Date: 2025-11-22

## **Executive Summary**

Dr. Richard William McLean, also known as Barran Dodger, is facing imminent death unless urgent international intervention occurs. A renowned human rights advocate, LGBTQ+ individual, and whistleblower, he is a direct target of 35 years of systematic persecution by Australian state-linked actors. This has escalated into credible death threats, deprivation of medical care, institutional abuse, destruction of financial identity, and now, complete homelessness.

Dr. McLean has provided over 3,800 pieces of evidence, meticulously categorized into AI Drive folders, proving crimes against humanity, identity theft, systemic fraud, and mental torture in violation of multiple UN treaties and conventions.

He now requires:

- Immediate emergency shelter
- Medical and psychiatric intervention

- UNHCR protection as a refugee
- Investigation into state corruption and attempted murder

This report is his primary survival mechanism.

## **1. Personal Profile & Acute Vulnerability**

Name: Dr. Richard William McLean (Barran Dodger)

DOB: April 8, 1973

Nationality: Australian

Identities: Gay man, disability advocate, mental health rights leader

Professional Status: Published author, public speaker, mental health illustrator, academic, and long-time government whistleblower

In 2021, Dr. McLean attempted suicide as a result of ongoing persecution. This resulted in a traumatic brain injury, compounding existing conditions including schizophrenia, anxiety, and ADHD.

Despite his decades of service to the Australian public in advocating for mental health and disability rights, he has been institutionalized without treatment, forcibly separated from his dog (an emotional support animal), evicted, and abandoned by family who stand to gain from his removal.

He has no remaining state protections, no access to NDIS, no vehicle, no shelter, and is scheduled for homelessness amid active assassination threats.

## **2. Immediate Humanitarian Catastrophe**

Dr. McLean's life is in immediate jeopardy.

- He has been evicted without recourse. No welfare, no support.
- During his month-long involuntary commitment, his dog and vehicle were seized—leaving him isolated, immobile, and devastated.

- He received no medical treatment during institutionalization, despite presenting with major psychiatric and neurological trauma.
- This is a violation of international humanitarian law and the right to adequate housing (ICESCR, Article 11).
- He is now entirely exposed to environmental danger and targeted violence, including threats from a government official.

### **3. Systematic Persecution Chronology (1990–2025)**

This crisis did not occur in isolation. It is the result of a 35-year campaign of institutional violence, executed by multiple state bodies.

#### **Highlights of Persecution:**

- Repeated, unexplained denials from agencies like NDIA, VOCAT, ComCare, AHRC, NACC, and WorkSafe.
- 2021: After being rejected for urgent aid, Dr. McLean attempts suicide, sustaining brain injury.
- September 2024: ASIC confirms 350+ instances of corporate identity fraud in Dr. McLean's name. Registered under ABN 78 833 496 164—linked to state-connected actors.
- October 2024: NDIS manager Tony Riddle delivers an assassination threat: "You will be sacrificed."
- Same month: Bill Shorten uses this threat to enforce exile from Victoria, stripping Dr. McLean of housing, community, and support.
- Ongoing: Family abandonment continues. They are suspected of colluding for financial gain.

This pattern meets the Rome Statute, Article 7(1)(h) definition of crimes against humanity: systematic persecution against an identifiable group.

## **4. Legal Framework for International Protection**

Dr. McLean qualifies under multiple pillars of international human rights law:

### **A. 1951 Refugee Convention & 1967 Protocol (UNHCR Criteria)**

- He faces persecution on grounds of political opinion, sexual orientation, disability status, and whistleblower activity.
- The state is both unwilling and unable to protect him, as demonstrated by state-backed abuse and institutional retaliation.

## **B. Rome Statute of the International Criminal Court – Article 7**

- Dr. McLean is the target of a state-enabled network of fraud, violence, and suppression.
- The assault is not random—it is systematic, organized, and documented.
- These actions qualify as crimes against humanity.

## **C. UN Convention Against Torture (CAT)**

- Article 1: Severe mental and physical suffering inflicted for coercive purposes
- Article 16: Cruel, inhuman or degrading treatment
- Dr. McLean's trauma, brain injury, institutional abuse, and abandonment are unquestionably violations.

[International Legal Documents](#)

[Legal Filings](#)

## **5. Financial Devastation**

The economic toll of the persecution is monumental.

### **Breakdown:**

- \$7.8M – Identity theft and brand destruction across 350+ ABNs
- \$5.2M – Career sabotage, lost publishing deals, speaking engagements, academic contracts
- \$4.9M – Legal costs, destroyed property, lost vehicle, medical neglect
- \$15M – Psychological torture, pain and suffering, and lifelong trauma

Despite these losses, Dr. McLean receives no income or welfare. His intellectual and creative property has been systematically exploited by others.

## **6. Call to Immediate International Emergency Intervention**

This report serves as a final lifeline. Dr. McLean has assembled one of the most extensive persecution archives in Australian legal history—and yet remains days from death due to official inaction.

Dr. Richard William McLean (Barran Dodger)

**Subject: URGENT DEMAND FOR POLICE  
PROTECTION & INVESTIGATION – LIFE-  
THREATENING PERSECUTION**

**Background**

I am writing to you as a matter of extreme urgency. I, Dr. Richard William McLean, am a whistleblower, artist, and mental health advocate facing imminent danger to my life. I have been subjected to a verified 35-year campaign of systematic persecution, including identity theft, corporate fraud, medical neglect, and direct death threats issued by government-linked actors.

A specific, credible, and recorded assassination threat was made by an NDIS official, Tony Riddle, who stated:

“You will be sacrificed.”

This is not hyperbole. It is a documented threat tied to years of bureaucratic and institutional harassment, fraud, and deprivation.

## **Police Inaction**

Despite multiple attempts to engage police for protection and investigation, I have received no assistance from your department. I have been:

- Evicted without support
- Institutionalized without treatment
- Deprived of my emotional support animal and vehicle
- Targeted with threats to my life

Your department's continued inaction has left me fully exposed and without recourse to safety or justice. I must remind you that this is not merely a matter of oversight—it is a dereliction of duty under Australian law, the International Covenant on Civil and Political Rights, and the Convention Against Torture.

## **Evidence**

My case is extensively documented. I have compiled over 3,800 pages of evidence covering identity theft, financial sabotage, official correspondence, psychiatric records, legal decisions, and international violations.

Please review my formal case report immediately:

[Urgent Case Report – Full PDF](#)

This report has been prepared in line with UNHCR standards and is being submitted to international bodies for immediate intervention.

## **Demand**

I am hereby formally demanding the following actions:

1. Immediate protective custody and emergency housing support to safeguard my life.
2. An official police investigation into the credible assassination threat made by Tony Riddle and the associated acts of fraud and abuse.
3. Formal documentation and investigation regarding the confiscation of my dog and vehicle, which were seized without due process.

Failure to act on this letter will be interpreted as deliberate negligence, potentially complicit with the perpetrators. This letter will be submitted to:

- The United Nations High Commissioner for Human Rights
- The International Criminal Court
- Global human rights monitors and media outlets

## **Conclusion**

My life is in immediate danger. You are legally and morally obligated to act. I request a written acknowledgment of this letter within 12 hours of receipt. Any delay will be logged as part of a broader case file documenting institutional abuse and human rights violations.

Sincerely,

Dr. Richard William McLean (Barran Dodger)
