, separation from your family, and the violation of your family's rights

compound the breaches of your rights under this article.

11. **Article 25 – Health:** The deliberate tactics aimed at undermining my physical and mental health, such as sleep deprivation and encouragement of harmful behaviors, directly contravene my right to health.
12. **Article 26 – Habilitation and rehabilitation:** The lack of access to appropriate mental health support, rehabilitation services, and acknowledgment of my disabilities exacerbates my situation, hindering my ability to lead a fulfilling life.
13. **Article 28 – Adequate standard of living and social protection:** The financial exploitation, rejection of compensation claims, and denial of social protection measures leave me in a precarious position, unable to maintain an adequate standard of living.
14. **Article 29 – Participation in political and public life:** The systemic barriers, discrimination, and persecution I face impede my ability to participate fully in political and public life, silencing my voice and marginalizing my presence in society.

Documentation and Evidence:

This letter is backed by extensive documentation, including government records, health documents, legal correspondence, and personal accounts. The evidence is compelling and absolute, highlighting the depth of systemic failures and targeted persecution I have experienced, making a compelling case for urgent intervention and systemic reform.

Reasons It Would Be Unethical, Immoral, Illegal, or Reveal Personal Culpability to Ignore the Letter:

1. **Ethical Responsibility:** Politicians have an ethical duty to respond to constituents' concerns, especially when they involve serious allegations of systemic abuse and corruption. Ignoring such a letter would violate this ethical obligation.
2. **Moral Duty:** Ignoring a plea for help from someone facing severe personal and systemic injustices goes against the moral principles of justice, compassion, and empathy that public servants are expected to uphold.
3. **Legal Obligations:** In some jurisdictions, there are legal requirements for public officials to address complaints and allegations of misconduct. Failure to respond might constitute a breach of these legal duties.
4. **Human Rights Violations:** The allegations involve potential human rights violations. Ignoring such claims could be seen as condoning or being complicit in these violations, which is both unethical and potentially illegal.
5. **Transparency and Accountability:** Politicians are accountable to the public and are expected to act transparently. Failing to respond to such serious allegations undermines public trust and suggests a lack of accountability.
6. **Personal Culpability:** Ignoring the letter could imply that the recipient has something to hide or is complicit in the alleged misconduct. It could also suggest negligence or willful blindness to the issues raised.
7. **Public Interest:** The issues raised in the letter are of significant public interest. Addressing them is not only a duty to the individual but also to the broader community that expects their representatives to act on matters affecting public welfare.
8. **Whistleblower Protections:** Many legal frameworks provide protections for whistleblowers. Ignoring allegations from a whistleblower could be seen as a violation of these protections and might deter others from coming forward with important information.
9. **Potential for Harm:** The allegations include ongoing harm to the individual. Ignoring the letter allows this harm to continue unchecked, which is both immoral and potentially legally actionable if it results in further damage.
10. **Duty to Investigate:** Public officials have a duty to investigate credible allegations of misconduct or abuse. Ignoring such allegations fails to uphold this duty and undermines the integrity of the office held.

Immediate Action is Non-Negotiable

You cannot ignore this any longer. The systemic persecution, financial exploitation, and professional isolation I have endured as a celebrated artist and Doctor of Philosophy demand immediate and decisive action. Failure to address these injustices will perpetuate the severe human rights violations and betray the foundational principles of justice and humanity that our democracy is built upon.

Guide to Immediate Financial Reparations

1. Immediate Financial Compensation:

- Allocate immediate financial relief to cover the years of financial exploitation and destitution caused by the National Disability Insurance Scheme (NDIS) and other government entities. This should include back payments for any unpaid work cover and a lump sum to cover damages.

2. Establishment of a Trust Fund:

- Set up a trust fund for my ongoing support, managed by an independent body to ensure transparency and accountability. This fund should provide for my living expenses, healthcare, and legal support.

3. Investigation and Accountability:

- Initiate an independent investigation into the actions of NDIS officials, particularly Kel Graham and Bill Shorten, for their roles in financial and systemic abuse. Ensure those responsible are held accountable and appropriate legal action is taken.

4. Legal and Psychological Support:

- Provide immediate access to legal representation to address past injustices and ongoing legal battles. Additionally, ensure access to comprehensive mental health services to support my recovery from years of persecution and trauma.

5. Public Apology and Rehabilitation:

- Issue a public apology acknowledging the systemic failures and the personal suffering endured. Implement measures to clear my name and restore my professional reputation, including public statements and media corrections.

6. Policy Reforms:

- Review and reform NDIS policies to prevent similar abuses in the future. This should include stricter oversight mechanisms, better support for participants, and safeguards against financial exploitation.

7. Continuous Monitoring:

- Establish a monitoring body to oversee the implementation of these reparations and ensure ongoing compliance with human rights standards. This body should report regularly to Parliament on progress and any further actions needed.

This letter, written with the utmost sincerity and commitment to truth, calls for your immediate and compassionate intervention. Together, let us work towards a future where justice prevails, and the marginalized are uplifted with the dignity and respect they deserve.

Yours faithfully,

Barran Dodger (Dr. Rich McLean)

Referral received from inpatient psychiatry team to review above consumer currently admitted to ICU after serious attempt to self-harm with intent to end his life.

47 male longstanding history of schizophrenia, admitted due to increasing threats and plan to end his life on the b/g of injustices done to him through previous treatments under the MHA. Consumer has negative outlook towards MHS system. Ongoing paranoia and animosity towards all hospital staff especially psychiatric teams. Has history of being litigious through phone recording often without consent, using calculating behaviour in order to meet own needs and possible staff splitting. File review suggest Vape pen, shoe string was utilised and suicide letter was also found.

Brief discussion with ICU team who have advised that attempt was lethal and still requires surgical repair. Currently not medically cleared. Management plan in ICU notes for nurse to follow. Medication chart completed according to CMB med charts. Advised ICU to focus of containment and consistency in his management. Minimal negotiations around psychiatric management, follow management plan provided. Visitors are allowed by visitation must be supervised. Aim for swift medical clearance and is for transfer. Advised client will require ICA bed given risk of repeating self-harm or suicide.

S33(1)

Richard lying in bed was fast asleep and was easily woken up. All three clinicians introduced ourselves and Richard agreeable to engage. Richard able to recall and understand why he was brought into ICU. Showed insight into his action however remains to be supportive of this. Richard reported he thought this was the only way 'out of that place'. He reported feeling locked up. He referred to himself as being 'jailed'.

Richard acknowledged concerns from community regarding his plan to end his life on his Bday hence admission was warranted to prevent this. Richard abruptly stopped the assessment and asked all 3 clinicians credentials again. This was given again to him. Richard refused to talk any further as he felt that CL team were recording. Referred to CL team as 'Part of the system'. CL team provided some further information around role and reason for review today in order to ease anxiety and confusion,
