Dear OPMC regarding a PID from Dr Rich McLean:

I need this to be urgently addressed within days for these reasons:

- I'm in danger of a physical attack and/or
- An elongated system of oppression which I will be:
- Framed for a crime I have not committed,
- Set up to fail epically as has been the case,
- Incarcerated an award of the state in a psychiatric ward somewhere.

I am currently under systemic oppression from Government

I am tortured systemically and universally

I am denied the human rights of health care and I have:

- Mental illness
- Cancer
- A likely ABI
- I need a psychologist psychiatrist and neurologist

I have been framed and do not have access to a lawyer and ostracised from any law firm,

This is in opposition to the Charter of Human Rights of people with a

Disability ratified by the Government in 2008,

This systemic persecution, nearly universally in the defence of money power and privilege protecting reputations,

Is actioned by Public Officials who act unanimously via proxy and in deceitfulness,

This has and is happening in a cowardly way to identify victimise vilify and further oppress me,

Victimisation on this scale is abhorrent and

I cant believe I have had to reverse engineer this over a lifetime to the top,

It killed me on the journey...I lived, but was forsaken by society,

A conspiracy to pervert the course of justice has and is occurring,

There must be a better way forward than:

Maliciously rendering me without:

Agency,

Basic Human rights worth & dignity,

A voice,

The victim of narccists,

Intelligently designed a vagrant,

Bereft of prosperity,

My job destroyed,

My business maimed ,

My identity and person desecrated.

Ethics means ‘do no harm.’

Harm is being done to me and has been fuelled by libel slander rooted in base emotions of prejudice and stigma.

Actioned by cowardly faceless Government Officials public office who have acted with cowardice to tow the party line of victimisation regarding me.

Please do what is right and light and protect me, as all I have ever done is to ask for help and help people

I want this to continue, (helping people), after I have literally suffered an allegorical persecution resulting in my attempted suicide I consider an allegorical crucifixion.

I miss my friends & family and I actually love people despite their deceit or misunderstanding.

I have had to rush this, as I am under duress and attack.

It is not complete but I have ample evidence.
